Commission**

[Docket No. CP15-503-000]

**Comanche Trail Pipeline, LLC; Notice
of Availability of the Environmental
Assessment for the Proposed San
Elizario Crossing Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the San Elizario Crossing Project (Project), proposed by Comanche Trail Pipeline, LLC (Comanche Trail) in the above-referenced docket. Comanche Trail requests authorization to construct new border crossing pipeline facilities to export up to 1.1 billion cubic feet per day of natural gas at the International Boundary between the United States and Mexico. The pipeline would be installed via horizontal directional drill beneath the Rio Grande River.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Project includes the installation of approximately 1,086 feet of 42-inch-diameter pipeline. The new pipeline would transport gas to a new delivery interconnect with pipeline facilities owned by an affiliate of Comanche Trail at the United States-Mexico border for expanding electric generation and industrial market needs in Mexico.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before February 4, 2016.
