

pads over a 10-year period. As part of this development, EOG proposes to:

- Use directional, vertical, horizontal, and other drilling techniques;
- Develop area infrastructure to support oil and gas production, including well pads, roads, pipelines, power lines, compressor and electrical substations, and support facilities, such as water supply wells and water disposal facilities;
- Conduct year-round drilling where seasonal raptor restrictions may otherwise apply.

Surface disturbance associated with the proposal is estimated to include 7,000 acres of initial surface disturbance for the construction of new roads, well pads, pipelines, and support facilities, of which approximately 3,700 acres of surface disturbance may remain for the life of the project.

The proposal area lies between the towns of Wright and Bill, primarily west of Wyoming Highway 59, and includes approximately 120,000 acres. The USFS manages about 5,700 surface acres, or 5 percent of the Project area surface. The remainder of surface area affected by the proposal is privately owned (88 percent) or held by the State of Wyoming (7 percent). The BLM does not manage any of the surface area potentially affected by the Project. The proposal area includes about 74,000 acres (62 percent of the area) of BLM-administered Federal mineral estate. The remainder of the mineral estate in the Project area is privately owned (30 percent) or held by the State of Wyoming (8 percent). The BLM has identified the following preliminary issues: Greater sage-grouse and raptor conservation, especially ferruginous hawks; year-round drilling where seasonal raptor restrictions may otherwise apply; potential conflicts with coal mining and other area resource uses; air quality; ground and surface waters and water injection sites affected by the proposal; area transportation; the level of anticipated development of oil and gas resources in the planning area; and, the identification of opportunities to apply mitigation hierarchy strategies for on-site, regional, and compensatory mitigation, and, as appropriate, landscape-level conservation and management actions to achieve resource objectives.

Authorization of this proposal may require amendment of the Casper Field Office, Casper Resource Management Plan (RMP). Similarly, the USFS, as cooperating agency, may use the EIS analysis to support preparation of a land use plan amendment for the Thunder Basin National Grassland, Land and Resource Management Plan (LRMP), if appropriate. By this notice, the BLM is

complying with the requirements in 43 CFR 1610.2(c) to notify the public of potential amendments to land use plans, based on the findings of the EIS for the Project. If land use plan amendments are necessary or appropriate, the BLM will integrate the land-use planning processes with the NEPA process for this project.

The BLM is announcing the beginning of a scoping process to solicit public comments and identify issues associated with the Public. The BLM seeks resource information and data for public land values (e.g., air quality, cultural and historic resources, fire/fuels, fisheries, forestry, lands and realty, non-energy minerals and geology, oil and gas including coalbed natural gas, paleontology, rangeland management, recreation, soil, water, and wildlife) in the Project area. The purpose of this process is to ensure that the BLM's analysis of the Project has sufficient information and data to consider a reasonable range of resource uses, management options, and alternatives for managing public lands. The EIS for the Project will incorporate elements of the Wyoming Core Population Strategy and the BLM's Greater Sage-Grouse planning effort and decisions (76 FR 77008, December 9, 2011).

In connection with its evaluation of any authorizations and actions proposed in the EIS, the BLM will determine if those actions conform to the decisions in the current and proposed land use plans for the Project area. Any proposed actions that would change the scope of resource uses, terms and conditions, and decisions of these plans may require amendment of the affected plan(s). If the BLM determines that a plan amendment is necessary, it would conduct the appropriate analysis simultaneously with preparation of the EIS for the Project. The planning criteria for any necessary plan amendment will follow that found in the affected plan(s).

To provide the public with an opportunity to review the proposal and associated information, as well as any proposed plan amendments, the BLM will host public meetings on or before November 25, 2015. The BLM will notify the public of the precise date of such meetings and any other opportunities for the public to be involved in the process at least 15 days prior to the event via news release to the media, individual mailings, and postings on the BLM's Project Web site.

The BLM will use and coordinate the NEPA commenting process to help fulfill the public involvement process under section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470f), as provided for in 36 CFR

800.2(d)(3). Information about historic and cultural resources in the area potentially affected by the Project will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and section 106 of the NHPA. Native American tribal consultations will be conducted in accordance with applicable policy, and tribal concerns will be given due consideration. Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BLM's decisions on this proposal, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.

Before including your address, phone number, email address or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

## INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–938]

### Certain Coaxial Cable Connectors and Components Thereof and Products Containing Same Commission Determination Not To Review an Initial Determination Terminating the Investigation in Its Entirety Based Upon Withdrawal of the Complaint

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (“ID”) (Order No. 10) of the presiding administrative law judge (“ALJ”) granting complainant’s motion to withdraw the complaint and terminate the investigation in its entirety.

**FOR FURTHER INFORMATION CONTACT:** Panyin A. Hughes, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–3042. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000. General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810.

**SUPPLEMENTARY INFORMATION:** The Commission instituted Inv. No. 337–TA–938 on December 10, 2014, based on a complaint filed by PPC Broadband, Inc. of East Syracuse, New York (“PPC”). 79 FR 73336–37 (Dec. 10, 2014). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain coaxial cable connectors and components thereof and products containing the same by reason of infringement of several claims of United States Patent No. 8,801,448. The notice of investigation named Corning Optical

Communications RF, LLC of Glendale, Arizona (Corning) as respondent. The Office of Unfair Import Investigations is a party to this investigation.

On September 22, 2015, PPC moved to withdraw the complaint and terminate the investigation in its entirety. Corning and the Commission investigative attorney do not oppose the motion.

On September 25, 2015, the ALJ issued the subject ID, granting the motion. The ALJ found that the motion complied with the requirements of Commission Rule 210.21(a)(1) (19 CFR 210.21(a)(1)) and further found that no extraordinary circumstances prohibited granting the motion. None of the parties petitioned for review of the ID.

The Commission has determined not to review the ID.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission’s Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Dated: October 20, 2015.
