BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R09-OAR-2015-0257; FRL-9934-89-Region 9]

Approval of Air Plans; California; Multiple Districts; Prevention of Significant Deterioration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action under section 110 of the Clean Air Act (CAA or Act) to approve a State Implementation Plan (SIP) revision for five California air districts. The State of California (State) is required by the CAA to adopt and implement a SIP-approved Prevention of Significant Deterioration (PSD) permit program. This SIP revision incorporates PSD rules for five local California air districts into the California SIP to establish a PSD permit program for pre-construction review of certain new and modified major stationary sources in attainment and unclassifiable areas located within these districts. The local air districts with PSD rules that are the subject of this action are the Feather River Air Quality Management District (Feather River or FRAQMD), Great Basin Unified Air Pollution Control District (Great Basin or GBUAPCD), Butte County Air Quality Management District (Butte or BCAQMD), Santa Barbara County Air Pollution Control District (Santa Barbara or SBAPCD), and San Luis Obispo County Air Pollution Control District (San Luis Obispo or SLOAPCD)—collectively, the Districts.

DATES: This rule is effective on December 14, 2015.

ADDRESSES: The EPA has established docket number EPA-R09-OAR-2015-

0257 for this action. Generally, documents in the docket for this action are available electronically at www.regulations.gov and in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. Some docket materials, however, may be publicly available only at the hard copy location (e.g., voluminous records, maps, copyrighted material), and some may not be publicly available in either location (e.g., confidential business information (CBI)). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed in the **FOR FURTHER INFORMATION CONTACT** section. **FOR FURTHER INFORMATION CONTACT:** Lisa Beckham, EPA Region IX, (415) 972-3811, beckham.lisa@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we”, “us”, and “our” refer to the EPA.

- III. The EPA’s Final Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Background

Section 110(a) of the CAA requires states to adopt and submit regulations for the implementation, maintenance and enforcement of the primary and secondary NAAQS. Specifically, sections 110(a)(2)(C), 110(a)(2)(D)(i)(II), and 110(a)(2)(f) of the Act require such state plans to meet the applicable requirements of section 165 relating to a pre-construction permit program for the prevention of significant deterioration of air quality and visibility protection. The rules reviewed for this action are intended to implement a pre-construction PSD permit program as required by section 165 of the CAA for certain new and modified major stationary sources located in attainment and unclassifiable areas. Because the State does not currently have a SIP-approved PSD program within the Districts, the EPA is currently the PSD

permitting authority within these Districts under a Federal Implementation Plan (FIP). Approval of the Districts’ PSD rules into the SIP will transfer PSD permitting authority from the EPA to the Districts. The EPA will then assume the role of overseeing the Districts’ PSD permitting programs, as intended by the CAA.

For a more detailed discussion of the District’s rules, please refer to our proposed approval. See 80 FR 44001 (July 24, 2015).

II. The EPA’s Evaluation of the SIP Revision

A. Summary of the EPA’s Proposed Action

On July 24, 2015 (80 FR 44001), the EPA proposed approval of the Districts’ PSD rules into the California SIP. We proposed to approve these rules because we determined that they satisfied the applicable CAA requirements. Our proposed rule and related Technical Support document (TSD) contain more information about the basis for this rulemaking and our evaluation of the pertinent State SIP revision submittals.

B. Public Comments and the EPA’s Responses

EPA’s proposed approval action for this SIP revision provided a 30-day public comment period. We did not receive any comments on our proposed action.

C. What action is the EPA finalizing?

The EPA is finalizing a SIP revision for each District’s portion of the California SIP, consistent with our proposed approval action. The SIP revision will be codified in 40 CFR 52.220 by incorporating by reference the rules listed in Table 1. On June 1, 2015, the California Air Resources Board (CARB) requested the withdrawal from its earlier SIP submittals of the portion of each District PSD rule that incorporates by reference a particular federal PSD rule provision—40 CFR 52.21(b)(49)(v). As such, our approval of these local District rules does not include the rules’ incorporation by reference of 40 CFR 52.21(b)(49)(v).

TABLE 1—SUBMITTED RULES

Local agency	Rule No.	Rule title	Adopted	Submitted
FRAQMD	10.10	Prevention of Significant Deterioration	8/1/2011	4/22/2013
GBUAPCD	221	Prevention of Significant Deterioration (PSD) Permit Requirements for New Major Facilities or Major Modifications in Attainment or Unclassifiable Areas.	9/5/2012	2/6/2013
BCAQMD	1107	Prevention of Significant Deterioration (PSD) Permits	6/28/2012	2/6/2013
SBAPCD	810	Federal Prevention of Significant Deterioration (PSD)	6/20/2013	2/10/2014

TABLE 1—SUBMITTED RULES—Continued

Local agency	Rule No.	Rule title	Adopted	Submitted
SLOAPCD	220	Federal Prevention of Significant Deterioration	1/22/2014	5/13/2014

In addition, letters from the Districts to the EPA providing certain clarifications regarding their PSD rules and the requirements of 40 CFR 51.166 will be included as additional material in 40 CFR 52.220. We are also revising 40 CFR 52.270 to reflect that upon the effective date of this final rule, each District will have a SIP-approved PSD program and will no longer be subject to the FIP for the PSD program. This SIP revision provides a federally approved and enforceable mechanism for each of the Districts to issue pre-construction PSD permits for certain new and modified major stationary sources subject to PSD review within the relevant District.

