The purpose of this rule is to implement 41 U.S.C. 153, which establishes a higher simplified acquisition threshold (SAT) for overseas acquisitions in support of humanitarian or peacekeeping operations. FAR Case 2003–022 was published as an interim rule on February 23, 2004 (69 FR 8312) and as a final rule on December 20, 2004 (69 FR 76350). Drafters of that rule revised the definition for SAT contained at FAR 2.101, Definitions, but also inadvertently deleted the reference to overseas humanitarian or peacekeeping missions and the requisite doubling of the SAT in those circumstances. The civilian statute at the time was numbered 41 U.S.C. 259(d)(1); it is now at 41 U.S.C. 153. The purpose of this rule is to reinstate the increased SAT for overseas acquisitions for peacekeeping or humanitarian operations. Conforming changes are made in FAR parts 4, 13, 18, and 19.

II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

III. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule merely provides flexibilities associated with contracting under the

SAT for overseas acquisitions in support of humanitarian or peacekeeping operations. However, an Initial Regulatory Flexibility Analysis (IRFA) has been performed, and is summarized as follows:

The purpose of this rule is to implement 41 U.S.C. 153, which establishes a higher SAT for overseas acquisitions in support of humanitarian or peacekeeping operations. The increased threshold is limited to those procurements. In Fiscal Year 2014, 1,545 awards were made in support of humanitarian or peacekeeping operations, and 585 (37.86 percent) of these awards were to small businesses. Additionally, only 81 (5.24 percent) of the awards were valued between \$150,000 and \$300,000. Therefore, it is not anticipated that this rule will have a significant economic impact on small businesses.

The rule does not duplicate, overlap, or conflict with any other Federal rules. No alternatives were determined that will accomplish the objectives of the rule.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2015–020), in correspondence.

IV. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION:**I. Background**

DoD, GSA, and NASA are proposing to amend the FAR to implement section 814 of the Carl Levin and Howard P. ‘Buck’ McKeon National Defense Authorization Act for Fiscal Year 2015. Section 814 is entitled Improvement in Defense Design-Build Construction Process. Section 814 requires the head of the contracting activity, delegable to a level no lower than the senior contracting official, to approve any determinations to select more than five offerors to submit phase-two proposals for a two-phase design build construction acquisition that is valued at greater than \$4 million.

II. Discussion and Analysis

This proposed rule does not change the maximum number of offerors, currently five, that may be selected to submit phase-two proposals without a contracting officer determination. However, for acquisitions valued above
