

Village, Suite 749, Birmingham, Alabama 35209, filed in Docket No. CP15-545-000, a prior notice request pursuant to sections 157.205, and 157.210 of the Federal Energy Regulatory Commission's regulations under the Natural Gas Act (NGA) and its blanket authority granted in Docket No. CP82-406-000 on September 1, 1982, seeking authorization to, among other things, uprate the horsepower at the Ellerslie Compressor Station, uprate the maximum allowable operating pressure to 720 pounds per square inch of its Montgomery-Columbus Line, and other facilities modifications to its South Main Pipeline System in Clarke County, Mississippi; Harris, Decatur, Lee, Early and Worth Counties, Georgia; and Tallapoosa, Macon, Dallas and Lee Counties, Alabama in order to increase capacity by 4.991 million cubic feet per day as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the Request should be directed to Pamela R. Donaldson, Senior Regulatory Analyst II, Southern Natural Gas Company, 569 Brookwood Village, Suite 749, Birmingham, Alabama 35209, at (205) 325-3739 or pamela_donaldson@kindermorgan.com.

Any person may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention. Any person filing to intervene or the Commission's staff may, pursuant to section 157.205 of the Commission's Regulations under the NGA (18 CFR 157.205) file a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and

place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenter's will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenter's will not be required to serve copies of filed documents on all other parties. However, the non-party commentary, will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and ill not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (www.ferc.gov) under the "e-Filing" link. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

Dated: August 25, 2015.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER15-2590-000]

Triolith Energy Fund LP; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Triolith Energy Fund LP's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is September 22, 2015.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email

FERCOnlineSupport@ferc.gov. or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: September 2, 2015.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9933-54-Region 2]

New York State Prohibition of Discharges of Vessel Sewage; Notice of Final Determination

AGENCY: Environmental Protection Agency.

ACTION: Notice of determination.

SUMMARY: Notice is hereby given that, pursuant to 33 CFR 1322(f)(3) and 40 CFR 140.4(a), the State of New York has determined that the protection and enhancement of the waters of Seneca Lake, Cayuga Lake, the Seneca River and tributaries thereto require greater environmental protection than the applicable Federal standards provide and petitioned the United States Environmental Protection Agency (EPA), Region 2 for a determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of Seneca Lake, Cayuga Lake and the Seneca River, so that the State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters. New York State proposes to establish a vessel waste No Discharge Zone (NDZ) covering the approximately 150 square miles of connected waters and tributaries of Seneca Lake, Cayuga Lake and the Seneca River.

FOR FURTHER INFORMATION CONTACT: Moses Chang, (212) 637-3867, email address: chang.moses@epa.gov.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the State of New York (NYS or State) has petitioned the United States Environmental Protection Agency, Region 2, pursuant to section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for Seneca Lake, Cayuga Lake and the Seneca River.

Adequate facilities are defined as one sewage pumpout station for every 300 to 600 boats pursuant to the Clean Vessel

Act; Pumpout Station and Dump Station Technical Guidelines (**Federal Register**, Vol. 59, No. 47, March 10, 1994).

On April 17, 2015, EPA published notice of its tentative affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for Seneca Lake, Cayuga Lake and the Seneca River, and its approval of New York's proposal to ban the discharge of treated and untreated sewage from vessels into those waters under Clean Water Act ("CWA") § 312(f)(3). (78 FR 59681, September 27, 2013) EPA solicited public comments for 30 days, and the comment period ended on May 17, 2015. EPA received a total of twenty two comments via letter and email. All of the twenty two commenters support EPA's proposed determination. All of the relevant comments received have been considered, as discussed below, and EPA hereby issues a final affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available within Seneca Lake, Cayuga Lake and the Seneca River.

EPA Response to Public Comments on the April 17, 2015 Tentative Affirmative Determination

Comment 1: Several commenters, including boaters, residents, Non-Governmental Organizations (NGOs) and community advocates expressed strong support for the establishment of a vessel waste no discharge zone ("NDZ") for Seneca Lake, Cayuga Lake, the Seneca River and tributaries thereto. Some commenters pointed out that this action will reduce pathogens and chemicals, improve water quality and further protect drinking water, wildlife habitats and restore the lakes.

EPA Response: The petition was submitted under CWA § 312(f)(3), which allows New York to establish a vessel sewage no discharge zone if the state determines that the protection and enhancement of the quality of some or all of the waters within the state require greater environmental protection and if EPA determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available within those waters. These comments are consistent with New York's determination of need.

Comment 2: One commenter suggested that stricter enforcement regulations for sewage discharge in Seneca Lake, Cayuga Lake and the Seneca River are needed.

EPA Response: We appreciate this comment. EPA's determination in the

present action is limited to whether adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available within Seneca Lake, Cayuga Lake and the Seneca River and does not address the adequacy of enforcement of the proposed ban. This comment is noted but is beyond the scope of EPA's determination on this matter.

Comment 3: One commenter supports the proposed NDZ and suggests that EPA and DEC do more to protect water quality from land use changes, pollution discharges and energy development.

EPA Response: We appreciate this comment. As noted above, EPA's determination in the present action is limited to whether adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available within Seneca Lake, Cayuga Lake and the Seneca River and does not address the need for additional efforts to protect water quality. This comment is noted but is beyond the scope of EPA's determination on this matter.

Certification of Need: New York's petition contains a certification by the Commissioner of the New York State Department of Environmental Conservation (NYSDEC) that the protection and enhancement of Seneca Lake, Cayuga Lake, the Seneca River and the navigable tributaries thereto, requires greater environmental protection than the applicable Federal standards provide. The certification states that Seneca Lake and Cayuga Lake are water bodies of unique ecological, economic and public health significance, as well as drinking water sources. Pathogens and chemicals contained in the currently-lawful effluent from discharging marine sanitation devices (MSDs) threaten public health and the environment and contravene the State's ongoing efforts to control point and non-point source pollution from municipal discharges, combined sewer overflows and storm water runoff. The proposed NDZ represents one component of a comprehensive approach to water quality management. Protecting Seneca Lake, Cayuga Lake and the Seneca River warrants this greater level of environmental protection in order to maintain excellent water quality, prevent future degradation and speed the recovery of impaired segments.

Seneca Lake is the largest and deepest of all the Finger Lakes at 4.2 trillion gallons in volume and 291 feet in average depth. The maximum depth of the lake is 618 feet. The Seneca Lake Watershed comprises 14% of the greater Oswego River Watershed. While the
