1.2105(c) and Section 1.2205, Prohibition of Certain Communications.

Under 5 CFR 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060–0995. The foregoing document is required by the Paperwork Reduction Act of 1995, Pub. L. 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–0995.
OMB Approval Date: December 10, 2015.

OMB Expiration Date: June 30, 2016.

Title: Section 1.2105(c), Bidding Application and Certification Procedures; Sections 1.2105(c) and Section 1.2205, Prohibition of Certain Communications.

Form No.: N/A.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local or Tribal government.

Number of Respondents and Responses: 10 respondents; 10 responses.

Estimated Time per Response: 1.5 hours to 2 hours.

The statutory authority for this information collection is contained in sections 154(i), 309(j), and 1452(a)(3) of the Communications Act of 1934, as amended, 47 U.S.C. 4(i), 309(j)(5), and 1452(a)(3), and sections 1.2205(c) and 1.2205(d) of the Commission’s rules, 47 CFR 1.2205(c), (d).

Total Annual Burden: 50 hours.
Total Annual Cost: \$9,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission will take all reasonable steps to protect the confidentiality of all Commission-held data of a reverse auction applicant consistent with the confidentiality requirements of the Spectrum Act and the Commission's rules. See 47 U.S.C. 1452(a)(3); 47 CFR 1.2206. In addition, to the extent necessary, a full power or Class A television broadcast licensee may request confidential treatment of any report of a prohibited communication submitted to the Commission that is not already being treated as confidential pursuant to section 0.459 of the Commission's rules. See 47 CFR 0.459. Forward auction applicants are entitled to request confidentiality in accordance with section 0.459 of the Commission's rules, 47 CFR 0.459.

Needs and Uses: In the *Broadcast Incentive Auction Report and Order*, the Commission adopted new requirements for parties that might participate in the reverse auction component of the television broadcast incentive auction (BIA) prohibiting certain communications and requiring a covered party that makes or receives a prohibited communication to file a report of such a communication with the Commission, along with procedures for reporting potentially prohibited communications. See 47 CFR 1.2205(b), (c), (d). The Commission's rules prohibiting certain communications in Commission auctions are designed to reinforce existing antitrust laws, facilitate detection of collusive conduct, and deter anticompetitive behavior, without being so strict as to discourage procompetitive arrangements between auction participants. They also help assure participants that the auction process will be fair and objective, and not subject to collusion. The revised information collection implements the new BIA-specific rules in sections 1.2205(c) and 1.2205(d) by making clear the responsibility of parties who receive information that potentially violates the rules to promptly submit a report notifying the Commission, thereby helping the Commission enforce the prohibition on covered parties in the BIA, and further assuring incentive auction participants that the auction process will be fair and competitive. The prohibited communication reporting requirement required of covered parties will enable the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions and thus enhances the competitiveness and fairness of Commission's auctions. The information collected will be reviewed

and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

Federal Communications Commission.

[Docket No. 120627194-3657-02]

RIN 0648-XE295

Atlantic Highly Migratory Species; North Atlantic Swordfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; Swordfish General Commercial permit retention limit inseason adjustment for Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions.

SUMMARY: NMFS is adjusting the Swordfish (SWO) General Commercial permit retention limits for the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions for January through June of the 2016 fishing year, unless otherwise noticed. The SWO General Commercial permit retention limits in each of these regions are increased from the default limits to six SWO per vessel per trip. The SWO General Commercial permit retention limit in the Florida SWO Management Area will remain unchanged at the default limit of zero SWO per vessel per trip. This adjustment applies to SWO General Commercial permitted vessels and Highly Migratory Species (HMS) Charter/Headboat permitted vessels when on a non-for-hire trip. This action is based upon consideration of the applicable inseason regional retention limit adjustment criteria.

DATES: The adjusted SWO General Commercial permit retention limits in the Northwest Atlantic, Gulf of Mexico, and U.S. Caribbean regions are effective January 1, 2016, through June 30, 2016.

FOR FURTHER INFORMATION CONTACT: Rick Pearson or Randy Blankinship, 727-824-5399.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the Atlantic Tunas Convention Act (ATCA; 16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) governing the harvest of North Atlantic SWO by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. Section 635.27 subdivides the U.S. North Atlantic SWO quota recommended by the International Commission for the Conservation of Atlantic Tunas (ICCAT) into two equal semi-annual directed fishery quotas, an annual incidental catch quota for fishermen targeting other species or taking SWO recreationally, and a reserve category, per the allocations established in the 2006 Consolidated Highly Migratory Species Fishery Management Plan (2006 Consolidated HMS FMP) (71 FR 58058, October 2, 2006), as amended, and in accordance with implementing regulations. NMFS is required under ATCA and the Magnuson-Stevens Act to provide U.S. fishing vessels with a reasonable opportunity to harvest the ICCAT-recommended quota.

The 2016 adjusted North Atlantic SWO quota is expected to be 3,359.4 mt dw (equivalent to the 2015 adjusted quota). From the adjusted quota, 50 mt dw would be allocated to the reserve category for inseason adjustments and research, and 300 mt dw would be allocated to the incidental category, which includes recreational landings and landings by incidental SWO permit holders, per § 635.27(c)(1)(i). This would result in an allocation of 3,009.4 mt dw for the directed fishery, which would be split equally (1,504.7 mt dw) between two seasons in 2016 (January through June, and July through December).

Adjustment of SWO General Commercial Permit Vessel Retention Limits

The 2016 North Atlantic SWO fishing year, which is managed on a calendar-year basis and divided into two equal semi-annual quotas, will begin on January 1, 2016. Landings attributable to the SWO General Commercial permit are counted against the applicable semi-annual directed fishery quota. Regional default retention limits for this permit have been established and are automatically effective from January 1 through December 31 each year, unless changed based on the inseason regional retention limit adjustment criteria at § 635.24(b)(4)(iv). The default retention limits established for the SWO General Commercial permit are: (1) Northwest
