Approval and Promulgation of Air Quality Implementation Plans; South Dakota; Revisions to South Dakota Administrative Code

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving State Implementation Plan (SIP) revisions submitted by the State of South Dakota on July 29, 2013. This SIP submission revises the Administrative Rules of South Dakota (ARSD) Article 74:36—Air Pollution Control Program. These revisions include renumbering, revisions to the date of incorporation by reference of the federal regulations referenced throughout ARSD Article 74:36, and removal of obsolete language regarding variance provisions and clean units. EPA is also clarifying a final rule issued on January 29, 2015 pertaining to South Dakota’s infrastructure SIP. This

action is being taken in accordance with section 110 of the Clean Air Act (CAA).

DATES: This final rule is effective on November 2, 2015.

ADDRESSES: EPA has established a docket for this action under Docket Identification Number EPA-R08-OAR-2014-0916. All documents in the docket are listed on the <http://www.regulations.gov> index. Although listed in the index, some information may not be publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Air Program, Environmental Protection Agency (EPA), Region 8, 1595 Wynkoop Street, Denver, Colorado 80202-1129. EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding federal holidays.

SUPPLEMENTARY INFORMATION:

I. Background

South Dakota’s July 29, 2013 submittal covers the following rule changes: (1) Removal of obsolete language regarding variance provisions and clean units, and renumbering to reflect the deletions; and (2) Revisions to the date of federal regulations referenced throughout ARSD Article 74:36 to July 1, 2012. A cross-walk table that identifies EPA’s action on South Dakota’s revisions is included in the docket for this rulemaking.

South Dakota’s July 29, 2013 submittal also requests EPA approval of rule revisions for provisions that are not

required to be included in SIPs under section 110 of the CAA, most notably additions to the State’s New Source Performance Standards, National Emissions Standards for Hazardous Air Pollutants and Title V permitting. These revisions, on which EPA is not taking action, are outlined in the cross-walk table located in the docket for this rulemaking.

II. What action is EPA taking?

EPA is finalizing action on South Dakota’s July 29, 2013 submittal as outlined in Section III. of the proposal published on July 14, 2015, with one exception; EPA’s proposed approval of South Dakota’s updates to 74:36:05, “Operating Permits for Part 70 Sources,” as part of its July 14, 2015 action (80 FR 40953). EPA published a notice of correction of the proposal on August 24, 2015 (80 FR 51152), because CAA Title V requirements are not subject to Section 110 of the Clean Air Act and are thus not required to be incorporated into a SIP. Therefore, EPA is not taking any action on South Dakota’s updates to 74:36:05.

III. Clarification of January 29, 2015 Final Action

Under CAA sections 110(a)(1) and (2), states are required to submit infrastructure SIPs to ensure their SIPs provide for implementation, maintenance, and enforcement of the National Ambient Air Quality Standards (NAAQS). On January 29, 2015, EPA took final action on the infrastructure submittals which addressed several different NAAQS from the State of South Dakota (80 FR 4799). As part of the January 29, 2015 action, EPA approved South Dakota’s 1997 PM_{2.5} NAAQS interstate transport infrastructure sub-element (CAA section 110(a)(2)(D)(i)(II)). However, EPA had already approved this sub-element in a final rulemaking on May 8, 2008 (73 FR 26019, effective July 7, 2008). Therefore, in this action EPA is clarifying that no action was required on this sub-element for this NAAQS in the January 29, 2015 approval of CAA section 110(a)(2)(D)(i)(II) for the 1997 PM_{2.5}

NAAQS and the effective date of approval remains July 7, 2008.

IV. Response to Comments

EPA received one comment on the July 14, 2015 proposal with respect to air quality measurements. EPA acknowledges this comment but does not consider the comment to be relevant to the proposed action.

V. Summary of Action

In this rulemaking, EPA is approving most remaining portions of South Dakota's July 29, 2013 submittal as outlined in the crosswalk table located in the docket for this action. EPA is not taking action on certain portions of this submittal as described in the proposed rulemaking and the notice of correction to the proposal. Finally, EPA is also clarifying no action was required in the January 29, 2015 final action (80 FR 4799) regarding the effective date of approval for South Dakota's SIP regarding CAA section 110(a)(2)(D)(i)(II) for the 1997 PM_{2.5} NAAQS as EPA had already approved this sub-element in a prior rulemaking.

VI. Incorporation by Reference

In this rulemaking, EPA is including final EPA rule regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, EPA is incorporating by reference the rules in ARSD Article 74:36 submitted by South Dakota for action which are identified within this notice of rulemaking. EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see the ADDRESSES section of this rule's preamble for more information).

VII. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under

Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact in a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it

is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by *December 1, 2015*. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See CAA section 307(b)(2)).

40 CFR Parts 52 and 81

[EPA-R03-OAR-2015-0029; FRL-9934-82-Region 3]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Redesignation Request and Associated Maintenance Plan for the Pittsburgh-Beaver Valley Nonattainment Area for the 1997 Annual and 2006 24-Hour Fine Particulate Matter Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving the Commonwealth of Pennsylvania's request to redesignate to attainment the Pittsburgh Nonattainment Area (Pittsburgh Area or Area) for the 1997 annual and 2006 24-hour fine particulate matter (PM_{2.5}) national ambient air quality standard (NAAQS or standard). EPA has determined that the Pittsburgh Area attained both the 1997 annual and 2006 24-hour PM_{2.5} NAAQS. In addition, EPA is approving as a revision to the Pennsylvania State Implementation Plan (SIP) the associated maintenance plan to show maintenance of the 1997 annual and 2006 24-hour PM_{2.5} NAAQS through 2025 for the Pittsburgh Area. The maintenance plan includes the 2017 and 2025 PM_{2.5} and nitrogen oxides (NO_x) motor vehicle emissions budgets (MVEBs) for the Pittsburgh Area for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS, which EPA is approving for transportation conformity purposes. Furthermore, EPA is approving the 2007

emissions inventories for the 1997 annual PM_{2.5} NAAQS and the 2011 emissions inventories for the 2006 24-hour PM_{2.5} NAAQS included in the maintenance plan for the Pittsburgh Area. These actions are being taken under the Clean Air Act (CAA).

DATES: This final rule is effective on October 2, 2015.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2015-0029. All documents in the docket are listed in the www.regulations.gov Web site. SUPPLEMENTARY INFORMATION:

I. Background

On December 22, 2014, the Commonwealth of Pennsylvania, through the Pennsylvania Department of Environmental Protection (PADEP), formally submitted a request to redesignate the Pittsburgh Area from nonattainment to attainment for the 1997 annual and 2006 24-hour PM_{2.5}

NAAQS. Concurrently, PADEP submitted a maintenance plan for the Pittsburgh Area as a SIP revision to ensure continued attainment throughout the Pittsburgh Area over the next 10 years. The maintenance plan includes the 2017 and 2025 PM_{2.5} and NO_x MVEBs for the Area for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS, which EPA is approving for transportation conformity purposes. PADEP also submitted 2007 and 2011 comprehensive emissions inventories that were included in the maintenance plan for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS, respectively, for NO_x, sulfur dioxide (SO₂), volatile organic compounds (VOC), and ammonia (NH₃).

On May 20, 2015 (80 FR 28906), EPA published a notice of proposed rulemaking (NPR) for Pennsylvania. In the NPR, EPA proposed approval of Pennsylvania's December 22, 2014 request to redesignate the Pittsburgh Area to attainment for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS. EPA also proposed approval of the associated maintenance plan as a revision to the Pennsylvania SIP for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS, which includes the 2017 and 2025 PM_{2.5} and NO_x MVEBs for both NAAQS, which EPA proposed to approve for purposes of transportation conformity. In addition, EPA proposed approval of the 2007 and 2011 emissions inventories included in the Pittsburgh Area's maintenance plan for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS, respectively, to meet the emissions inventory requirement of section 172(c)(3) of the CAA.

The details of Pennsylvania's submittal and the rationale for EPA's proposed actions are explained in the NPR and will not be restated here. No adverse public comments were received on the NPR.

II. Final Actions

EPA is taking final actions on the redesignation request and SIP revisions
