

APHIS sought public comment on a draft EA and a preliminary PPRA from June 1, 2015, to July 1, 2015.³ APHIS solicited comments on the draft EA, the preliminary PPRA, and whether the subject maize is likely to pose a plant pest risk. APHIS received 12 comments on the petition; one of these comments had 67 documents and published articles appended to it. The majority of comments expressed general opposition to APHIS making a determination of nonregulated status of GE organisms. Issues raised during the comment period included concerns regarding negative economic impacts to farmers, potential health and environmental impacts, inadequate or outdated data, and the possibility for insects to develop insecticide resistance. APHIS has addressed the issues raised during the comment period and has provided responses to comments as an attachment to the FONSI.

National Environmental Policy Act

After reviewing and evaluating the comments received during the comment period on the draft EA and preliminary PPRA and other information, APHIS has prepared a final EA. The EA has been prepared to provide the public with documentation of APHIS' review and analysis of any potential environmental impacts associated with the determination of nonregulated status of maize designated as event MON 87411. The EA was prepared in accordance with: (1) NEPA, as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). Based on our EA, the response to public comments, and other pertinent scientific data, APHIS has reached a FONSI with regard to the preferred alternative identified in the EA (to make a determination of nonregulated status of maize designated as event MON 87411).

Determination

Based on APHIS' analysis of field and laboratory data submitted by Monsanto, references provided in the petition, peer-reviewed publications, information analyzed in the EA, the PPRA, comments provided by the public, and information provided in APHIS' response to those public comments, APHIS has determined that maize designated as event MON 87411 are unlikely to pose a plant pest risk and

therefore are no longer subject to our regulations governing the introduction of certain GE organisms.

Copies of the signed determination document, PPRA, final EA, FONSI, and response to comments, as well as the previously published petition and supporting documents, are available as indicated in the **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** sections of this notice.

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Michael C. Gregoire,

Submission for OMB Review; Comment Request

October 21, 2015.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if they are received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information

unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: 7 CFR part 215—Special Milk Program for Children.

OMB Control Number: 0584–0005.

Summary of Collection: Section 3 of the Child Nutrition Act (CNA) of 1966 (Pub. L. 89–642, as amended; 42 U.S.C. 1772) authorizes the Special Milk Program (SMP) for Children. It provides for appropriation of such sums as may be necessary to enable the Secretary of Agriculture, under such rules and regulations as the Secretary may deem in the public interest, to encourage consumption of fluid milk by children in the United States in (1) nonprofit schools of high school grades and under, and (2) nonprofit nursery schools, child care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, which do not participate in a food service program authorized under the CNA or the National School Lunch Act.

Need and Use of the Information: The SMP is administered at the State, school food authority (SFA), and child care institution levels. The Food and Nutrition Service (FNS) collects information concerning the operation of the program including the submission of applications and agreements, submission and payment of claims, and the maintenance of records. Without this information FNS would not be able to reimburse schools and institutions in a timely manner to allow them to properly administer the program. In addition, data reporting would be delayed and the timely monitoring of program funding and program trends would be affected.

Description of Respondents: State, Local, and Tribal Government.

Number of Respondents: 3,933.

Frequency of Responses:

Recordkeeping: Reporting: On Occasion, Monthly, and Annually.

Total Burden Hours: 14,914.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program—Supplemental Nutrition Assistance for Victims of Disasters.

OMB Control Number: 0584–0336.

Summary of Collection: The authority to operate the Disaster Supplemental

³ 80 FR 30997–30998.

Nutrition Assistance Program (D-SNAP) is found in section 5(h) of the Food and Nutrition Act of 2008, formerly the Food Stamp Act of 1977, as amended and the Disaster Relief Act of 1974, as amended by the Robert T. Stafford Disaster Relief and Assistance Act of 1988 authorizes the Secretary of Agriculture to establish temporary emergency standards of eligibility for victims of a disaster if the commercial channels of food distribution have been disrupted, and subsequently restored. D-SNAP is a program that is separate from the Supplemental Nutrition Assistance Program (SNAP) and is conducted for a specific period of time. In order for a State to request to operate a D-SNAP, an affected area in the State must have received a Presidential Declaration of "Major Disaster" with Individual Assistance.