As discussed in the EPA’s proposal, with the exception of San Luis Obispo, the Districts requested approval to exercise their authority to administer the PSD program with respect to those sources located in the relevant District that have existing PSD permits issued by the EPA, including authority to conduct general administration of these existing permits, authority to process and issue any and all subsequent PSD permit actions relating to such permits (e.g., modifications, amendments, or revisions of any nature), and authority to enforce such permits. Pursuant to the criteria in section 110(a)(2)(E)(i) of the CAA, we have determined that the four Districts have the authority, personnel, and funding to implement the PSD program within the relevant District for existing EPA-issued permits and therefore are transferring authority for such permits to the four Districts concurrent with the effective date of the EPA’s approval of the Districts’ PSD program into the SIP. The EPA intends to provide a copy of each such permit to the relevant District.

III. The EPA’s Final Action

The EPA is approving five PSD rules submitted by CARB to establish a PSD permit program for pre-construction review of certain new and modified major stationary sources in attainment or unclassifiable areas. We are approving these rules as a revision to the California SIP pursuant to section 110(k)(3) of the Act. Specifically, we are approving the rules listed in Table 1, except for the portion of each rule that incorporates by reference 40 CFR 52.21(b)(49)(v), which was subsequently

withdrawn from CARB’s request for SIP approval, as explained in more detail in our proposal. See 80 FR at 44003–04. Our determination is based, in part, on the clarifications provided by the Districts related to the implementation of the PSD program, including the clarifications related to Significant Impact Levels (SILs) and the Significant Monitoring Concentrations (SMC) for PM_{2.5}, in letters dated November 13, 2014, November 25, 2014, December 16, 2014, December 18, 2014, April 8, 2015, and April 15, 2015. See 80 FR at 44002–03. We are including these clarification letters as additional material in 40 CFR 52.220.

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the rules listed in Table 1, with the exception of certain provisions incorporated into those rules as discussed in Section III. The EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see the ADDRESSES section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve State choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions

of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4);
 - does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).
- The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller

General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 11, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See CAA section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Greenhouse gases, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

■ 3. Section 52.270 is amended by adding paragraphs (b)(11) through (15) to read as follows:

§ 52.270 Significant deterioration of air quality.

* * * * *

(b) * * *

(11) The PSD program for the Great Basin Unified Air Pollution Control District (GBUAPCD), as incorporated by reference in § 52.220(c)(428), is approved under Part C, Subpart 1, of the Clean Air Act. For PSD permits previously issued by EPA pursuant to § 52.21 to sources located in the GBUAPCD, this approval includes the authority for the GBUAPCD to conduct general administration of these existing permits, authority to process and issue any and all subsequent permit actions relating to such permits, and authority to enforce such permits.

(12) The PSD program for the Butte County Air Quality Management District (BCAQMD), as incorporated by reference in § 52.220(c)(428), is approved under Part C, Subpart 1, of the Clean Air Act. For PSD permits previously issued by EPA pursuant to § 52.21 to sources located in the BCAQMD, this approval includes the

authority for the BCAQMD to conduct general administration of these existing permits, authority to process and issue any and all subsequent permit actions relating to such permits, and authority to enforce such permits.

(13) The PSD program for the Feather River Air Quality Management District (FRAQMD), as incorporated by reference in § 52.220(c)(429), is approved under Part C, Subpart 1, of the Clean Air Act. For PSD permits previously issued by EPA pursuant to § 52.21 to sources located in the FRAQMD, this approval includes the authority for the FRAQMD to conduct general administration of these existing permits, authority to process and issue any and all subsequent permit actions relating to such permits, and authority to enforce such permits.

(14) The PSD program for the San Luis Obispo County Air Pollution Control District (SLOAPCD), as incorporated by reference in § 52.220(c)(441), is approved under Part C, Subpart 1, of the Clean Air Act.

(15) The PSD program for the Santa Barbara County Air Pollution Control District (SBAPCD), as incorporated by reference in § 52.220(c)(442), is approved under Part C, Subpart 1, of the Clean Air Act. For PSD permits previously issued by EPA pursuant to § 52.21 to sources located in the SBAPCD, this approval includes the authority for the SBAPCD to conduct general administration of these existing permits, authority to process and issue any and all subsequent permit actions relating to such permits, and authority to enforce such permits.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 97

[FRL-9936-99-OAR]

Allocations of Cross-State Air Pollution Rule Allowances From New Unit Set-Asides for the 2015 Compliance Year

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; notice of data availability (NODA).

