

public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Grantee Reporting Form—RSA Annual Payback Report.

OMB Control Number: 1820–0617.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Private Sector, State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 350.

Total Estimated Number of Annual Burden Hours: 400.

Abstract: Under section 302 of the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (WIOA), the Rehabilitation Services Administration (RSA) provides Long-Term Training grants to academic institutions to support scholarship assistance to students. Students who receive scholarships under this program are required to work within the public rehabilitation program, such as with a state vocational rehabilitation agency, or an agency or organization that has a service arrangement with a state vocational rehabilitation agency. The student is expected to work two years in such settings for every year of full-time scholarship support. The program regulations at 34 CFR 386.33–386.35 and 386.40–386.43 detail the payback provisions and the RSA scholars' requirements to comply with them.

Section 302 (b)(2)(C) of the Act requires the academic institutions (*i.e.*, grantees) that administer Long-Term

Training grants to track the employment status and location of former scholars supported under their grants in order to ensure that students are meeting the payback requirement. Program regulations at 34 CFR 386.34 require each grantee to establish and maintain a tracking system on current and former RSA scholars for this purpose and to report to the Secretary information on the scholars' progress toward fulfilling their obligation towards payback in qualified employment in fields which include clinical practice, administration, supervision, teaching or research in vocational rehabilitation, supported employment, or independent living rehabilitation of individuals with disabilities, especially individuals with significant disabilities.

The Annual Payback Report form for which RSA is requesting an extension collects data on the status of "current" and "exited" RSA scholars who are/were the recipients of scholarships. In addition to meeting the requirement that all scholars be tracked, the information collected on the form currently in use will continue to provide performance data relevant to the rehabilitation fields and degrees pursued by RSA scholars, as well as the funds owed and the rehabilitation work completed by them.

Title of Collection: Study of Enhanced College Advising in Upward Bound.

OMB Control Number: 1850–0912.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 2,835.

Total Estimated Number of Annual Burden Hours: 885.

Abstract: The Study of Enhanced College Advising in Upward Bound will test the effectiveness of providing Upward Bound projects with a professional development package and tools to provide semi-customized college advising to students participating in Upward Bound. Upward Bound projects were invited to volunteer for the demonstration, and approximately 200 projects that volunteered for the demonstration are included. Volunteer projects will be randomly assigned so that half receive the staff training, materials, tools, and resources in the first wave (spring 2015), and the other half will receive the staff training, materials, tools, and resources in the second wave (summer and fall 2016). The study will follow students who participate in both groups of projects as 11th graders in the 2014–2015 school year. The study will examine the impact of the demonstration on key outcomes including college application behavior, college acceptance and matriculation, and receipt of financial aid. The first of two ICRs for the study requested approval for the overall evaluation design, to collect 11th grade student rosters at each participating project and to administer the student baseline survey; the first ICR was approved on 8/8/2014. This is the second of two ICRs and requests approval for the remaining data collection activities, including a project survey, a follow-up student survey, and administrative records. Three reports will be produced, with one (expected 2017) reporting on the outcomes measures prior to high school graduation; a second (expected 2018) reporting on the results regarding actual college enrollment, college selectivity and use of Federal financial aid; and a third (expected 2020) reporting results regarding college persistence. The analyses will be both descriptive (distributions and means) and causal (using standard regression analyses to estimate impacts).
