

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>5</sup> in general, and Section 6(b)(4) of the Act,<sup>6</sup> in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

The Exchange believes that it is reasonable, equitable, and not unfairly discriminatory to eliminate the disaster recovery network fee as the Exchange is in the process of moving its backup datacenter to a new facility. During the period of this move, the Exchange expects that the telecommunications vendors currently connected to the backup datacenter will continue to provide access to interested parties in order to facilitate access to the Exchange in the event the primary datacenter is not operational. As members move their connections over to the new backup facility, however, the telecommunications vendors will be able to provide service to an increasingly narrow field of market participants. Given the expected reduction in the demand for connectivity through the telecommunication vendors, and the substantial hardware and other costs the vendors have already incurred in establishing and maintaining connectivity to the backup datacenter, the Exchange has determined to eliminate the disaster recovery network fee. The Exchange believes that eliminating this fee during the crossover period will facilitate access to the backup datacenter while the Exchange moves over to its new facility by making it economical for the telecommunications vendors to remain connected and to continue to provide connectivity to interested market participants.

### *B. Self-Regulatory Organization's Statement on Burden on Competition*

In accordance with Section 6(b)(8) of the Act,<sup>7</sup> the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange is eliminating a fee charged to telecommunications vendors connected to the backup datacenter in anticipation of its move to a new facility. This change will facilitate access to the backup datacenter by making it

economical for the telecommunications vendors to maintain their connections so that market participants can connect through them until they are moved over to the new backup datacenter, and will not impose any burden on competition.

### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act<sup>8</sup> and subparagraph (f)(2) of Rule 19b-4 thereunder,<sup>9</sup> because it establishes a due, fee, or other charge imposed by ISE.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

**DEPARTMENT OF TRANSPORTATION**

**Federal Aviation Administration**

**Aviation Rulemaking Advisory Committee—New Task**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of a new task assignment for the Aviation Rulemaking Advisory Committee (ARAC).

**SUMMARY:** The FAA assigned the Aviation Rulemaking Advisory Committee (ARAC) a new task to provide recommendations on how the agency can utilize external training providers for its new-hire air traffic controller training program. The ongoing modernization of the air traffic control system, NextGen, will continually introduce advanced tools and procedures to enhance the safety and efficiency of the National Airspace System. Controllers will continue to need to know basic air traffic control skills but will also need to understand how to operate in the future operational environment. The FAA seeks to transform the air traffic controller training structure by shifting the Agency's focus from basic air traffic control qualification training to training the certified controller work force on advanced NextGen tools and procedures. This would mirror the changes that were required in the pilot community. The Agency is exploring alternative options to utilize external training provider capabilities that would expose prospective air traffic controllers to the profession. It would also provide a level of training commensurate to the current Air Traffic Basic Qualification Training, before or during the FAA controller hiring process. This notice informs the public of the new ARAC
