(7) The Adviser expects that, under normal market conditions, generally, for a Convertible Security to be considered as an eligible investment, after taking into account such an investment, at least 75% of the Fund's net assets that are invested in Convertible Securities will be invested in Convertible Securities that will have at the time of original issuance \$200 million or more par amount outstanding.

<sup>5</sup> A Member is defined as “any registered broker or dealer that has been admitted to membership in the Exchange.” See Exchange Rule 1.5(n).

#### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The Exchange proposes amend [sic] the BZX Equities Fee Schedule to: (i) Adopt a new Step-Up Tier 4 under footnote 2; and (ii) amend the Tape B Volume Tier under footnote 13 to: (A) Adopt a new Tape B Volume Tier to be named “Tier 1”; and (B) rename the existing Tape B Volume Tier as “Tier 2”. As is the case with any other rebates on the Fee Schedule, to the extent that a Member qualifies for higher rebates than those provided under the proposed tiers, the higher rebates shall apply.

##### Step-Up Tier 4

Currently, the Exchange determines the liquidity adding rebate that it will provide to Members using the Exchange’s tiered pricing structure, which is based on the Member meeting certain volume tiers based on their ADAV<sup>6</sup> as a percentage of TCV<sup>7</sup> or ADV<sup>8</sup> as a percentage of TCV. Under such pricing structure, a Member will receive an adding rebate of anywhere between \$0.0020 and \$0.0032 per share executed, depending on the volume tier for which such Member qualifies. The Exchange also maintains additional Step-Up Tiers in addition to the volume tiers described above. The Step-Up Tiers provide Members with additional ways to qualify for enhanced rebates.

The Exchange currently offers three Step-Up Tiers under footnote 2 of its Fee [sic] Schedule. Under Tier 1, a Members [sic] receives a rebate of \$0.0025 per

<sup>6</sup> As provided in the Fee Schedule, for purposes of BATS Equities pricing, “ADAV” means average daily added volume calculated as the number of shares added per day on a monthly basis; the Exchange excludes from the ADAV calculation routed shares as well as shares added on any day that the Exchange’s system experiences a disruption that lasts for more than 60 minutes during regular trading hours (“Exchange System Disruption”), on any day with a scheduled early market close and on the last Friday in June (the “Russell Reconstitution Day”).

<sup>7</sup> As provided in the Fee Schedule, for purposes of BATS Equities pricing, “TCV” means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption, on any day with a scheduled early market close and the Russell Reconstitution Day.

<sup>8</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, “ADV” means average daily volume calculated as the number of shares added or removed, combined, per day on a monthly basis; the Exchange excludes from the ADV calculation routed shares, and shares added on any day that the Exchange’s system experiences an Exchange System Disruption, on any day with a scheduled early market close and on the Russell Reconstitution Day.

share where their Step-Up Add TCV<sup>9</sup> from January 2014 is equal to or greater than 0.07%. Under Tier 2, a Members [sic] receives a rebate of \$0.0029 per share where their Step-Up Add TCV from January 2014 is equal to or greater than 0.10%. Lastly, under Tier 3, a Members [sic] receives a rebate of \$0.0030 per share where their Step-Up Add TCV from January 2014 is equal to or greater than 0.15%. The Exchange proposes to add a fourth tier under footnote 2. Under proposed Tier 4, a Members [sic] would receive a rebate of \$0.0030 per share where their Step-Up Add TCV from August 2015 is equal to or greater than 0.08%; and (2) Member’s ADAV as a percentage of TCV is equal to or greater than 0.35%.

##### Tape B Volume Tiers

Currently, the Exchange offers a rebate of \$0.0020 per share as the standard rebate for orders with fee code B, which applies to orders that add liquidity to the Exchange in Tape B securities. The Exchange also offers a Tape B Volume Tier that provide Members with the opportunity to earn a higher rebate by meeting certain volume metrics. Specifically, the Tape B Volume Tier provides a rebate of \$0.0027 per share to a Member’s orders with fee code B for which the Member’s Tape B ADAV as a percentage of TCV is equal to or greater than 0.08%. The Exchange proposes to adopt a new Tape B Volume Tier to be named “Tier 1” under footnote 13 and rename the existing Tape B Volume Tier as “Tier 2”. Under proposed Tier 1, a rebate of \$0.0025 per share would be provided to a Member’s orders with a fee code of B for which the Member’s Tape B ADAV as a percentage of TCV is equal to or greater than 0.05%.

##### Implementation Date

The Exchange proposes to implement this amendment to its Fee Schedule on October 1, 2015.

##### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,<sup>10</sup> in general, and furthers the objectives of Section 6(b)(4),<sup>11</sup> in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The

<sup>9</sup> As provided in the fee schedule, for purposes of BATS Equities pricing, “Step-Up Add TCV” means ADAV as a percentage of TCV in the relevant baseline month subtracted from current ADAV as a percentage of TCV.

<sup>10</sup> 15 U.S.C. 78f.

<sup>11</sup> 15 U.S.C. 78f(b)(4).

Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

Volume-based rebates and fees such as those proposed herein have been widely adopted by equities and options exchanges and are equitable because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and/or growth patterns, and introduction of higher volumes of orders into the price and volume discovery processes. The Exchange believes that proposed tiers are a reasonable, fair and equitable, and not unfairly discriminatory allocation of fees and rebates because they will provide Members with an additional incentive to reach certain thresholds on the Exchange.

Further, the Exchange believes that the proposed tiers will provide such enhancements in market quality on the Exchange by incentivizing participation. The Exchange notes that it is not proposing to modify any of the existing Step-Up Tiers or the Tape B Volume Tier (other than to rename the existing Tape B Volume Tier as Tier 2), but rather to add two new tiers that will provide Members with additional ways to receive higher rebates. Accordingly, under the proposal a Member will receive either the same or a higher rebate than they would receive today. Accordingly, the Exchange believes that the proposed additions to the Exchange's tiered pricing structure and incentives are not unfairly discriminatory because they will apply uniformly to all Members and are consistent with the overall goals of enhancing market quality on the Exchange.

In particular, the Exchange believes the addition of a second Tape B Volume Tier is a reasonable means to encourage Members to increase their liquidity in Tape B securities. The Exchange also believes providing a rebate of \$0.0025

per share where a Member's Tape B ADAV as a percentage of TCX is equal to or greater than 0.05% is also equitable and reasonable. The Exchange notes that it currently provides a rebate of \$0.0027 per share to Member's Tape B ADAV as a percentage of TCX is equal to or greater than 0.08%. Such pricing programs thereby reward a Member's growth pattern in Tape B securities and such increased volume increases potential revenue to the Exchange, and will allow the Exchange to continue to provide and potentially expand the incentive programs operated by the Exchange. The Exchange also believes that the rebate amount provided by proposed Tier 1 is equitable and reasonable as compared to the existing Tape B Volume Tier because it reflects the lower criteria necessary to achieve the tier.

The Exchange believes that providing additional financial incentives to Members that demonstrate an increase over their August 2015 Step-Up Add TCX through the new proposed Step-Up Tier 4 offers additional, flexible ways to achieve financial incentives from the Exchange and encourage Members to add liquidity to the Exchange. The Exchange believes that these incentives are reasonable, fair and equitable because the liquidity from each of these proposals also benefits all investors by deepening the Exchange's liquidity pool, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection. Such pricing programs thereby reward a Member's growth pattern and such increased volume increase [sic] potential revenue to the Exchange, and will allow the Exchange to continue to provide and potentially expand the incentive programs operated by the Exchange. These pricing programs are also fair and equitable in that they are available to all Members and will result in Members receiving either the same or an increased rebate than they would currently receive.

The Exchange also believes proposing a baseline eligibility for the proposed Step-Up Tier 4 is equitable and reasonable. The Exchange notes that current Tier 3 provides the same rebate as that proposed for Tier 4, \$0.0030 per share. However, Tier 3 calculates a Member's Step-Up Add TCX from a January 2014 baseline, while proposed Tier 4 would calculate a Member's Step-Up Add TCX from an August 2015 baseline. The primary objective of differing baseline eligibility criteria for the Step-Up Tiers is to increase the number of Members who may be

eligible to achieve either the [sic] tier and receives [sic] the same \$0.0030 per share rebate. The choice of baseline criteria will enhance the value of the Step-Up Tiers to Members whose market participation was higher in January 2014 than August 2015, thereby encouraging them to increase their volume on the Exchange over such baseline. It also provides Members with additional means to achieve the \$0.0030 per share rebate that may not satisfy the current baseline criteria set forth in Tier 3 that is based on a Step-Up Add TCX from January 2014. Such increased volume would increase potential revenue to the Exchange and allow the Exchange to spread its administrative and infrastructure costs over a greater number of shares, which would result in lower per share costs. The Exchange may then pass on these savings to Members in the form of reduced fees. The increased liquidity would also benefit all investors by deepening the Exchange's liquidity pool, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection.

Lastly, the Exchange believes that it is reasonable and equitable to offer an enhanced rebate to Members who satisfy a certain baseline eligibility because the Exchange believes that such Members are most likely to provide consistent liquidity during periods of market stress and to manage their quotes/orders in a coordinated manner that promotes price discovery and market stability.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe its proposed amendments to its Fee Schedule would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed changes represent a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

The Exchange does not believe that the proposed new tiers would burden competition, but instead, enhances [sic] competition, as they are intended to increase the competitiveness of and

draw additional volume to the Exchange. As stated above, the Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if the deem fee structures to be unreasonable or excessive. The proposed changes are generally intended to enhance the rebates for liquidity added to the Exchange, which is intended to draw additional liquidity to the Exchange. The Exchange does not believe the proposed tiers would burden intramarket competition as they would apply to all Members uniformly.

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>12</sup> and paragraph (f) of Rule 19b-4 thereunder.<sup>13</sup> At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

proposed rule change SR-NSCC-2015-003 pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> to change its margin charge with respect to a member's positions in securities that are issued by such member or its affiliate (*i.e.*, "family-issued securities") by excluding positions in these securities, when the member is on NSCC's Watch List,<sup>3</sup> from its volatility margining model.
