

approximately 50 percent of the State's population. Population growth has been rapid.

Denver County lies approximately 10 miles east of the Front Range of the Rocky Mountains. This heavily influences the County's weather. Denver has a semi-arid climate with all four seasons discernible. Average annual precipitation is 16 inches. The natural land cover is primarily short-grass prairie and semi-desert.

For approximately 10 river miles the South Platte River flows north through Denver. Its tributaries in Denver include Cherry Creek, smaller Bear Creek, and still smaller Weir Gulch, Lakewood Gulch, Sanderson Gulch, Harvard Gulch, and West Harvard Gulch.

The Harvard Gulch watershed is an east bank tributary to the South Platte River located in southeast Denver. The 7.43-square mile drainage basin is 72.5 percent within the City and County of Denver and 27.5 percent in Arapahoe County. The major drainage way has a perennial base flow and follows a path along Harvard Avenue until reaching Logan Street where it is conveyed underground in Wesley Avenue to the outfall at the South Platte River.

The Weir Gulch watershed is a west bank tributary to the South Platte River in Denver and has a drainage area of approximately 7.7 square miles at the confluence with the South Platte River.

As required by CEQ's implementing regulations, all reasonable alternatives to the proposed Federal action that meet the purpose and need will be considered in the EIS. These alternatives will include no action and a range of reasonable alternatives for improving the South Platte ecosystem and reducing flood risk on Harvard and Weir Gulch. Appropriate mitigation measures will be incorporated into the proposed action and reasonable alternatives. The EIS will analyze and disclose environmental impacts associated with the proposed Federal action and alternatives together with engineering, operations and maintenance, social, and economic considerations. The public is invited and encouraged to identify issues and effects they believe should be addressed in the EIS and reasonable alternatives for ecosystem restoration along the South Platte River and flood risk management along Harvard Gulch and Weir Gulch.

Public Disclosure Statement

The Corps believes it is important to inform the public of the environmental review process. To assist the Corps in identifying and considering issues related to the proposed Federal action,

comments made during formal scoping and later on the draft EIS should be as specific as possible. Reviewers must structure their participation in the environmental review of the proposal so that it is meaningful and alerts the Corps to the reviewers' position and contentions. It is very important that those interested in this proposed Federal action participate by the close of the scoping period so that substantive comments and objections are made available to the Corps at a time when they can meaningfully consider and respond to them.

If you wish to comment, you can mail or email your comments as indicated under the Addresses section. Before including your name, address, phone number, email address, or any other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information may be made available to the public at any time.

While you can request in your comment for us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

DEPARTMENT OF EDUCATION

[Docket No. ED-2015-ICCD-0127]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Mathematics and Science Partnerships Program: Annual Performance Report

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 *et seq.*), ED is proposing a revision of an existing information collection.

DATES: Interested persons are invited to submit comments on or before February 10, 2016.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2015-ICCD-0127. Comments submitted in response to this notice should be submitted electronically through the

Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 2E115, Washington, DC 20202-4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Inas El-Sabban, 202-205-3810.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Mathematics and Science Partnerships Program: Annual Performance Report.

OMB Control Number: 1810-0669.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local and Tribal Government.

Total Estimated Number of Annual Responses: 450.

Total Estimated Number of Annual Burden Hours: 4,500.

Abstract: The Mathematics and Science Partnerships program is a

formula grant program to the States in which states make competitive awards to projects. The authorizing legislation, Title II, Part B, Section 2202 (f) of the Elementary and Secondary Education Act of 1965 as amended by the No Child Left Behind Act of 2001, requires all locally funded projects to report annually to the Secretary documenting progress towards goals and objectives. The Annual Performance Report (APR) is an online reporting tool. Annual reporting requirements include impact on increasing teacher learning and student achievement; standard descriptive information on the MSP projects; the professional development participants; the professional development models, content, and processes; the evaluation plans; and lessons learned. By structuring the reporting so that all MSPs are required to provide standardized data, the program office is better able to examine outcomes across funded partnerships. The primary objective of the proposed revision is to reduce burden on reporting entities while ensuring that needed data continue to be collected. Proposed revisions include removing items that duplicate information, condensing sections of the APR that require substantial project burden to complete, and clarifying reporting instructions to improve quality of responses.

Title of Collection: Perkins Discretionary Grant Performance Report.
OMB Control Number: 1830-0574.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 88.

Total Estimated Number of Annual Burden Hours: 1,556.

Abstract: The purpose of this information collection package—the Perkins Discretionary Grant Performance Report—is to gather narrative, financial, and performance data on all discretionary programs administered by the Office of Career, Technical, and Adult Education's Division of Academic and Technical Education (OCTAE-DATE), as required by the Education Department General Administrative Regulations (EDGAR 34 CFR 74.51, 74.52, 75.118, 75.253, 75.590, and 80.40). The Perkins Discretionary Grant Performance Report will be used by all OCTAE-DATE discretionary grant recipients in lieu of the ED 524B Grant Performance Report and Instructions because the ED 524B is not compatible with OCTAE-DATE's Perkins Information Management System.

The Perkins Discretionary Grant Performance Report is (a) submitted electronically via OCTAE-DATE's Perkins Web Portal; (b) stored in OCTAE-DATE's Improving Program Performance Database; and (c) accessed through OCTAE-DATE's Perkins Information Management System (PIMS). The Perkins Information Management System includes an administrative console that enables OCTAE-DATE staff to—a) query the system by grantee, by program, and by state; (b) view narrative, financial, and performance data within and across programs; and (c) create customized reports.

The Perkins Discretionary Grant Performance Report is a generic, single reporting instrument that combines all of the EDGAR performance and financial reporting requirements for discretionary grant recipients funded under the Carl D. Perkins Career and Technical Education Act of 2006 (P.L. 109-270). Recipients of multi-year discretionary grants must submit interim performance reports, usually annually, for each year funding has been approved in order to receive a continuation award. The annual performance report should demonstrate whether substantial progress has been made toward meeting the approved goals and objectives of the project. OCTAE-DATE also requires recipients of "forward funded" grants that are awarded funds for their entire multi-year project up-front in a single grant award to submit an annual performance report.
