The area described contains 2,233.07
 acres in Crook County.

The total areas described in Wyoming
 aggregate 4,828.40 acres in Crook
 County.

The purpose of the withdrawal is to
 protect the Research Natural Areas and
 Botanical Areas and allow the USFS to
 explore administrative alternatives in
 managing the lands.

The use of a right-of-way, interagency
 agreement, or cooperative agreement
 would not provide adequate protection
 for these areas due to the broad scope
 and nondiscretionary nature of the
 general mining laws.

No alternative sites are feasible due to
 the resource significance of the areas.
 No water will be needed to fulfill the
 purpose of the requested withdrawal.

Records relating to the application
 may be examined by contacting the
 USFS, Rocky Mountain Region at the
 above address and phone number.

For a period until December 23, 2015,
 all persons who wish to submit
 comments, suggestions, or objections in
 connection with the withdrawal
 application may present their views in
 writing to the Forest Supervisor, Black
 Hills National Forest at the address
 indicated above.

Comments, including names and
 street addresses of respondents, will be
 available for public review at the Forest
 Supervisor's Office, Black Hills National
 Forest, 1019 North 5th Street, Custer,
 South Dakota 57730, during regular
 business hours. Individual respondents
 may request confidentiality. Before
 including your address, phone number,
 email address, or other personal
 identifying information in your
 comment, be advised that your entire
 comment—including your personal
 identifying information—may be made
 publicly available at any time. While
 you can ask us in your comment to
 withhold from public review your
 personal identifying information, we
 cannot guarantee that we will be able to
 do so.

Notice is hereby given that public
 meetings in connection with the
 proposed withdrawal will be held at the
 Mystic Ranger District, 8221 South Hwy
 16, Rapid City, South Dakota 57702 on
 October 27, 2015 at 6 p.m. and at the
 Sundance Community Center, Basement
 of the Crook County Courthouse, 309
 Cleveland St., Sundance, Wyoming
 82729 on October 28, 2015 at 6 p.m. The
 USFS will publish a notice of the time
 and place in a least one newspaper of
 general circulation no less than 30 days

before the scheduled dates of the
 meetings.

For a period until September 25,
 2017, subject to valid existing rights, the
 lands will be segregated from location
 and entry under the United States
 mining laws, unless the application is
 denied or canceled or the withdrawal is
 approved prior to that date. The lands
 will remain open to other uses within
 the statutory authority pertinent to
 National Forest lands and subject to
 discretionary approval.

The application will be processed in
 accordance with the regulations set
 forth in 43 CFR 2310.

Notice of Availability of the Record of Decision and Approved Resource Management Plan Amendments for the Great Basin Region Greater Sage- Grouse Sub-Regions of Idaho and Southwestern Montana; Nevada and Northeastern California; Oregon; and Utah

AGENCY: Bureau of Land Management,
 Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Land
 Management (BLM) announces the
 availability of the Record of Decision
 (ROD) and Approved Resource
 Management Plan Amendments
 (ARMPAs) for the Great Basin Region
 Greater Sage-Grouse (GRSG) sub-regions
 of Idaho and Southwestern Montana,
 Nevada and Northeastern California,
 Oregon, and Utah. The Assistant
 Secretary for Land and Minerals
 Management of the U.S. Department of
 the Interior signed the ROD.

ADDRESSES: Copies of the ROD and
 ARMPAs are available upon request and
 are also available for public inspection
 at the addresses listed in the
SUPPLEMENTARY INFORMATION
 section. Interested persons may also
 review the ROD and ARMPAs on the
 internet at <http://www.blm.gov/wo/st/en/prog/more/sagegrouse.html>.

FOR FURTHER INFORMATION CONTACT: For
 the Idaho and Southwestern Montana
 GRSG ARMPA: Jonathan Beck, BLM

The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: This ROD and the ARMPAs for the Great Basin Region GRSG sub-regions of Idaho and Southwestern Montana, Nevada and Northeastern California, Oregon, and Utah were developed through a collaborative planning process in order to incorporate land use plan level measures into existing BLM land use plans to protect, enhance, and restore GRSG and their habitat by reducing, eliminating, or minimizing threats to GRSG habitat in the context of the BLM's multiple-use and sustained yield mission under FLPMA.

