SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Institutional Analysis of American Job Centers (AJCs) Study information collection. The DOL, Office of the Assistant Secretary for Policy is sponsoring a comprehensive study to better understand the spectrum of institutional features that shape AJC day-to-day operations and customer experiences in order systematically to document key institutional characteristics of AJCs; present a comprehensive description of AJC funding, organization, administration and management, and service delivery structures and processes; and develop typologies of AJCs that capture the institutional variations documented. To achieve these goals, an in-depth institutional analysis will be conducted that documents AJC operations across 10 research domains: (1) Administrative structure; (2) partnerships; (3) performance and strategic management; (4) staffing; (5) physical environment; (6) Management Information System capacity and the use of technology—including electronic tools and resources; (7) service delivery structure and linkages; (8) the program and service mix provided; (9) outreach; and (10) funding. In addition, the study will consider external factors that are particularly important for understanding AJC structure, operations, policies, and processes. These include LWIBs and state-level workforce agencies that have administrative and oversight responsibilities over AJCs.

This ICR seeks clearance for (1) site visits to AJCs; (2) telephone interviews with state workforce administrators in states where site visits are conducted; and (3) a network analysis survey of selected study AJC partner organizations. To select AJCs for site visits, the study team will employ a two-stage sampling approach that will yield a purposive sample of AJCs. This approach aims to capture geographic diversity and variation in the types of administrative entities that operate AJCs. In the first stage of site selection, the study team will randomly select 80 comprehensive AJCs. In the second stage, the study team will select AJCs using purposive sampling based on variation in the types of administrative entities that manage AJC operations, geographic location, and urbanity.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Employment and Training Administration Financial Reporting, Form ETA-9130, information collection. The ETA awards approximately \$8 billion in formula and discretionary grants each year to an average of 1,000 recipients. Financial reports for each of these grants must be submitted quarterly on the financial report form ETA-9130. Recipients include but are not limited to: State Employment Security Agencies, which are comprised of three components: Wagner Peysner Employment Service, Unemployment Insurance program, and Trade Program Grant Agreements; and grantees under the following programs: Workforce Innovation and Opportunity Act (WIOA) Youth, Adult, and Dislocated Worker programs; National Dislocated Worker Grants; National Farmworker Jobs Program; Indian and Native American programs; Senior Community Service Employment Program; WIOA discretionary grants; and H-1B Job Training Grants.

This information collection has been classified as a revision, because OMB prescribed financial reporting requirements for Federal programs have changed with the implementation of Uniform Guidance that went into effect on December 26, 2014, replacing numerous previously applicable Circulars. These changes affect Form ETA-9130 and its instructions by updating certain key terms and definitions.

In addition, WIOA enactment brings new statutory requirements affecting financial reporting, including but not limited to, new and/or revised limitations and baselines that require the addition of new and modification of existing reporting line items on ETA-9130 Financial. Other reporting line items have been added and removed in an effort to streamline Federal financial reporting and make form ETA-9130 more closely resemble Form SF-425 (cleared under OMB Control Number 0348-0061), which is the standard financial reporting form for Federal grant recipients.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0461. The current approval is scheduled to expire on December 31, 2015; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 04, 2015 (80 FR 46337).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0461. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
