The Oklahoma DOT states that it does not object to the tank car retrofitting reporting requirements but encourages PHMSA to reemphasize the importance of evaluating the causes of oil by rail accidents so as to prevent them in the future.

We estimate that this reporting requirement will result in a revised information collection and recordkeeping burden as follows:

OMB No. 2137-0628, "Flammable Hazardous Materials by Rail Transportation."

Additional Burden request:

Additional Number of Respondents: 50.

Additional Annual Responses: 50.

Additional Annual Burden Hours: 25.
