

syncope, dyspnea, collapse, or congestive cardiac failure.

It is the intent of the FMCSRs to render unqualified, a driver who has a current cardiovascular disease which is accompanied by and/or likely to cause symptoms of syncope, dyspnea, collapse, or congestive cardiac failure. However, the subjective decision of whether the nature and severity of an individual's condition will likely cause symptoms of cardiovascular insufficiency is on an individual basis and qualification rests with the medical examiner and the motor carrier.

In the case of persons with ICDs, the underlying condition for which the ICD was implanted places the individual at high risk for syncope (a transient loss of consciousness) or other unpredictable events known to result in gradual or sudden incapacitation. ICDs may discharge, which could result in loss of ability to safely control a CMV. See the Evidence Report on Cardiovascular Disease and Commercial Motor vehicle Driver Safety, April 2007.<sup>1</sup> A focused research report on Implantable Cardioverter Defibrillators and the Impact of a Shock on a Patient When Deployed completed for the FMCSA December 2014 indicates that the available scientific data on persons with ICDs and CMV driving does not support that persons with ICDs who operate CMVs are able to meet an equal or greater level of safety and upholds the findings of the April 2007 report.

#### Discussion of Public Comments

On April 21, 2015, FMCSA published in a **Federal Register** Notice, the names of 15 individuals requesting ICD exemption and requested public comment. The public comment period closed on May 21, 2015. A total of 29 commenters responded to the notice. The majority of commenters were in favor of the applicants continuing to drive CMV's with ICD's. Commenters believed that the individuals seeking exemptions were responsible drivers who had safe driving histories and were compliant with their medical treatment programs. One anonymous commenter encouraged the FMCSA not to grant these individuals exemptions due to concerns of the risks of the underlying medical conditions in combination with operating a commercial motor vehicle.

#### FMCSA's Response

FMCSA acknowledges the commenters' reports of medical compliance and safe driving histories of the applicants. However, based on the available medical literature and data, FMCSA believes that drivers with an

ICD are at risk for incapacitation if the device discharges in response to cardiovascular symptoms. This risk is combined with the risks associated with the underlying cardiovascular condition for which the ICD has been implanted as a primary or secondary preventive measure.

Mr. Leslie Mitchell no longer has a functioning ICD and may operate CMVs in interstate commerce based on the decision of the medical examiner. Mr. Mitchell has a pacemaker/ICD but the ICD portion was disabled because his cardiologist determined he no longer needs tachycardia therapy. Therefore, if a medical examiner determines that he meets the cardiovascular standard and all other physical qualification standards for operating a commercial motor vehicle in interstate commerce, he may be issued a medical certificate.

#### Conclusion

FMCSA evaluated the remaining 14 of 15 individual exemption requests on their merits, available data from Evidence Reports and Medical Expert Panel opinions on ICDs and commercial motor vehicle driving, and the public comments received. The Agency has determined that the available medical literature and data does not support a conclusion that granting these exemptions would achieve a level of safety equivalent to or greater than, the level of safety maintained without the exemptions. Each applicant has, prior to this notice, received a letter of final disposition on his/her exemption request. Those decision letters fully outlined the basis for the denial and constitute final Agency action. The list published today summarizes the Agency's recent denials as required under 49 U.S.C. 31315(b)(4).

The following 14 applicants are denied exemptions from the cardiovascular standard concerning ICDs.

### Pipeline and Hazardous Materials Safety Administration

[Docket ID PHMSA-2014-0092]

#### Pipeline Safety: National Pipeline Mapping System; Extension of Comment Period and Notice of Operator Workshop

**AGENCY:** Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

**ACTION:** Notice and request for comments; extension of comment period and announcement of a National Pipeline Mapping System Operator Technical Workshop.

**SUMMARY:** PHMSA is sponsoring a one-day National Pipeline Mapping System (NPMS) operator technical workshop on November 18, 2015, at a Washington, DC area hotel. This notice also announces that the comment period for the 60-day information collection published on August 27, 2015, (80 FR 52084) is extended until November 25, 2015, in order to conduct this workshop that will provide PHMSA with important information as it prepares to improve the NPMS submission process to accept additional data.

**DATES:** The NPMS operator technical workshop will be held on November 18, 2015, at a Washington, DC-area hotel, from 8:00 a.m. to 5:00 p.m. The comment period for the 60-day information collection published on August 27, 2015 (80 FR 52084) is extended from October 26, 2015 to November 25, 2015.

**ADDRESSES:** The workshop location, and hotel information will be announced in PRIMIS at <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=107> once the conference room space has been procured.

#### FOR FURTHER INFORMATION CONTACT:

Amy Nelson at 202-493-0591 or by email at [amy.nelson@dot.gov](mailto:amy.nelson@dot.gov).

**SUPPLEMENTARY INFORMATION:** The purpose of the workshop is to discuss and understand existing and future NPMS submission technical issues such as (1) the format in which operators are storing the data that is submitted to the NPMS, (2) how pipe segmentation for the submissions is determined, (3) how data is submitted in a linear referencing format, and (4) options Geographic Information Systems technicians have when an attribute includes the word "predominant" (*i.e.*, submitting actual data or rolling up data to create a "predominant" value). This workshop will not discuss any proposed new data

<sup>1</sup> Now available at [http://ntl.bts.gov/lib/30000/30100/30123/Final\\_CVD\\_Evidence\\_Report\\_v2.pdf](http://ntl.bts.gov/lib/30000/30100/30123/Final_CVD_Evidence_Report_v2.pdf).

elements (attributes) or operators' opinions on the new data elements (attributes). Because this workshop will rely heavily on dialogue between PHMSA staff and operators in a "whiteboard" environment, the workshop will not be webcast.

**Registration:** Members of the public may attend this public meeting for free. To help assure that adequate space is provided, all attendees are encouraged to register for the workshop at <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=107>. Name badge pick up and on-site registration will be available starting at 7:30 a.m., eastern time on November 18, 2015, with the workshop taking place from 8:00 a.m. until approximately 5:00 p.m. eastern time. Refer to the meeting Web site for agenda and times at <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=107>.

**Comments:** Members of the public may also submit written comments regarding the NPMS Information Collection until November 25, 2015. Comments should reference Docket ID PHMSA-2014-0092. Comments may be submitted in the following ways:

- **E-Gov Web site:** <http://www.regulations.gov>. This site allows the public to enter comments on any **Federal Register** notice issued by any agency. Follow the instructions for submitting comments.
