The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** McEwen Mining Inc. (McEwen) proposes to develop a gold mine in the southwest portion of the Roberts Mountains, approximately 30 miles northwest of Eureka, Nevada. The proposed McEwen Gold Bar Mine Project (Project) consists of a mining Plan of Operations and four ROW grant authorizations to be analyzed in a single NEPA analysis document. Mining would occur from the existing Gold Pick and Gold Ridge pits and the proposed Cabin Creek North and South pits. Additional disturbance would be result from activities associated with gold mining operations, including waste rock disposal areas, crusher and ore stockpile pad, growth media stockpiles, process ponds, haul roads, access roads and power lines, heap leach facility, ancillary facilities, and diversion channels and sediment basins. Total proposed Project disturbance would be approximately 1,300 acres, including disturbance associated with the ROWs (consisting of approximately 1,137 acres of surface disturbance on public land and 163 acres of surface disturbance on private land controlled by McEwen, as well as other private land owners); 366 acres of the total disturbance would occur on areas disturbed by previous mining operations. The proposed Project would take up to 17 years to complete, including: A year of pre-stripping and construction, 8 years of mining, 4 years of reclamation following mine closure, and 4 years of post-reclamation monitoring. The proposed

pit depths would not intercept groundwater. No pit dewatering would be necessary and no pit lakes are expected to form after mining operations end. The Project is expected to employ 151 individuals comprised of 90 contractors and 61 staff.

Mt. Wheeler Power requested a ROW grant authorization to supply needed power to the Project. McEwen has requested three ROW grant authorizations for the following: 1) Primary access along the Atlas Haul Road; 2) Employee transport and emergency secondary access along North Roberts Creek Road and GB Process Road; and 3) A water supply pipeline.

The Gold Bar Project boundary contains 916.5 acres of Greater Sage-Grouse Preliminary Priority Habitat (PPH) on BLM-managed public lands. The total mine disturbance, including the right-of-way (ROW), affecting Greater Sage-Grouse habitat on public land is 294 acres of PPH and 36 acres of Preliminary General Habitat (PGH). Since 2013, BLM biologists at the Mount Lewis Field Office have coordinated with the Nevada Department of Wildlife and the BLM State Office regarding Gold Bar's ROW and disturbance to Greater Sage-Grouse habitat. Collectively, the organizations formulated best management practices for Greater Sage-Grouse and other wildlife species and developed measures to offset the potential disturbance associated with the project to benefit Greater Sage-Grouse habitat. For example, as a result of this collaboration, the proposed project's power line was re-routed to use pre-existing routes in order to minimize effects to Greater Sage-Grouse habitat. These and other measures, including compliance with the Nevada and Northeastern California Greater Sage-Grouse Land Use Plan Amendment, if finalized, will be among the issues analyzed in the EIS.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues: Water resources; air quality; vegetation resources (including noxious weeds); wildlife (including migratory birds and Greater Sage-Grouse); special status species; grazing management; land use and access; aesthetics (noise and visual); cultural resources; geological resources; minerals; soils; recreation; social and economic values; hazardous materials; Native American cultural concerns; and wild horses.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement requirements under the National Historic Preservation Act (NHPA) (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed Project will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and NHPA.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed Project that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[LLCAC09000, L1430; CACA 008215]

#### Public Land Order No. 7840; Revocation of Withdrawal Created by Executive Order No. 5732, California

**AGENCY:** The Bureau of Land Management.

**ACTION:** Public Land Order.

**SUMMARY:** This order revokes in its entirety the withdrawal created by Executive Order No. 5732 dated October 14, 1931, which withdrew 40 acres of public land from settlement, location, sale, or entry for use as a lookout station

in connection with cooperative forest protection work. The withdrawal for the lookout station is no longer needed. This action will restore the land to operation of the public land laws.

**DATES:** Effective date: September 11, 2015.

**FOR FURTHER INFORMATION CONTACT:**

Christine Sloand, Realty Specialist, at 831-630-5022 or via email at [csloand@blm.gov](mailto:csloand@blm.gov). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to reach the BLM contact person. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The Executive Order withdrew 40 acres of land on Smith Mountain for a lookout station used by the State of California Division of Forestry. Because the land is no longer used for lookout station purposes, the Bureau of Land Management has determined that the withdrawal is no longer needed.

**Order**

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

The withdrawal created by Executive Order No. 5732 of October 14, 1931, which temporarily withdrew the following described land from settlement, location, sale, or entry for use as a lookout station, is hereby revoked in its entirety:

**Mount Diablo Meridian**

T. 21 S., R. 13 E.,  
Sec. 29, NE $\frac{1}{4}$ NW $\frac{1}{4}$ .

The area described contains 40.00 acres, more or less, in Monterey and Fresno Counties.

At 10 a.m., on October 13, 2015, the above-described land will be open to operation of the public land laws, generally, including the mining laws, and to settlement, location, sale, or entry, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on October 13, 2015, shall be considered as simultaneously filed at that time. Those received

thereafter shall be considered in the order of filing.

**Janice M. Schneider,**

*Assistant Secretary—Land and Minerals Management.*

**BILLING CODE 4310-40-P**

**INTERNATIONAL TRADE COMMISSION**

**[Investigation Nos. 701-TA-539 and 731-TA-1280-1282 (Preliminary)]**

**Heavy Walled Rectangular Welded Carbon Steel Pipes and Tubes From Korea, Mexico, and Turkey; Determinations**

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of heavy walled rectangular welded carbon steel pipes and tubes from Korea, Mexico, and Turkey, provided for in subheadings 7306.61.10 and 7306.61.30 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and that are allegedly subsidized by the government of Turkey.

**Commencement of Final Phase Investigations**

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission’s rules, upon notice from the Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under

investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

**Background**

On July 21, 2015, Atlas Tube, a division of JMC Steel Group (Chicago, Illinois), Bull Moose Tube Company (Chesterfield, Missouri), EXLTUBE (North Kansas City, Missouri), Hannibal Industries, Inc. (Los Angeles, California), Independence Tube Corporation (Chicago, Illinois), Maruichi American Corporation (Santa Fe Springs, California), Searing Industries (Rancho Cucamonga, California), Southland Tube (Birmingham, Alabama), and Vest, Inc. (Los Angeles, California) filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured and threatened with material injury by reason of LTFV and subsidized imports of heavy walled rectangular welded carbon steel pipes and tubes from Korea, Mexico, and Turkey. Accordingly, effective July 21, 2015, the Commission, pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No. 701-TA-539 and antidumping duty investigation Nos. 731-TA-1280-1282 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 27, 2015 (80 FR 44383). The conference was held in Washington, DC, on August 11, 2015, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on September 4, 2015. The views of the Commission are contained in USITC Publication 4563 (September 2015), entitled *Heavy Walled Rectangular Welded Carbon Steel Pipes and Tubes from Korea, Mexico, and Turkey: Investigation Nos. 701-TA-539 and 731-TA-1280-1282 (Preliminary)*.

<sup>1</sup> The record is defined in sec. 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).
