

section 408(p) determination have been made.

Pursuant to 40 CFR 155.57, a registration review decision is the Agency's determination whether a pesticide meets, or does not meet, the standard for registration in FIFRA. EPA has considered the pesticides listed in light of the FIFRA standard for registration. The interim decision documents in the docket describe the Agency's rationale for issuing registration review interim decisions for these pesticides.

In addition to the interim registration review decision document, the registration review docket for these pesticides also includes other relevant documents related to the registration review of these cases. The proposed interim registration review decisions were posted to the docket and the public was invited to submit any comments or new information. EPA has addressed the substantive comments or information received during the 60-day comment period in the interim decision document for each pesticide listed in this document.

Pursuant to 40 CFR 155.58(c), the registration review case docket for each pesticide discussed in this notice will remain open until all actions required in the interim decision have been completed.

Background on the registration review program is provided at: <http://www2.epa.gov/pesticide-reevaluation>. Links to earlier documents related to the registration review of this pesticide are provided in the Pesticide Chemical Search data base accessible at: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch>.

Authority: 7 U.S.C. 136 *et seq.*

Dated: December 23, 2015.

Richard P. Keigwin, Jr.,
Director, Pesticide Re-Evaluation Division,
Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2015-0613; FRL-9940-96-OW]

Proposed Information Collection Request; Comment Request; Title I of the Marine Protection, Research, and Sanctuaries Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an

information collection request (ICR), "Title I of the Marine Protection, Research, and Sanctuaries Act" (EPA ICR No. 0824.06, OMB Control No. 2040-0008) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed renewal of the ICR (formerly known as "Ocean Dumping Regulations—reports and record keeping to obtain a permit, request designation, and report on permitted dumping activities"), which is currently expired. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before March 7, 2016.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OW-2015-0613, online using www.regulations.gov (our preferred method), by email to ow-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: David Redford, Oceans and Coastal Protection Division, Environmental Protection Agency, 4504T 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone 202-566-1288; fax number: 202-566-1546; email address: redford.david@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments

and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Ocean dumping—the transportation of any material for the purpose of dumping in ocean waters—cannot occur unless a permit is issued under the Marine Protection, Research, and Sanctuaries Act (MPRSA). EPA is responsible for issuing ocean dumping permits for all materials except dredged material. The U.S. Army Corps of Engineers (USACE) is responsible for issuing ocean dumping permits for dredged material using EPA's environmental criteria. Ocean dumping permits for dredged material are subject to EPA review and concurrence. EPA is also responsible for designating and managing ocean sites for the disposal of wastes and other materials, and establishing Site Management and Monitoring Plans for ocean disposal sites. EPA collects or sponsors the collection of information for the purposes of permit issuance, reporting of emergency dumping to safety of life at sea, compliance with permit requirements, including specifically general permits for burial at sea and for transportation and disposal of vessels.

EPA collects this information to ensure that ocean dumping is appropriately regulated and will not harm human health and the marine environment, based on applying the Ocean Dumping Criteria. The Ocean Dumping Criteria consider, among other things: The environmental impact of the dumping; the need for the dumping; the effect of the dumping on esthetic, recreational, or economic values; land-

based alternatives to ocean dumping; and the adverse effects of the dumping on other uses of the ocean. The Ocean Dumping Criteria are codified in 40 CFR parts 227–228. To meet U.S. reporting obligation under the London Convention, EPA also reports some of this information in the annual United States Ocean Dumping Report.

EPA uses ocean dumping information to make decisions regarding whether to issue or deny a permit. This information is also used to develop the conditions in ocean dumping permits issued by EPA in order to ensure consistency with the Ocean Dumping Criteria. EPA uses monitoring and reporting data from permittees to assess compliance with ocean dumping permits, including associated monitoring activities.

Form numbers: None.

Respondents/affected entities:

Respondents/affected entities may include any private person or entity, or State, local or foreign governments.

Respondent's obligation to respond:

Required to obtain or retain a benefit, specifically permit authorization and/or compliance with permits required under MPRSA sections 102 and 104, 33 U.S.C. 1402 & 1404, and implementing regulations at 40 CFR parts 220–229.

Estimated number of respondents: 2,767 respondents per year.

Frequency of response: The frequency of response varies for application and reporting requirements for different permits. Other than the general permit for transportation and disposal of vessels, response is required once for each permit application, whether a single notification to EPA or a permit application. Depending on the type of MPRSA permit, a permit application would be required prior to expiration if the permittee seeks re-issuance: General permit (once every seven years); special permit (once every three years), and research permit (once every 18 months).

Total estimated burden: The public reporting and recordkeeping burdens for this collection of information are estimated to be 3,207 hours per year. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: Annual labor costs are estimated to be \$153,300 and \$195,857 for capital or operation & maintenance costs.

Changes in estimates: EPA estimates an increase in the number of respondents from 21 to 2,767 with a corresponding decrease in total estimated burden from 27,004 to 3,207 hours as compared to the most recently approved ICR, which expired January 31, 1992. The estimated increase in the number of respondents is due to the significant increase in the number of entities using the burial at sea and

vessel general permits, which were not widely used at the time of the earlier ICR. The estimated decrease in the total estimated burden is due to the implementation of the Ocean Dumping Ban Act of 1988, which led to the cessation of the dumping of sewage sludge and industrial wastes. The respondent burden for these special permits was high due to the potentially significant impacts from dumping these wastes, and the data required from the respondents to ensure permit compliance.

Benita Best-Wong,

Director, Office of Wetlands, Oceans, and Watersheds.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1127]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the

PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before March 7, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1127.

Title: First Responder Identification Information in the Uniform Licensing System (ULS).

Form No.: FCC Form 601.

Type of Review: Extension of a previously approved collection.

Respondents: Business or other-for-profit; Not-for-profit institutions; State, local, or Tribal Government.

Number of Respondents and Responses: 133,095 respondents; 13,310 responses.

Estimated Time per Response: .25 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 4(i), 154(i) and 0.191.

Total Annual Burden: 3,327 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: To protect the identities and locations of key first responder communications personnel, the Commission will treat emergency contact information submitted into ULS pursuant to the Public Notice, DA–09–243, as confidential and will not make such information publicly available.¹ The contact information submitted into ULS by public safety licensees and non-public safety licensees designated as emergency first responders will be available only to Commission staff. Interested licensees should file their operational point of contact information in ULS in the form of a confidential pleading.

Also, to protect the confidentiality, integrity and availability of the emergency contact information submitted pursuant to this collection, the Commission will ensure that the sensitive information is encrypted and properly stored.

¹ 47 CFR 0.457.
