

specific transmission projects. The FERC-730 provides annual data on transmission capital expenditures as well as project status detail. The Commission requires that filers specify which projects are currently receiving incentives in the project detail table and that they group together those facilities receiving the same incentive. Specifically, in accordance with the statute, public utilities with incentive rates must file:

- Actual transmission investment for the most recent calendar year, and projected, incremental investments for

the next five calendar years (in dollar terms); and

- a project by project listing that specifies for each project the most up to date, expected completion date, percentage completion as of the date of filing, and reasons for delays for all current and projected investments over the next five calendar years. Projects with projected costs less than \$20 million are excluded from this listing.

To ensure that Commission rules are successfully meeting the objectives of Section 219, the Commission collects industry data, projections and related information that detail the level of

investment. FERC-730 information regarding projected investments as well as information about completed projects allows the Commission to monitor the success of the transmission pricing reforms and to determine the status of critical projects and reasons for delay.

Type of Respondent: Public utilities that have been granted incentives based rate treatment for specific transmission projects under the provisions of 18 CFR 35.35(h) must file the FERC-730.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden for the information collection as:

FERC-730 (REPORT OF TRANSMISSION INVESTMENT ACTIVITY)

Number of respondents (1)	Annual number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden & cost per response ⁶ (4)	Total annual burden hours & total annual cost (3) * (4) = (5)	Cost per respondent (\$) (5) ÷ (1)
63	1	63	30 \$2,160	1,890 \$136,080	\$2,160

Dated: December 16, 2015.
Nathaniel J. Davis, Sr.,
Deputy Secretary.

Agency Information Collection Activities; Proposed Renewal of Collection; Comment Request

AGENCY: Environmental Protection Agency (EPA).
ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this

document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: "Tolerance Petitions for Pesticides on Food/Feed Crops and New Food Use Inert Ingredients" and identified by EPA ICR No. 0597.12 and OMB Control No. 2070-0024, represents the renewal of an existing ICR that is scheduled to expire on August, 31, 2016. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before February 22, 2016.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2015-0715, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.
- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.
- *Hand Delivery:* To make special arrangements for hand delivery or

delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Amaris Johnson, Field and External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 305-9542; email address: johnson.amaris@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Tolerance Petitions for Pesticides on Food/Feed Crops and New Food Use Inert Ingredients.

ICR number: EPA ICR No. 0597.12.

OMB control number: OMB Control No. 2070-0024.

ICR status: This ICR is currently scheduled to expire on August 31, 2016. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control

number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The use of pesticides to increase crop production often results in pesticide residues in or on the crop. To protect the public health from unsafe pesticide residues, EPA sets limits on the nature and level of residues permitted pursuant to section 408 of the Federal Food, Drug and Cosmetic Act (FFDCA). A pesticide may not be used on food or feed crops unless the Agency has established a tolerance (maximum residue limit) for the pesticide residues on that crop, or established an exemption from the requirement to have a tolerance.

Under the law, EPA is responsible for ensuring that the maximum residue levels likely to be found in or on food/feed are safe for human consumption through a careful review and evaluation of residue chemistry and toxicology data. In addition, EPA must ensure that adequate enforcement of the tolerance can be achieved through the testing of submitted analytical methods. If the data are adequate for EPA to determine that there is a reasonable certainty that no harm will result from aggregate exposure, the Agency will establish the tolerance or grant an exemption from the requirement of a tolerance.

This ICR only applies to the information collection activities associated with the submission of a petition for a tolerance action. While EPA is authorized to set pesticide tolerances, the Food and Drug Administration (FDA) is responsible for their enforcement. Food or feed commodities found to contain pesticide residues in excess of established tolerances are considered adulterated, and are subject to seizure by FDA, and may result in civil penalties.

Trade secret or CBI is frequently submitted to the EPA in support of a tolerance petition because submissions usually include the manufacturing process, product formulation, and supporting data. When such information is provided to the Agency, the information is protected from disclosure under FIFRA Section 10. CBI data submitted to the EPA is handled strictly in accordance with the provisions of the "FIFRA Confidential Business Information Security Manual."

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,726 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are Pesticide manufacturers and IR-4.

Estimated total number of potential respondents: 165.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 285,128 hours.

Estimated total annual costs: \$27,475,223.58. This is the estimated burden cost; there is no cost for capital investment or maintenance and operational costs in this information collection request.

III. Are there changes in the estimates from the last approval?

There is an increase of 48,328 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase is a result of an increase from 137 to 165 in the estimated average number of tolerance petitions submitted annually, which resulted in a change to the annual burden hours for respondents from 236,800 in the previous renewal to 285,128 in the current renewal. There is no change in burden per tolerance petition; burden for respondents increased as a result of the estimated increase in the average number of petitions submitted annually. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: December 4, 2015.

