Endangered and Threatened Wildlife and Plants; Proposed Low-Effect Habitat Conservation Plan for the Desert Tortoise, Nye County, Nevada

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Receipt of application; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announce receipt from Valley Electric Association, Inc. of an application for a 30-year incidental take permit (permit) under the Endangered Species Act of 1973, as amended (Act). The requested permit would authorize take of the Mojave desert tortoise resulting from the construction, operation, and maintenance of a solar photovoltaic facility in the town of Pahrump, Nevada. The permit application includes a proposed low-effect habitat conservation plan (HCP) that incorporates measures the applicant would implement to minimize and mitigate effects of project activities on the desert tortoise. In accordance with the requirements of the National Environmental Policy Act (NEPA), we have prepared a draft low-effect screening form supporting our preliminary determination that the proposed action qualifies as a categorical exclusion under NEPA. We are accepting comments on the permit

application, proposed low-effect HCP, and draft NEPA compliance documentation.
