SUPPLEMENTARY INFORMATION:

I. *MMNA's Petition:* Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see

²¹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

implementing rule at 49 CFR part 556), MMNA submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of MMNA's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. *Vehicles Involved*: Affected are approximately 300 MY 2015 Mitsubishi Outlander Sport multipurpose passenger vehicles manufactured between December 8, 2014 and December 22, 2014.

III. *Noncompliance*: MMNA explains that the quarter panel window glazing installed in the subject vehicles were labeled with the manufacturer's model number "M-66", indicating a tempered glass construction and "AS2", incorrectly indicating the glass is relatively transparent (light transmission of at least 70%). The correct manufacturer's model number, which should have been affixed to the quarter panel glass window, is "M-131" (which corresponds to a tempered "privacy" glass construction and a light transmission of 25%).

IV. *Rule Text*: Paragraph S6 of FMVSS No. 205 requires in pertinent part:

S6 Tire Markings. Except as specified in paragraphs, each tire shall be marked on each sidewall with the information specified in paragraphs (a) through (j) of this section. . .

V. *Summary of MMNA's Analyses*: MMNA stated its belief that the subject noncompliance is inconsequential to motor vehicle safety for the following reasons:

(A) MMNA stated that the quarter panel glass windows otherwise meet all other marking and performance requirements of FMVSS No. 205.

(B) MMNA believes that because the affected glazing fully meets all of the applicable performance requirements, the absence of the correct "M" number in their monogram has no effect upon the degree of driver visibility or the possibility of occupants being thrown through the vehicle windows in a collision.

(C) MMNA stated its belief that NHTSA has previously granted inconsequential noncompliance petitions regarding what it believes are similar noncompliances.

(D) MMNA is not aware of any crashes, injuries, customer complaints or field reports associated with this condition.

In summation, MMNA believes that the described noncompliance of the subject vehicles is inconsequential to motor vehicle safety, and that its petition, to exempt MMNA from

providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject vehicles that MMNA no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve vehicle distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant vehicles under their control after MMNA notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8)

Director, Office of Vehicle Safety Compliance.