Jim Jones,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing a 30-day extension of the public comment period for the draft document titled, “External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria” (EPA/600/R-15/066). The original **Federal Register** notice announcement provides a 60-day public comment period and was published on November 24, 2015. The EPA subsequently received a request to extend this comment period. With the 30-day extension announced in this notice, the comment period ends on February 24, 2016. The draft document was prepared by the National Center for Environmental Assessment (NCEA) within the EPA’s Office of Research and Development as part of the review of the primary (health-based) National Ambient Air Quality Standards for sulfur dioxide.

DATES: The public comment period began on November 24, 2015, and ends on February 24, 2016. Comments must be received on or before February 24, 2016.

ADDRESSES: The “External Review Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria” will be available primarily via the Internet on the EPA’s Integrated Science Assessment for Sulfur Dioxide (Health Criteria) home page at <http://www2.epa.gov/isa/integrated-science-assessment-isa-sulfur-dioxide-health-criteria> or the public docket at <http://www.regulations.gov>, Docket ID: EPA-HQ-ORD-2013-0357. A limited number of CD-ROM copies will be available. Contact Ms. Marieka Boyd by phone: 919-541-0031; fax: 919-541-5078; or email: boyd.marieka@epa.gov to request a CD-ROM, and please provide your name, your mailing address, and the document title, “External Review Draft

Integrated Science Assessment for Sulfur Oxides—Health Criteria” to facilitate processing of your request.

FOR FURTHER INFORMATION CONTACT: For technical information, contact Dr. Tom Long, NCEA; telephone: 919-541-1880; facsimile: 919-541-1818; or email: long.tom@epa.gov.

SUPPLEMENTARY INFORMATION: Comments may be submitted electronically via <http://www.regulations.gov>, by mail, by fax, or by hand delivery/courier. Please follow the detailed instructions provided in the **SUPPLEMENTARY INFORMATION** section of the **Federal Register** notice announcing the release of the draft assessment document, published on November 24, 2015 (80 FR 73183).

For information on submitting comments to the docket, please contact the ORD Docket at the EPA’s Headquarters Docket Center; telephone: 202-566-1752; fax: 202-566-9744; or email: Docket_ORD@epa.gov.

Dated: December 16, 2015.

Mary A. Ross,

Deputy Director, National Center for Environmental Assessment.

Notice of Availability of Electronic Reporting; Federal Air Rules for Reservations Online Reporting System

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is notifying the public that electronic emissions reporting is now available for sources covered by the Federal Air Rules for Reservations (FARR). The FARR requires certain sources of air pollution on Indian Reservations in Idaho, Oregon, and Washington to register and report emissions to the EPA. Any person who owns or operates a source of air pollution with the potential to emit two or more tons per year of an air pollutant, with certain exceptions, must register annually and report those emissions. Registration and emissions reports are due within 90 days of commencing operations, and annually thereafter. The EPA created the FARR Online Reporting System (FORS) to help make registration and emissions reporting easier. The FORS, operated through the agency’s

Central Data Exchange (CDX), is CROMERR compliant, which means the electronic signature meets the EPA’s regulatory electronic signature requirements.

ADDRESSES: Nancy Helm: Office of Air, Waste and Toxics, EPA Region 10, AWT-150, 1200 Sixth Ave., Suite 900, Seattle, WA 98101. 206-553-6908; or helm.nancy@epa.gov.

FOR FURTHER INFORMATION CONTACT: Nancy Helm: Office of Air, Waste and Toxics; 206-553-6908; or helm.nancy@epa.gov.

SUPPLEMENTARY INFORMATION: As of January 15, 2016, air pollution sources covered by the FARR as provided in 40 CFR 49.138 may register and report emissions electronically.

How to Access the System: The FORS can be accessed at <https://cdx.epa.gov>. New users will need to register and select FORS as their program service. The EPA intends to provide training to affected entities on how to access, register and use the system.

How to Get Help Using the System: The EPA has provided the CDX user guide to each source currently registered under the FARR, and to tribal governments in Idaho, Oregon, and Washington. That guide is available at <http://yosemite.epa.gov/R10/tribal.nsf/programs/farr>. The CDX Help Desk is available for technical support-related questions between the hours of 8:00 a.m. and 6:00 p.m. (ET) at 1-888-890-1995 or helpdesk@epacdx.net.

Confidential Business Information: Regulated entities may assert a business confidentiality claim covering any portion of the submitted information as provided in 40 CFR part 2, subpart B. Information claimed as confidential should be submitted on compact disk or flash drive and mailed to the FARR Registration Coordinator, EPA Region 10, AWT-150, 1200 Sixth Ave., Suite 900, Seattle, WA 98101. Confidential treatment is automatically forfeited for information submitted through the FORS. Note that emissions data and information necessary to determine emissions is not entitled to confidential treatment. Failure to assert a claim in the manner described in 40 CFR part 2, subpart B, allows the submitted information to be released to the public without further notice. Information subject to a business confidentiality claim may be disclosed by the EPA only to the extent set forth in the above-cited regulations.
