

during movement. The experiments require high precision equipment to precisely determine the measurement of voltage in the mV range and current in the pA range. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 30, 2015.

Docket Number: 15-053. Applicant: University of California at San Diego, 9500 Gilman Drive, MC 0651, GPL Building, Room H204, La Jolla, CA 92093-0651. Instrument: Electron Microscope. Manufacturer: FEI Company, the Netherlands. Intended Use: The instrument will be used to determine three-dimensional structures of macromolecules to understand their normal functions in the cell and thus how these functions are altered in disease states. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: November 2, 2015.

Dated: December 14, 2015.

### National Oceanic and Atmospheric Administration

RIN 0648-XE349

#### Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Workshop to discuss design considerations for a potential citizen science program.

**SUMMARY:** The South Atlantic Fishery Management Council (Council) is considering developing a comprehensive citizen science program. This workshop will be convened to consider program goals and design, and gather input from constituents and potential regional partners and collaborators. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The workshop will be held 1 p.m.–6 p.m., Tuesday, January 19, 2016; 8:30 a.m.–6 p.m., Wednesday, January

20, 2016; and 8:30 a.m.–5 p.m., Thursday, January 21, 2016.

**ADDRESSES:** The meeting will be held at the Town and Country Inn, 2008 Savannah Highway, Charleston, SC 29407; phone: (843) 571-1000.

*Council address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** John Carmichael, Science and Statistics Program Manager, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366 or toll free (866) SAFMC-10; fax: (843) 769-4520; email: [john.carmichael@safmc.net](mailto:john.carmichael@safmc.net).

**SUPPLEMENTARY INFORMATION:** Citizen science is a growing field in which trained members of the public collaborate and engage with scientists in the inquiry and discovery of new knowledge. Public participation in scientific research advances science, research, and policy and fosters an informed and engaged citizenship. The Council recognizes the desire of constituents to get involved and the need to have a well-designed program and accompanying sampling protocols to ensure that information collected through such efforts is useful. To meet this growing need, the Council intends to develop a comprehensive Citizen Science Program. The first step in this process is a workshop where interested citizens, fisheries managers and scientists, and citizen science practitioners will gather to develop recommendations for designing such a program. The product of this workshop will be a report to the Council addressing the workshop goals. The Council provided the following goals for the workshop:

1. Document and evaluate existing citizen science and cooperative research experiences;
2. Identify existing funding opportunities;
3. Develop objectives for the South Atlantic Citizen Science Program;
4. Develop a framework for achieving program objectives, considering:
  - (a) Research and monitoring activities appropriate for citizen science;
  - (b) Funded and unfunded opportunities and avenues to support citizen science;
  - (c) The full range of data needs;
  - (d) Potential web-based platforms;
  - (e) Outreach and education needs, short and long term; and
  - (f) Governance, including ongoing staff support, management, and oversight

5. Develop a prioritized list of citizen science project candidates, and identify 2–5 high priority projects that could be implemented within 1 year of the workshop.

Discussion topics for consideration at this workshop:

1. Introduction to citizen science.
2. Selected citizen science case studies.
3. Identifying potential projects for the South Atlantic.
4. Design requirements and attributes of successful projects.
5. Recommendations addressing workshop goals.

#### Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: December 16, 2015.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

RIN 0648-XE359

#### Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 41 Assessment Webinar 4, 5 and 6.

**SUMMARY:** The SEDAR 41 assessments of the South Atlantic stocks of red snapper and gray triggerfish will consist of a series of workshop and webinars: Data Workshops; an Assessment Workshop and webinars; and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

**DATES:** SEDAR 41 Assessment Webinar 4 will be held on Monday, January 11, 2016, from 9 a.m. until 1 p.m.; Assessment Webinar 5 will be held on Wednesday, January 27, 2016, from 1 p.m. until 5 p.m.; and Assessment Webinar 6 will be held on Wednesday, February 17, 2016, from 1 p.m. until 5 p.m.

**ADDRESSES:**

**Meeting address:** The meetings will be held via webinar. Each webinar is open to members of the public. Those interested in participating should contact Julia Byrd at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

**SEDAR address:** South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

**FOR FURTHER INFORMATION CONTACT:** Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366; email: [julia.byrd@safmc.net](mailto:julia.byrd@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of

Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment webinar are as follows:

Participants will discuss any remaining modeling issues from the Assessment Workshop.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

#### Special Accommodations

These meetings are accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

#### Fisheries of the Caribbean; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 46 post-workshop webinar II for Caribbean Data-limited Species.

**SUMMARY:** The SEDAR 46 assessment of the Caribbean Data-limited Species will consist of one in-person workshop and a series of webinars. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 46 post-workshop webinar II will be held from 1 p.m. to 3 p.m. on January 11, 2016.

**ADDRESSES:**

**Meeting address:** The meeting will be held via webinar. The webinar is open

to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

**SEDAR address:** 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** Julie A. Neer, SEDAR Coordinator; phone: (843) 571-4366; email: [Julie.neer@safmc.net](mailto:Julie.neer@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the In-person Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock
