Grenada Lake Hydroelectric Project .....	[Project No. 13702-002]

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations, 18 Code of Federal Regulations part 380, the Office of Energy Projects has reviewed applications for original licenses for the Arkabutla Lake Hydroelectric Project (FERC Project No. 13704-002), Sardis Lake Hydroelectric Project (FERC Project No. 13701-002), Enid Lake Hydroelectric Project (FERC Project No. 13703-002), and Grenada Lake Hydroelectric Project (FERC Project No. 13702-002). The proposed projects would be constructed at the U.S. Army Corps of Engineers' (Corps') existing Arkabutla, Sardis, Enid, and Grenada dams located within the Yazoo River Basin in Mississippi. The Arkabutla Lake Hydroelectric Project would be near the town of Hernando, Mississippi, in Tate and DeSoto Counties on the Coldwater River at river mile (RM) 86. The Sardis Lake Hydroelectric Project would be located near the town of Sardis, Mississippi, in Panola County on the Little Tallahatchie River at RM 69. The Enid Lake Hydroelectric Project would be located near the town of Enid, Mississippi, in Yalobusha County on the Yocona River at RM 14.5. The Grenada Lake Hydroelectric Project would be located near the town of Grenada, Mississippi, in Grenada County on the Yalobusha River at RM 47.3. The projects would occupy a total of 172.7 acres of federal land administered by the Corps.

Staff has prepared a multi-project environmental assessment (EA) that analyzes the potential environmental effects of constructing and operating the four projects. Based on staff's analysis

with appropriate environmental protection measures, constructing and operating the projects would not constitute a major federal action that would significantly affect the quality of the human environment.