The ARMPAs approved by the ROD include land use allocations that limit or eliminate new surface disturbance in GRSG Priority Habitat Management Areas (PHMA), while minimizing disturbance in GRSG General Habitat Management Areas (GHMA). The Idaho and Southwestern Montana ARMPA also includes Important Habitat Management Areas (IHMA) in Idaho, where management provides a buffer for PHMAs and connects patches of PHMAs. IHMAs encompass areas of generally moderate to high value habitat and/or populations, but that are not as important as PHMAs. The Nevada and Northeastern California ARMPA also includes Other Habitat Management Areas (OHMA), which is unmapped habitat that contains seasonal or connectivity habitat areas. BLM

management of these areas is limited to the application of required design features (RDFs) for certain authorizations when applicable.

In addition to establishing protective land use allocations, the ARMPAs implement a suite of management decisions, such as the establishment of disturbance limits, GRSG habitat objectives, mitigation requirements, monitoring protocols, and adaptive management triggers and responses, as well as other conservation measures throughout the range.

The cumulative effect of these measures is to protect, improve, and restore GRSG habitat across the remaining range of the species in the Great Basin and provide greater certainty that BLM land and resource management activities in GRSG habitat will lead to conservation of the GRSG and other species associated with the sagebrush ecosystem in the region.

The ARMPAs approved by the ROD amend the following BLM Resource Management Plans (RMPs) and Management Framework Plans (MFPs), completed in the year indicated:

The Idaho and Southwestern Montana, Nevada and Northeastern California, and Utah Draft Land Use Plan Amendments (LUPAs)/Draft Environmental Impact Statements (EISs) and Proposed LUPAs/Final EISs included proposed GRSG management direction for National Forest System lands. However, the U.S. Forest Service (USFS) has completed a separate ROD and Land and Resource Management Plans under USFS planning authorities. Management decisions within the ROD and ARMPAs apply only to BLM-administered lands.

Across all four sub-regions in the Great Basin Region, the ROD and ARMPAs amend existing land use plan decisions on a total of approximately 90 million BLM-administered surface acres.

A Notice of Availability (NOA) for the Great Basin Region GRSG Proposed LUPAs and Final EISs for the Idaho and Southwestern Montana, Nevada and Northeastern California, Oregon, and Utah sub-regions was published in the **Federal Register** on May 29, 2015, which initiated a 30-day protest period and a 60-day Governor's consistency review period.

The BLM received 133 timely and valid protest submissions across all four Great Basin Proposed LUPAs/Final EISs. All protests have been resolved and/or dismissed. For a full description of the

issues raised during the protest period and how they were addressed, please refer to the Director's Protest Resolution Reports for all four ARMPAs, which are available at the following Web site: http://www.blm.gov/wo/st/en/prog/planning/planning_overview/protest_resolution/protestreports.html.

The BLM received notifications of inconsistencies and recommendations as to how to resolve them during the Governor's consistency review period from the States of Idaho, Montana, Nevada, Oregon, and Utah. The BLM also received a concurrence letter of consistency from the State of California. On August 6, 2015, the BLM State Directors for Idaho, Montana, Nevada, Oregon, and Utah sent notification letters to their respective States as to whether they accepted or rejected their recommendations for consistency. The States were then given thirty days to appeal the State Directors' decisions. The States of Idaho, Nevada, and Utah appealed the BLM State Directors' decisions. The BLM Director affirmed the State Directors' decisions on these recommendations as the recommendations did not provide the balance required by 43 CFR 1610.3-2(e). The Director communicated his decisions on the appeals in writing to the Governors concurrently with the release of the RODS.

The Proposed LUPAs/Final EISs were selected in the ROD as the ARMPAs, with some minor modifications and clarifications based on protests received, the Governors' consistency reviews, and internal agency deliberations.

Notice of Proposed Withdrawal; Sagebrush Focal Areas; Idaho, Montana, Nevada, Oregon, Utah, and Wyoming and Notice of Intent To Prepare an Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Assistant Secretary of the Interior for Land and Minerals Management has approved an application to withdraw approximately 10 million acres of public and National Forest System lands identified as Sagebrush Focal Areas in Idaho, Montana, Nevada, Oregon, Utah, and Wyoming from location and entry under the United States mining laws to protect the Greater Sage-Grouse and its habitat from adverse effects of locatable mineral exploration and mining, subject to valid existing rights. This notice temporarily segregates the lands for up to 2 years while the application is processed. This notice also provides the public with an opportunity to comment on the proposed withdrawal application. In addition, this notice initiates the public scoping process for an Environmental Impact Statement (EIS) to analyze and disclose impacts of the proposed withdrawal.

DATES: Comments on the proposed withdrawal application or scoping comments on issues to be analyzed in the EIS must be received by December
