CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Proposed Information Collection; Comment Request

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning the Operation AmeriCorps Evaluation. This two year evaluation seeks to assess the implementation of the new Operation AmeriCorps initiative, and to report on early results from the intended outcomes of each grantee's project. The evaluation will examine the extent to which multiple streams of national service are integrated and complement one another in each project; determine whether and how community capacity is being developed and sustained; and examine the Operation AmeriCorps grant making process to determine if this type of grant could be successfully used in future grants competitions. Researchers from CNCS will collect qualitative and quantitative data from grantees and their partners, AmeriCorps members, member supervisors, and program beneficiaries. Operation AmeriCorps grantees are required to participate in the evaluation as a condition of grant award.

Copies of the information collection request can be obtained by contacting the office listed in the Addresses section of this Notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by December 28, 2015.

ADDRESSES: You may submit comments, identified by the title of the information collection activity, by any of the following methods:

SUPPLEMENTARY INFORMATION: CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the efficient performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background

The evaluation will examine the extent to which multiple streams of national service are integrated and complement one another in each project; determine whether and how community capacity is being developed and sustained; and examine the Operation AmeriCorps grant making process to determine if this type of grant making process could be successful in the future.
