

rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of section 6(b) of the Act.¹² In particular, the proposal is consistent with section 6(b)(5) of the Act,¹³ because it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes the proposed rule is consistent with the Exchange Act because it complies with Regulation SCI's requirements. ISE Gemini's Rule 803, and ISE Rule 1903, which is incorporated by reference, designate members they determine are necessary for the maintenance of a fair and orderly market if the Exchange's DR Plans are activated and mandate participation by designated members in scheduled functional and performance testing of the DR Plans at least once every 12 months.

The Exchange further believes the proposed rule change is consistent with the protection of investors and the public interest because ISE Gemini has designated PMMs, which maintain a fair and orderly market by making markets that are honored, competing with other market makers to improve the market, updating market quotations, and pricing option contracts fairly. Similarly, ISE Gemini has incorporated by reference the designation of Linkage Handlers, which route certain orders to other exchanges when ISE Gemini is not at the NBBO. This provides investors with the best price available across exchanges for their orders. Further, the proposed rule is consistent with the protection of investors and the public interest because, as proposed and incorporated by reference, these designated members are required to participate in functional and performance testing of the DR Plans. As a result, if the DR Plans are activated, the designated members and their systems will be prepared to handle a potential SCI event and ensure that investors can continue to trade during the event.

B. Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act because ISE Gemini is implementing the requirements of Regulation SCI.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and, by its terms, does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to section 19(b)(3)(A) of the Act¹⁴ and Rule 19b-4(f)(6) thereunder.¹⁵ The Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing the proposed rule change, or such shorter time as designated by the Commission, as required by Rule 19b-4(f)(6).

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
