SUMMARY: HRSA has issued a 12-month project period extension with full funding for the Home Visiting Research Network Cooperative Agreement (HVRN) for the current budget period to Johns Hopkins University (JHU). The Maternal, Infant, and Early Childhood Home Visiting Program is authorized by the Social Security Act, Title V, Part D, Section 511(h)(3) (42 U.S.C. 711(h)(3)).

The Home Visiting Research Network carries out a continuous program of research and evaluation activities in order to increase knowledge about the implementation and effectiveness of home visiting programs, with the goal of improving health, development, and family outcomes for mothers, infants, and young children.

SUPPLEMENTARY INFORMATION:

Justification

HRSA has awarded a 12-month project period extension with full funding of the approved Federal direct cost budget authorized for the current budget period to Johns Hopkins

University for the Home Visiting Research Network (HVRN) for the purpose of continuing the HVRN for an additional year.

The current HVRN recipient continues to achieve the original goals required by HRSA and an additional award year will further accelerate the project to build on its national leadership in the field of home visiting research, seamlessly continue its cultivation of new funders to support new network translational and practice-based research, and capitalize on the increasing visibility of MIECHV which engages more communities, stakeholders and investors.

Not only will this additional year allow for uninterrupted growth of the network activities, but also this additional time will also allow HRSA to better align future HVRN funding opportunity announcements with current home visiting research needs based on the outcomes of the FY 2014 performance improvement assessment and benchmark improvement needs.