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of emission allowance allocations to certain units under the new unit set-aside (NUSA) provisions of the Cross-State Air Pollution Rule (CSAPR) federal implementation plans (FIPs).

EPA has completed final calculations for the second round of NUSA allowance allocations for the 2015 compliance year of the CSAPR NO_x Ozone Season Trading Program. EPA has posted spreadsheets showing the second-round 2015 NUSA allocations of CSAPR NO_x Ozone Season allowances to new units as well as the allocations to existing units of the remaining CSAPR NO_x Ozone Season allowances not allocated to new units in either round of the 2015 NUSA allocation process. EPA will record the allocated CSAPR NO_x Ozone Season allowances in sources' Allowance Management System (AMS) accounts by November 16, 2015.¹

DATES: November 12, 2015.

FOR FURTHER INFORMATION CONTACT:

Questions concerning this action should be addressed to Robert Miller at (202) 343-9077 or miller.robertl@epa.gov or to Kenon Smith at (202) 343-9164 or smith.kenon@epa.gov.

SUPPLEMENTARY INFORMATION: Under the CSAPR FIPs, a portion of each state budget for each of the four CSAPR trading programs is reserved as a NUSA from which allowances are allocated to eligible units through an annual one- or two-round process. EPA has described the CSAPR NUSA allocation process in three NODAs previously published in the *Federal Register* (80 FR 30988, June 1, 2015; 80 FR 44882, July 28, 2015; 80 FR 55061, September 14, 2015). In the most recent of these previous NODAs, EPA provided notice of preliminary lists of new units eligible for second-round 2015 NUSA allocations of CSAPR NO_x Ozone Season allowances and provided an opportunity for the public to submit objections.

EPA received no substantive objections to the preliminary lists of new units eligible for second-round 2015 NUSA allocations of CSAPR NO_x Ozone Season allowances whose availability was announced in the September 14 NODA. The only written objection that EPA received concerned the format of the data rather than the substance. EPA is therefore making second-round 2015 NUSA allocations of CSAPR NO_x Ozone Season allowances to the new units identified on these lists in accordance with the procedures set forth in 40 CFR 97.512(a)(9) and (12).

As described in the September 14 NODA, any allowances remaining in the

CSAPR NO_x Ozone Season NUSA for a given state and control period after the second round of NUSA allocations to new units are to be allocated to the existing units in the state according to the procedures set forth in 40 CFR 97.512(a)(10) and (12). EPA has determined that CSAPR NO_x Ozone Season allowances do remain in the NUSAs for a number of states following completion of second-round 2015 NUSA allocations; accordingly, EPA is allocating these allowances to existing units. The NUSA allowances are generally allocated to the existing units in proportion to the allocations previously made to the existing units under 40 CFR 97.511(a)(1), adjusted for rounding.

Under 40 CFR 97.512(b)(10), any allowances remaining in the CSAPR NO_x Ozone Season Indian country NUSA for a given state and control period after the second round of Indian country NUSA allocations to new units are added to the NUSA for that state or are made available for allocation by the state pursuant to an approved SIP revision. No new units eligible for allocations of CSAPR NO_x Ozone Season allowances from any 2015 Indian country NUSA have been identified, and no state has an approved SIP revision governing allocation of 2015 CSAPR allowances. The Indian country NUSA allowances are therefore being added to the NUSAs for the respective states and are included in the pools of allowances that are being allocated to existing units under 40 CFR 97.512(10) and (12).

The final unit-by-unit data and allowance allocation calculations are set forth in Excel spreadsheets titled "CSAPR_NUSA_2015_NO_x_OS_2nd_Round_Final_Data_New_Units", and "CSAPR_NUSA_2015_NO_x_OS_2nd_Round_Final_Data_Existing_Units", available on EPA's Web site at <http://www.epa.gov/crossstaterule/actions.html>.

Pursuant to CSAPR's allowance recordation timing requirements, the allocated NUSA allowances will be recorded in sources' AMS accounts by November 16, 2015. EPA notes that an allocation or lack of allocation of allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that NUSA allocations of CSAPR NO_x Ozone Season allowances are subject to potential correction if a unit to which NUSA allowances have been allocated for a given compliance

¹ Under 40 CFR 97.521(i), the deadline for EPA recordation of these allowances allocated under 40 CFR 97.511 and 97.512 for 2015 is November 15, 2015. However, since November 15, 2015 falls on a Sunday, under 40 CFR 97.507(c), the deadline for EPA recordation of allocations is the next business day, which is Monday, November 16, 2015.
