

complete in a public notice to be released after the deadline for resubmitting corrected applications and prior to the announcement of qualified bidders in the *Auction 1002 Qualified Bidders PN*.

8. Each applicant listed as a qualified bidder in the *Auction 1002 Qualified Bidders PN* will be provided with additional instructions for participating in the mock auction and for placing bids in the forward auction using the applicant's previously received SecurID® tokens. Any applicant whose application was listed as complete after the deadline for resubmitting corrected applications that does not become qualified to bid will not be permitted to access the Auction System for bidding.

IV. Grouping of PEAs for Forward Auction Assignment Phase Bidding

9. In the *Auction 1000 Bidding Procedures PN*, 80 FR 61918, October 14, 2015, the Commission adopted procedures for assignment phase bidding which depend in part upon the Regional Economic Area Grouping (REAG) in which a PEA is included. The public notice indicated that, for the grouping and sequencing of PEAs in the assignment rounds, the PEAs in the six least populous REAGs will be included with the PEAs in one of the six REAGs that cover the contiguous United States. Attachment 1 to the *Broadcast Incentive Auction Supplemental Information PN* lists each PEA and the REAG with which it will be associated for assignment phase bidding purposes.

V. Corrections and Notifications to Technical Appendices

10. The Bureau makes ministerial changes to two of the appendices released with the *Auction 1000 Application Procedures PN*. First, the Bureau corrects typographical errors in the text of APPENDIX D to the *Auction 1000 Application Procedures PN*. Specifically, in Section 5.5 of APPENDIX D, (a) the variable *u* and the variable *s* should be switched in much of the text in the section, including the examples, and (b) the variable *t* in Example 3 should be replaced by the variable *s*. The corrected text to Section 5.5 of APPENDIX D is shown in Attachment 2 of the *Broadcast Incentive Auction Supplemental Information PN*.

11. The Bureau also notes that in Section 3.2 of APPENDIX E to the *Auction 1000 Application Procedures PN*, includes those Mexican stations that cause pairwise interference less than 0.5 percent to U.S. stations when placed on their future channel as specified in the *Mexican Coordination*.
