SUPPLEMENTARY INFORMATION:

I. Abstract

We regulate mineral development activities inside park boundaries pursuant to rights associated with mining claims and non-Federal oil and gas rights under regulations codified at 36 CFR part 9, subpart A (“9A Regulations”), and 36 CFR part 9, subpart B (“9B Regulations”), respectively. We promulgated both sets of regulations in the late 1970’s. In the case of mining claims, we promulgated the 9A Regulations pursuant to congressional authority granted under the Mining in the Parks Act of 1976, 54 U.S.C § 100731 *et seq.*, and individual park enabling statutes. For non-Federal oil and gas rights, we regulate development activities pursuant to

authority under the NPS Organic Act of 1916, 16 U.S.C. 1 *et seq.*, and individual park enabling statutes. As directed by Congress, we developed the regulations to protect park resources and visitor values from the adverse impacts associated with mineral development in park boundaries. The regulations require operators to submit specific technical information describing their future development plans, including steps to mitigate the impacts of operations. We use the information to evaluate proposed operations, ensure that all necessary mitigation measures are employed to protect park resources and values, and ensure compliance with all applicable laws and regulations.
