**SUPPLEMENTARY INFORMATION:** On February 17, 2009, President Obama signed the American Recovery and Reinvestment Act of 2009 (the Recovery Act or the Act) into law. The Act included provisions to advance the use of health information technology and, at the same time, strengthen privacy and security protections for health information. The Act required the FTC to adopt a rule implementing the breach notification requirements applicable to vendors of personal health records, “PHR related entities,”<sup>1</sup> and third party

<sup>1</sup> “PHR related entity” means an entity, other than a HIPAA-covered entity or an entity to the extent that it engages in activities as a business associate of a HIPAA-covered entity, that: (1) Offers products

service providers, and the Commission issued a final rule on August 25, 2009. 74 FR 42962.

The Health Breach Notification Rule (Rule), 16 CFR part 318, requires vendors of personal health records and PHR related entities to provide: (1) Notice to consumers whose unsecured personally identifiable health information has been breached; and (2) notice to the Commission. The Rule only applies to electronic health records and does not include recordkeeping requirements. The Rule requires third party service providers (*i.e.*, those companies that provide services such as billing or data storage) to vendors of personal health records and PHR related entities to provide notification to such vendors and PHR related entities following the discovery of a breach. To notify the FTC of a breach, the Commission developed a form, which is posted at [www.ftc.gov/healthbreach](http://www.ftc.gov/healthbreach), for entities subject to the rule to complete and return to the agency.

These notification requirements are subject to the provisions of the PRA, 44 U.S.C. Chapter 35. Under the PRA, federal agencies must get OMB approval for each collection of information they conduct, sponsor, or require. “Collection of information” means agency requests or requirements to submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). As required by Section 3506(c)(2)(A) of the PRA, the FTC is providing this opportunity for public comment before requesting that OMB extend the existing PRA clearance for the information collection requirements associated with the Commission’s rules and regulations under the Health Breach Notification Rule (or Rule), 16 CFR part 318 (OMB Control Number 3084-0150).

The FTC invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond. All

or services through the Web site of a vendor of personal health records; (2) offers products or services through the Web sites of HIPAA-covered entities that offer individuals personal health records; or (3) accesses information in a personal health record or sends information to a personal health record. 16 CFR 318.2(f).
