SUPPLEMENTARY INFORMATION: U.S. Department of Labor, Chief Evaluation Office, Fiscal Year 2016 Evaluation Plan Priorities and Themes.

The U.S. Department of Labor's Chief Evaluation Office (CEO) directly funds and sponsors evaluations and also collaborates with other DOL agencies and programs to design and conduct evaluations that those agencies sponsor. The Department's annual evaluation plan is based mainly on agencies' priorities, the Department's Strategic Plan priorities, statutory requirements for evaluations, and continuing

discussions with agency leadership and program staff.

In addition to funds appropriated for Departmental Program Evaluations (DPE), Division G, Title I, Section 107 of Public Law 113–235 of the Consolidated and Further Continuing Appropriations Act, 2015 (the Act) authorizes the Secretary of Labor to reserve not more than 0.5 percent from specific budget accounts for transfer to and use by the Office of the Chief Evaluation Officer for departmental program evaluation. The accounts referred to in subsection (a) of the Act are: Training and Employment Services, Job Corps, Community Service Employment for Older Americans, State Unemployment Insurance and Employment Service Operations, Employee Benefits Security Administration, Office of Workers' Compensation Programs, Wage and Hour Division, Office of Federal Contract Compliance Programs, Office of Labor-Management Standards, Occupational Safety and Health Administration, Mine Safety and Health Administration, funding made available to the Bureau of International Affairs and Women's Bureau within the Departmental Management, Salaries and Expenses account, and Veterans Employment and Training. Set-aside funds are transferred to CEO and are available for evaluations of programs administered by the agencies responsible for those budget accounts.

Evaluation funding (core and set-aside) must be obligated within two years. The following sections present principles followed in developing the evaluation plan and a summary of the priorities and themes for potential evaluation projects expected to be initiated in FY 2016. Of particular note is that the Workforce Innovation and Opportunity Act (WIOA) of 2014 requires several specific evaluations, which will be carried out collaboratively by CEO and the Employment and Training Administration (ETA); some WIOA-specific studies are included in this plan and others will be included in subsequent years' plans.

Guiding Principles

Three principles guide the Department's overall evaluation plan and all studies initiated by the CEO:

1. Prioritize studies that focus on measuring the effectiveness of key program outputs and outcomes consistent with Departmental priorities, the Departmental Strategic Plan, Agency Learning Agendas, and Agency Operating Plans.
2. Encourage the most rigorous evaluation designs possible to address

the evaluation question of interest, particularly experimental designs, but also non-experimental designs, in a manner that is realistic given the programmatic missions/goals, programmatic maturity, data availability, and analytic capability.

3. Expand the capacity, knowledge, and utilization of high quality evaluation designs and methods department-wide; and improve the quality of data that can be used for evaluations.

Agency Learning Agendas identify priorities for evaluations that can help agencies measure their effectiveness, their progress towards goals and outcomes, continuous improvement, and, in some cases, meet Congressional requirements for reports and evaluations. Evaluations focus on program performance and outcomes, measuring the impacts of core programs and services, evaluating new programs and initiatives, and testing the relative effectiveness of alternative program practices, using the most rigorous methodologies possible.

Evaluation Priorities and Themes for FY 2016

These themes reflect a diverse mix of potential activities designed to build evidence about what works and the factors that influence or are related to Departmental programs. Broadly, four types of projects are considered in pursuing the priorities:

- Statistical Analyses of Trends in Programs, Labor Supply and Demand, Economic Conditions, and the Labor Market as they Relate to DOL Programs;
- Exploratory, Formative and Implementation Evaluations, and Designs and Evaluability Assessments for Pilots and Demonstrations;
- Formal Evaluations of Programs and Demonstrations; and

D. Research and Evaluation Capacity Building Activities

It is important to complement evaluation studies with other activities designed to continuously reinforce the role of evaluation at DOL: The importance of evaluation for achieving performance goals and objectives; the integration of evaluation into ongoing management; and the expectation of high quality products and reports. Dissemination of evaluation reports and access to accumulating evidence is also essential, as is the commitment to developing a pipeline of labor-focused young evaluators/scholars. This category includes various activities to continue to build DOL's evaluation capacity, such as:

- DOL Scholars Research Program (with priority given to young scholars);

- Collaborative Cross-Agency Statistical Analysis; and

- Wage Record Data Exchanges for Evaluations.
