

current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Infectious Disease Management: Voluntary and Involuntary Testing

AGENCY: Bureau of Prisons, Justice.

ACTION: Proposed rule.

SUMMARY: In this document, the Bureau of Prisons proposes two minor revisions to its regulations on the management of infectious diseases. One change would remove the requirement for HIV pre-test counseling for inmates, because the counseling requirement has become an obstacle to necessary testing. Inmates testing positive for HIV will continue to receive HIV post-test counseling. The second change would alter language regarding tuberculosis (TB) testing to clarify that it is testing for the TB infection, but not "skin testing." This would account for advances in medical technology that allow for newer testing methods.
