

on ICR that the agency is seeking OMB approval. *See* 80 FR 35712. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summary below describes the nature of the information collection requests (ICRs) and the expected burden. The revised request is being submitted for clearance by OMB as required by the PRA.

Title: Railroad Locomotive Safety Standards and Event Recorders.

OMB Control Number: 2130-0004.

Abstract: The Locomotive Inspection requires railroads to inspect, repair, and maintain locomotives and event recorders so that they are safe, free of defects, and can be placed in service without peril to life. Crashworthy locomotive event recorders provide FRA with verifiable factual information about how trains are maintained and operated, and are used by FRA and State inspectors for part 229 rule enforcement. The information garnered from crashworthy event recorders is also used by railroads to monitor railroad operations and by railroad employees (locomotive engineers, train crews, dispatchers) to improve train handling, and promote the safe and efficient operation of trains throughout the country, based on a surer knowledge of different control inputs.

Type of Request: Extension with Change of a Currently Approved Information Collection.

Affected Public: Businesses (Railroads).

Form(s): FRA F 6180.49A.

Annual Estimated Burden: 2,087,543 hours.

Title: FRA Emergency Order No. 31, Notice No. 1.

OMB Control Number: 2130-0611.

Abstract: On May 21, 2015, FRA issued Emergency Order No. 31 (EO or

Order) to require that the National Railroad Passenger Corporation (Amtrak) take actions to control passenger train speed at certain locations on main line track in the Northeast Corridor (as defined by 49 U.S.C. 24905(c)(1)(A)). Amtrak was required to immediately implement code changes to its Automatic Train Control (ATC) System to enforce the passenger train speed limit ahead of the curve at Frankford Junction in Philadelphia, Pennsylvania, where a fatal accident occurred on May 12, 2015. Amtrak was also required to identify all other curves on the Northeast Corridor where there is a significant reduction (more than 20 miles per hour (mph)) from the maximum authorized approach speed to those curves for passenger trains. Amtrak was then required to develop and comply with an FRA-approved action plan to modify its existing ATC System or other signal systems (or take alternative operational actions) to enable enforcement of passenger train speeds at the identified curves. Amtrak also had to install additional wayside passenger train speed limit signage at appropriate locations on its Northeast Corridor right-of-way. FRA is continuing this Emergency Order in full force and effect, and is now seeking regular clearance for the information collection associated with this Emergency Order.

Type of Request: Extension with Change of a Currently Approved Information Collection.

Affected Public: Businesses (Railroads).

Form(s): N/A.

Annual Estimated Burden: 245 hours.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street NW., Washington, DC, 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: oir-submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.

[Docket No. FD 35922]

Western Washington Railroad, LLC— Operation Exemption—Port of Chehalis

Western Washington Railroad, LLC (WWRR) has filed a verified notice of exemption under 49 CFR 1150.41 to operate, pursuant to a sublicense agreement dated May 6, 2014,¹ with the Chehalis-Centralia Railroad & Museum (CCRM), a noncarrier excursion train operator, approximately 10.2 miles of rail line owned by the Port of Chehalis (the Port) between milepost 0.0 at the junction with the City of Tacoma's rail line (Tacoma Rail milepost 67.0) and

¹ This notice was originally filed on July 13, 2015. On July 27, 2015, in order to clarify the nature of the rights being acquired, WWRR filed a redacted and an unredacted version of the agreement. On the same date, WWRR filed a motion for protective order pursuant to 49 CFR 1104.14(b) to allow the filing under seal of the unredacted agreement. In a decision served on August 12, 2015, the Board granted the motion for a protective order. On the same date, the Board also served a decision to hold the proceeding in abeyance, and directed WWRR to file supplemental information by September 1, 2015, to inform the Board why it postponed seeking Board authorization to operate on the Line and whether the parties need Board authorization for any agreements incorporated into the sublicense agreement by reference. The supplemental information was submitted to the Board on August 31, 2015.

milepost 10.2 in Curtis, Lewis County, Wash.

WWRR states that neither the sublicense agreement between WWRR and CCRM nor the license agreement between CCRM and the Port contain any provision that prohibits WWRR from interchanging traffic with a third party or that limits WWRR's ability to interchange with a third party. WWRR also states that the Port has provided its consent to the sublicense agreement.

The parties may consummate the transaction on or after September 30, 2015, the effective date of this exemption (30 days after the verified notice was filed).

WWRR certifies that the projected annual revenues as a result of this transaction will not result in WWRR's becoming a Class I or Class II rail carrier and will not exceed \$5 million.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed by September 23, 2015 (at least seven days prior to the date the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 35922, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on applicant's representative, W. Karl Hansen, Stinson Leonard Street LLP, 150 South Fifth Street, Suite 2300, Minneapolis, MN 55402.
