

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 117**

[Docket No. USCG–2015–0806]

Drawbridge Operation Regulation; English Kills, Brooklyn, NY**AGENCY:** Coast Guard, DHS.**ACTION:** Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Metropolitan Ave. Bridge, across the English Kills, mile 3.4, at Brooklyn, New York. This deviation is necessary to remove lead based paint in the bridge control house electrical room. This deviation allows the bridge to remain in the closed position for 3 days.

DATES: This deviation is effective from 12:01 a.m. on September 10, 2015 through 11:59 p.m. on September 12, 2015.

ADDRESSES: The docket for this deviation, [USCG–2015–0806] is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this deviation. You may also visit the Docket Management Facility in Room W12–140, on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, contact Ms. Judy K. Leung-Yee, Project Officer, First Coast Guard District, telephone (212) 514–4330, email judy.k.leung-yee@uscg.mil. If you have questions on viewing the docket, call Ms. Cheryl Collins, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION: The Metropolitan Ave. Bridge, mile 3.4, across the English Kills has a vertical clearance in the closed position of 10 feet at mean high water and 15 feet at mean low water. The existing bridge operating regulations are found at 33 CFR 117.801(e).

The waterway has one commercial facility located upstream of the bridge.

New York City DOT requested this temporary deviation from the normal operating schedule to facilitate essential maintenance repairs.

Under this temporary deviation, the Metropolitan Ave. Bridge may remain in the closed position from 12:01 a.m. on September 10, 2015 through 11:59 p.m. on September 12, 2015.

The bridge will not be able to open in the event of an emergency. There is no alternate route for vessel traffic; however, vessels that can pass under the closed draws during this closure may do so at any time.

The Coast Guard will inform the users of the waterway through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: August 27, 2015.

RIN 2070–AB27**Significant New Use Rule on Substituted Cyclosiloxane; Removal****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: EPA is removing a significant new use rule (SNUR) promulgated under the Toxic Substances Control Act (TSCA) for substituted cyclosiloxane that was the subject of a premanufacture notice (PMN). EPA published this SNUR using direct final rulemaking procedures. EPA received a notice of intent to submit adverse comments on this rule. Therefore, the Agency is removing this SNUR. EPA intends to publish a proposed SNUR for this chemical substance under separate notice and comment procedures.

DATES: This final rule is effective September 2, 2015.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPPT–2015–0220, is available at <http://www.regulations.gov>

or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC. SUPPLEMENTARY INFORMATION:**I. Does this action apply to me?**

A list of potentially affected entities is provided in the **Federal Register** of June 5, 2015 (80 FR 32003) (FRL–9927–67). If you have questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

II. What SNUR is being removed?

In the June 5, 2015 **Federal Register**, EPA issued a direct final SNUR for the chemical substance that is identified in this final rule. This direct final SNUR was issued pursuant to the procedures in 40 CFR part 721, subpart D. EPA is removing the direct final SNUR issued for the chemical substance identified generically as substituted cyclosiloxane, which was the subject of PMN P–14–605.

This direct final rule was issued pursuant to the procedures in 40 CFR part 721, subpart D. Section 721.170(d)(4)(i)(B) provides that EPA will withdraw the relevant portion of such a direct final rule if within 30 days of publication the Agency receives a notice of intent to submit adverse comments on the SNUR. EPA received a notice of intent to submit adverse comments on the SNUR, but mistakenly did not withdraw the direct final rule as required by § 721.170(d)(4)(i)(B). The

Agency is therefore removing the rule issued for the chemical substance that was the subject of PMN P-14-605. EPA intends to publish a proposed SNUR for this chemical substance under separate notice and comment procedures.

For further information regarding EPA's direct rulemaking process for issuing SNURs, see 40 CFR part 721, subpart D, and the **Federal Register** of July 27, 1989 (54 FR 31314).

III. Good Cause Finding

EPA determined that there is good cause to first; promulgate this final rule without opportunity for notice and comment in accordance with section 553(b)(B) of the Administrative Procedure Act (APA), and second; make the rule effective on the date of publication in accordance with section 553(d) of the APA. Good cause exists because the direct final rule was allowed to become effective in violation of § 721.170(d)(4)(i)(B).

IV. Statutory and Executive Order Reviews

This action removes regulatory requirements that were not intended to go into effect. As such, the Agency has determined that this removal will not have any adverse impacts, economic or otherwise. The statutory and Executive Order review requirements applicable to this action were discussed in the June 5, 2015 **Federal Register**. Those review requirements do not apply to this action because it is a removal and does not contain any new or amended requirements.

V. Congressional Review Act (CRA)

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). Section 808 of the CRA allows the issuing agency to make a rule effective sooner than otherwise provided by CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. As required by 5 U.S.C. 808(2), this determination is supported by a brief statement in Unit III.

[EPA–R09–OAR–2014–0256; FRL–9927–14–Region 9]

Approval and Promulgation of Implementation Plans; Arizona; Phased Discontinuation of Stage II Vapor Recovery Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve a state implementation plan (SIP) revision from the Arizona Department of Environmental Quality related to the

removal of "Stage II" vapor recovery equipment at gasoline dispensing facilities in the Phoenix-Mesa area. Specifically, the EPA is approving a SIP revision that eliminates the requirement to install and operate such equipment at new gasoline dispensing facilities, and that provides for the phased removal of such equipment at existing gasoline dispensing facilities from October 2016 through September 2018. The EPA has previously determined that onboard refueling vapor recovery is in widespread use nationally and waived the stage II vapor recovery requirement. The EPA is approving this SIP revision because the resultant short-term incremental increase in emissions would not interfere with attainment or maintenance of the national ambient air quality standards or any other requirement of the Clean Air Act and because it would avoid longer-term increases in emissions from the continued operation of stage II vapor recovery equipment at gasoline dispensing facilities in the Phoenix-Mesa area.

DATES: This direct final rule is effective on November 2, 2015 unless the EPA receives adverse comments by October 2, 2015. If adverse comments are received, the EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket No. EPA–R09–OAR–2014–0256, by one of the following methods:
