Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Consumer Price Index (CPI) Housing Survey information collection. The CPI is a measure of the average change over time in the prices paid by consumers for a market basket of consumer goods and services. Each month, BLS data collectors visit or call thousands of retail stores, service establishments, rental units, and doctors' offices all over the United States to obtain information on the prices of the thousands of items used to track and measure price changes in the CPI. The collection of price data from rental units is essential for the timely and accurate calculation of the shelter component of the CPI. The CPI is then widely used as a measure of inflation, indicator of the effectiveness of government economic policy, deflator for other economic series and as a means of adjusting dollar values. The BLS is authorized to collect this information under 29 U.S.C. 1 and 2.

This information collection is subject to the PRA. A Federal agency generally

cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0163.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on December 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 14, 2015 (80 FR 41093).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0163. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a(e)(4)) requires NASA to publish in the **Federal Register** a notice of new system of records maintained by NASA. NASA’s regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 14 CFR part 1212.

The Privacy Act applies to information about an individual that is maintained in a system of records from which individually identifying information is retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a “record,” and the system, whether manual or computer-driven, is called a “system of records.” The Privacy Act requires each agency to publish a system of records notice in the **Federal Register** and to submit reports to the Administrator of the Office of Information and Regulatory Affairs, OMB, the Chair of the House of Representatives Committee on Oversight and Government Reform, and the Chair of the Senate Committee on Homeland Security and Governmental Affairs,

whenever the agency publishes a new or altered system of records.

Background of System of Records

ADAS is a system of records that will store individually identifying information from a variety of individuals who have applied for or received grants, contracts, cooperative or other agreements, loans, or payments from NASA. These individuals include: Current and former employees of NASA; consultants; contractors; grantees; advisory committee members or others who have received funds from NASA for performing services or have otherwise transacted business with or affected NASA.

Information in this system will be obtained from the following systems of records maintained by NASA: Biographical Records for Public Affairs (System Number 10BRPA), NASA Foreign National Management System (System Number 10FNMS), Integrated Enterprise Management Program (IEMP)—Core Financial System (System Number 10IEM1), NASA Education Program Evaluation System (System Number 10EDUA), Government Motor Vehicle Operators Permit Records (System Number 10GMVP), NASA Guest Operations System (System Number 10GOS), Inspector General Investigations Case Files (System Number 10IGIC), NASA Personnel and Payroll Systems (System Number 10NPPS), Parking and Transit System (System Number 10PATS), Security Records System (System Number 10SECR), Special Personnel Records (System Number 10SPER), Exchange Records on Individuals (System Number 10XROI), Johnson Space Center Exchange Activities Records (System Number 72XOPR).

Information for the ADAS may also be obtained from systems of records maintained by other government agencies. All applicable provisions of the Privacy Act, including relevant portions of the Computer Matching Act, will be observed when obtaining and maintaining such records in the ADAS.

This new system of records notice is being established because it will involve the new use of records covered by existing NASA systems of records. This new system of records will be used to identify internal control weaknesses and to identify system issues to improve methods of data modeling and annual audit planning. This system will provide the NASA Office of Inspector General (OIG) with access to a single repository of data that currently resides in many, different NASA systems of records. The NASA OIG will conduct data modeling on this data, using
