

**DEPARTMENT OF EDUCATION****[Docket No.: ED–2015–ICCD–0097]****Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Natural Experiments and Model Career-Focused Schools: An Environmental Scan****AGENCY:** Technical and Adult Education (OCTAE), Office of Career, Department of Education.**ACTION:** Notice.**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 *et seq.*), ED is proposing a new information collection.**DATES:** Interested persons are invited to submit comments on or before December 24, 2015.**ADDRESSES:** To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED–2015–ICCD–0097. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 2E105, Washington, DC 20202–4537.**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Braden Goetz, 202–245–7405.**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that

is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Natural Experiments and Model Career-Focused Schools: An Environmental Scan.*OMB Control Number:* 1830–NEW.*Type of Review:* A new information collection.*Respondents/Affected Public:* State, Local and Tribal Governments.*Total Estimated Number of Annual Responses:* 100.*Total Estimated Number of Annual Burden Hours:* 25.*Abstract:* The purpose of this collection is to determine the extent to which there are natural circumstances that approximate random assignment among a group of college- and career-focused schools that belong to one or more school reform networks. A survey will be administered to principals of these schools to determine if they are oversubscribed and use lotteries for student admission. If a sufficient number of schools with such practices are identified, future research could use these naturally occurring experimental conditions to investigate differences in the outcomes achieved by students who attend these types of schools.

Dated: November 18, 2015.

**Stephanie Valentine,***Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.*

**BILLING CODE 4000–01–P****DEPARTMENT OF ENERGY****[OE Docket No. EA–306–B]****Application To Export Electric Energy; MAG Energy Solutions, Inc.****AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.**ACTION:** Notice of application.**SUMMARY:** MAG Energy Solutions, Inc. (Applicant or MAG E.S.) has applied to

renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before December 24, 2015.**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Electricity.Exports@hq.doe.gov](mailto:Electricity.Exports@hq.doe.gov), or by facsimile to 202–586–8008.**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On March 30, 2011, DOE issued Order No. EA–306–A to MAG E.S., which authorized the Applicant to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority expires on April 6, 2016. On November 3, 2015, MAG E.S. filed an application with DOE for renewal of the export authority contained in Order No. EA–306 for an additional five-year term.

In its application, MAG E.S. states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that MAG E.S. proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by MAG E.S. have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

*Procedural Matters:* Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC)

Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning MAG E.S.'s application to export electric energy to Canada should be clearly marked with OE Docket No. EA-306-B. An additional copy is to be provided directly to both Ruta Kalvaitis Skucas, Pierce Atwood LLC., 900 17th Street NW., Suite 350, Washington, DC 20006 and Simon Pelletier, MAG Energy Solutions, Inc., 999 de Maisonneuve Boulevard West, Suite 875, Montreal, Quebec H3A 3L4 Canada.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [Angela.Troy@hq.doe.gov](mailto:Angela.Troy@hq.doe.gov).

Issued in Washington, DC, on November 18, 2015.

**Christopher Lawrence,**

*Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.*

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9939-18-ORD; Docket ID No. EPA-HQ-ORD-2013-0357]

### Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; public comment period.

**SUMMARY:** The Environmental Protection Agency (EPA) is announcing a 60-day public comment period for the draft document titled, "External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria" (EPA/600/R-15/066). The draft document was prepared by the National Center for

Environmental Assessment (NCEA) within the EPA's Office of Research and Development as part of the review of the primary (health-based) National Ambient Air Quality Standards (NAAQS) for sulfur dioxide (SO<sub>2</sub>). The Integrated Science Assessment (ISA), in conjunction with additional technical and policy assessments, provides the scientific basis for the EPA's decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. EPA intends to develop a separate ISA as part of an independent review for the secondary (welfare-based) NAAQS for oxides of nitrogen and sulfur.

EPA is releasing this draft document to seek review by the Clean Air Scientific Advisory Committee (CASAC) and the public (meeting date and location to be specified in a separate **Federal Register** notice). This draft document is not final as described in EPA's information quality guidelines, and it does not represent, and should not be construed to represent, Agency policy or views. When revising the document, EPA will consider any public comments submitted during the 60-day comment period in response to this notice.

**DATES:** The 60-day public comment period begins on November 24, 2015, and ends on January 25, 2016. Comments must be received on or before January 25, 2016.

**ADDRESSES:** The "External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria" will be available primarily via the Internet on EPA's Integrated Science Assessment for Sulfur Dioxide (Health Criteria) home page at <http://www2.epa.gov/isa/integrated-science-assessment-isa-sulfur-dioxide-health-criteria> or the public docket at <http://www.regulations.gov>, Docket ID: EPA-HQ-ORD-2013-0357. A limited number of CD-ROM copies will be available. Contact Ms. Marieka Boyd by phone: 919-541-0031; fax: 919-541-5078; or email: [boyd.marieka@epa.gov](mailto:boyd.marieka@epa.gov) to request a CD-ROM, and please provide your name, your mailing address, and the document title, "External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria" to facilitate processing of your request.

**FOR FURTHER INFORMATION CONTACT:** For information on the public comment period, contact the ORD Docket at the EPA Headquarters Docket Center; telephone: 202-566-1752; facsimile: 202-566-9744; or email: [Docket\\_ORD@epa.gov](mailto:Docket_ORD@epa.gov).

For technical information, contact Dr. Tom Long, NCEA; telephone: 919-541-

1880; facsimile: 919-541-1818; or email: [long.tom@epa.gov](mailto:long.tom@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Information About the Document

Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants which, among other things, "cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . ." Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also required to review and, if appropriate, revise the NAAQS, based on the revised air quality criteria (for more information on the NAAQS review process, see <http://www.epa.gov/ttn/naaqs/review.html>).

Sulfur oxides are one of six criteria pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA (formerly called an Air Quality Criteria Document). The ISA, in conjunction with additional technical and policy assessments, provides the scientific basis for the EPA's decisions on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The CASAC, an independent science advisory committee whose review and advisory functions are mandated by Section 109(d)(2) of the Clean Air Act, is charged (among other things) with independent scientific review of the EPA's air quality criteria.

On May 10, 2013 (78 FR 27387), EPA formally initiated its current review of the air quality criteria for the health effects of sulfur oxides and the primary (health-based) SO<sub>2</sub> NAAQS, requesting the submission of recent scientific information on specified topics. EPA held a workshop on June 12 and 13, 2013, to discuss with invited scientific experts, both internal and external to the EPA, key science and policy issues relevant to the review of the health effects of sulfur oxides (78 FR 27387). These science and policy issues were incorporated in EPA's "Integrated Review Plan for the Primary National