Need and Use of the Information: This information collection concerns information obtained from State agencies seeking to operate D-SNAP. A State agency request to operate a D-SNAP must contain the following information: Description of incident; geographic area; application period; benefit period; eligibility criteria; ongoing household eligibility; affected population; electronic benefit card issuance process; logistical plans for Disaster SNAP rollout; staffing; public information outreach; duplicate participation check process; fraud prevention strategies; and employee application procedures. The Food and Nutrition Service reviews the request to ensure that all the necessary requirements to conduct a D-SNAP are met. If this collection is not conducted, D-SNAP would not be available to help meet the nutritional needs of disaster victims.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 9.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 90.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Forest Service

Tongass National Forest Wrangell Ranger District; Alaska; Wrangell Island Project Environmental Impact Statement

AGENCY: Forest Service, USDA.

ACTION: Corrected Notice of Intent to prepare an environmental impact statement.

SUMMARY: A Notice of Intent (NOI) for this project was first published in the **Federal Register** (75 FR 81210) on December 27, 2010. Subsequent NOIs were published in the **Federal Register** noting the passage of time and procedural changes. This NOI is being published (1) to update the project schedule, (2) to note that M. Earl Stewart is the new Forest Supervisor of the Tongass National Forest and is the Responsible Official for this Project, (3) to note that the Proposed Action contains fewer acres for timber harvest, and (4) that the Forest Service is no longer proposing project-specific Forest Plan amendments in the alternatives.

DATES: Comments submitted previously will be considered in the analysis. This corrected NOI triggers a public comment opportunity during which persons wishing to obtain standing under the pre-decisional administrative review, or "objection" process (36 CFR 218, Subpart B), may submit timely, written comments regarding the project. New or additional comments should be received by the Wrangell Ranger District by November 27, 2015, 30 days from date of publication of this Corrected NOI in the **Federal Register**. The draft environmental impact statement is expected in February 2016, and the final environmental impact statement is expected in May 2016.

ADDRESSES: Send written comments to: Tongass National Forest, c/o Andrea Slusser, P.O. Box 51, Wrangell, AK 99929, Attn: Wrangell Island Project EIS. Comments may be hand-delivered to the Wrangell Ranger District, 525 Bennett Drive, Wrangell, AK 99929, Attn: Wrangell Island Project EIS. Comments may also be sent via email to: wrangell_island_project_eis@fs.fed.us, or via facsimile to 907-874-7595, Attn: Wrangell Island Project EIS.

In all correspondence, please include your name, address, and organization name if you are commenting as a representative of an organization.

FOR FURTHER INFORMATION CONTACT:

Andrea Slusser, Team Leader; Wrangell Ranger District, P.O. Box 51, Wrangell, AK 99929, 907-874-2323.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the Wrangell Island Project is to respond to the goals and objectives identified by the Tongass Land and Resource Management Plan (Forest Plan) to guide timber management to support the local and regional economies of Southeast Alaska, while moving the Wrangell Island Project Area towards the desired future condition for all resources.

The underlying need for the Wrangell Island Project comes from the Forest Service's obligation, subject to applicable law, to seek to provide a supply of timber from the Tongass National Forest that meets market demand annually and for the planning cycle, and to restore and improve forest resources to a condition where they provide increased benefits to society.

This project would contribute to the orderly flow of timber to large and small timber purchasers, mill operators, and value-added wood product industries in Southeast Alaska and benefit the local and regional economies of Wrangell and Southeast Alaska while also improving forest resource conditions. This project would help provide a reliable, long-term supply of "bridge" timber that would support local jobs and facilitate the industry transition to a sustainable wood product industry based on young-growth management on the Tongass National Forest.

Proposed Action

The Forest Service is proposing a multi-year project involving timber harvest and associated road construction and forest restoration activities. The proposed action includes the harvest of timber from approximately 5,290 acres of forested land. The harvest would produce an estimated 73 million board feet (MMBF) of sawtimber and utility wood that could be made available to industry. Timber harvest would occur with both even-aged (clearcut) and uneven-aged (partial cut) harvest using cable, helicopter and ground-based methods.

The timber harvest would require approximately 18 miles of National Forest Road construction, six miles of reconstruction and approximately 13 miles of temporary road construction. Existing road systems and log transfer facilities would also be used as needed to transport the timber.

Integrated restoration activities associated with the road system used for harvest would include road maintenance and improvements, invasive species treatments, erosion control, and fish passage improvements. All activities would be conducted in a
