

00104.0–0015.00 within Section 06, Township 27 South, Range 37 East, Brevard County, Florida. The project includes construction of a commercial development and the associated infrastructure, and landscaping. The applicant proposes to mitigate for the take of the Florida scrub-jay through the preservation of approximately 1.49 acres of high-quality Florida scrub-jay habitat within the Grissom Parkway Site of the Brevard Coastal Scrub Ecosystem. The applicant also will preserve and donate one currently unencumbered parcel (Brevard County tax parcel number 24–35–01–25–00001.0–0016.00) to the Brevard County Environmentally Endangered Lands (EEL) Program so that this parcel can be managed and maintained as suitable Florida scrub-jay habitat in perpetuity. The applicant will also provide the EEL Program with a \$1,200/acre (totaling \$ 1,788) management endowment to ensure the continued success of monitoring and maintaining these lands as suitable Florida scrub-jay habitat.

Vulcan Materials Company

Vulcan Materials Company proposes incremental mining of sand reserves throughout the 1,183.62-acre permitted mining limits of the approximately 6,815.79-acre project area over the life of the mine, and seeks a 20-year permit for take of occupied sand skink, eastern indigo snake, and gopher tortoise, foraging and sheltering habitat. The 6,815.79-acre project is located on Sections 12–13, Township 9 south, Range 23 east, Sections 7, 17–21, 28–33, Township 9 south, Range 24 east, and Sections 5–6, Township 10 south, Range 24 east, Putnam County, Florida. The extent of direct impacts in future phases is currently undetermined; however, based on the current USFWS guidelines, approximately 343.73 acres of the site appear to be suitable for the sand skink, the eastern indigo snake, and the gopher tortoise. Currently there will be take of 0.26 acre of occupied sand skink foraging and sheltering habitat on Phase IA which will be mitigated by the purchase of .52 mitigation credits within the Tiger Creek Conservation Bank. In advance of the progression of the mining operations into future phases, quantitative surveys will be conducted for the skinks, eastern indigo snakes, and gopher tortoises to determine the occupancy and extent of occupancy within suitable areas. The completion of these surveys will be subject to the Service's approved survey guidelines at the time the surveys are conducted. The applicant proposes to mitigate for impacts to occupied skink and eastern indigo snake habitat within

future phases at a ratio of 2:1 by purchasing 2 mitigation bank credits at the Tiger Creek Conservation Bank per every 1 acre of impact. The applicant proposes to mitigate for impacts to occupied gopher tortoise habitat within Phase IA, as well as in future phases, by relocating gopher tortoises and any recovered eggs to a recipient site approved by the Florida Fish and Wildlife Conservation Commission.

Our Preliminary Determination

We have determined that the applicants' proposals, including the proposed mitigation and minimization measures, would have minor or negligible effects on the species covered in their HCPs. Therefore, we determined that the ITPs for each of the applicants are "low-effect" projects and qualify for categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of the Interior Manual (516 DM 2 Appendix 1 and 516 DM 6 Appendix 1). A low-effect HCP is one involving (1) Minor or negligible effects on federally listed or candidate species and their habitats, and (2) minor or negligible effects on other environmental values or resources.

Next Steps

We will evaluate the HCPs and comments we receive to determine whether the ITP applications meet the requirements of section 10(a) of the Act (16 U.S.C. 1531 *et seq.*). If we determine that the applications meet these requirements, we will issue ITP numbers TE82957B–0, and TE82956B–0. We will also evaluate whether issuance of the section 10(a)(1)(B) ITPs complies with section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITPs. If the requirements are met, we will issue the permits to the applicants.
