The Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, requires an agency to invite public comment on, and to obtain OMB approval of, any regulation that requires 10 or more people to report information to the agency or to keep certain records. However, the rule may result in an increase in the contribution made by New York City for treatment and monitoring, as required by Title XXXIII, sec. 3331(d)(2).

F. Executive Order 12988 (Civil Justice)

This proposed rule has been drafted and reviewed in accordance with Executive Order 12988, “Civil Justice Reform,” and will not unduly burden the Federal court system. This rule has been reviewed carefully to eliminate drafting errors and ambiguities.

G. Executive Order 13132 (Federalism)

The Administrator has reviewed this proposed rule in accordance with Executive Order 13132 regarding

federalism, and has determined that it does not have “federalism implications.” The rule does not “have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.”

H. Executive Order 13045 (Protection of Children from Environmental Health Risks and Safety Risks)

In accordance with Executive Order 13045, the Administrator has evaluated the environmental health and safety effects of this proposed rule on children. The Administrator has determined that the rule would have no environmental health and safety effect on children.

In accordance with Executive Order 13211, the Administrator has evaluated the effects of this proposed rule on energy supply, distribution or use, and has determined that the rule will not have a significant adverse effect.

RIN 1004–AE15

Onshore Oil and Gas Operations; Federal and Indian Oil and Gas Leases; Site Security

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed rule; extension of public comment period.

SUMMARY: On July 13, 2015, the Bureau of Land Management (BLM) published in the Federal Register a proposed rule to establish minimum standards for site security at oil and gas facilities located on Federal and Indian (except Osage Tribe) lands. This proposed rule would

replace Onshore Oil and Gas Order No. 3, Site Security (Order 3), with new regulations that would be codified in the Code of Federal Regulations. It includes provisions intended to ensure that oil and gas produced from Federal and Indian oil and gas leases are properly and securely handled, to ensure accurate measurement, production accountability, and royalty payments, and to prevent theft and loss.

The changes proposed as part of this proposed rule would allow the BLM to strengthen its policies governing production verification and accountability by updating Order 3's requirements to address changes in technology and industry practices that have occurred in the 25 years since Order 3 was issued, and to respond to recommendations made by the Government Accountability Office with respect to the BLM's production verification efforts. This notice extends the public comment period for 28 days beyond the initial comment-period deadline on the proposed rule.

DATES: The comment period for the proposed rule published on July 13, 2015 (80 FR 40768) is extended. Send your comments on this proposed rule to the BLM on or before October 9, 2015.
