

percentage of total industry customer equity and ETF option ADV contract per day in a month from 1.40% to 1.30% to qualify for the additional Tier 8 rebate does not impose an undue burden on intra-market competition because, today, all Participants may qualify for the Tier 8 Customer and Professional Penny Pilot Options Rebates to Add Liquidity and qualify to earn the note "c" additional rebates. The Exchange will uniformly pay the Tier 8 and additional note "c" rebates to all Participants that transact the qualifying volume, respectively.

Customer liquidity is critically important to the market and benefits all market participants. Greater customer liquidity benefits all market participants by providing more trading opportunities and attracting greater participation by specialists and market makers. An increase in the activity of these market participants in turn facilitates tighter spreads. All Participants are eligible for these rebates if they transact the requisite volume. All Participants are eligible for the note "c" incentives if they transact the requisite volume. Also, the Exchange believes that encouraging Participants to add Professional liquidity creates competition among options exchanges, because the Exchange believes that the rebates may cause market participants to select NOM as a venue to send Professional order flow.

The Exchange's proposal to bold the numbers and letters in note "c" do not impose an undue burden on intra-market competition because the amendment is non-substantive.

NOM Market Maker Penny Pilot Options Rebate To Add Liquidity Tiers

The Exchange's proposal to amend Tier 6 of the NOM Market Maker Penny Pilot Options Rebate to Add Liquidity to eliminate one of the criteria to qualify for the \$0.42 per contract Tier 6 rebate does not impose an undue burden on intra-market competition because the elimination of the qualifying language in Tier 6 of the NOM Market Maker Penny Pilot Options Rebate to Add Liquidity will uniformly apply to all Participants. No Participant will be entitled to the Tier 6 NOM Market Maker Penny Pilot Options Rebate to Add Liquidity by adding Customer, Professional, Firm, Non-NOM Market Maker, and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.40% or more of total industry customer equity and ETF option ADV contracts per day in a month. The Exchange believes that offering rebates to these market participants is equitable and not

unfairly discriminatory in light of their obligations.²⁶

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.²⁷

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-76889; File No. SR-NYSEMKT-2015-113]

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Market Data Fees for the NYSE Amex Options Product

January 13, 2016.

Pursuant to section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on December 31, 2015, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend the fees for NYSE Amex Options Product,⁴ as set forth on the NYSE Amex Options Proprietary Market Data Fee Schedule (“Fee Schedule”). The Exchange proposes to establish a multiple data feed fee effective January 1, 2016. The text of the proposed rule change is available on the Exchange’s Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the fees for NYSE Amex Options Product,⁵ as set forth on the NYSE Amex Options Proprietary Market Data Fee Schedule (“Fee Schedule”). The Exchange proposes to establish a multiple data feed fee effective January 1, 2016. Specifically, the Exchange proposes to establish a new monthly fee, the “Multiple Data Feed Fee,” that would apply to data recipients that take a data feed for NYSE Amex Options Product in more than two locations. Data recipients taking NYSE Amex Options Product in more than two locations would be charged \$200 per additional location per

product per month. No new reporting would be required.⁶

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of section 6 of the Act,⁷ in general, and sections 6(b)(4) and 6(b)(5) of the Act,⁸ in particular, in that it provides an equitable allocation of reasonable fees among users and recipients of the data and is not designed to permit unfair discrimination among customers, issuers, and brokers.

The fees are also equitable and not unfairly discriminatory because they will apply to all data recipients that choose to subscribe to NYSE Amex Options Product.

The Exchange believes that it is reasonable to require data recipients to pay a modest additional fee taking a data feed for a market data product in more than two locations, because such data recipients can derive substantial value from being able to consume the product in as many locations as they want. In addition, there are administrative burdens associated with tracking each location at which a data recipient receives the product. The Multiple Data Feed Fee is designed to encourage data recipients to better manage their requests for additional data feeds and to monitor their usage of data feeds. The proposed fee is designed to apply to data feeds received in more than two locations so that each data recipient can have one primary and one backup data location before having to pay a multiple data feed fee. The Exchange notes that this pricing is consistent with similar pricing adopted in 2013 by the Consolidated Tape Association (“CTA”).⁹ The Exchange also notes that the OPRA Plan imposes a similar charge of \$100 per connection for circuit connections in addition to the primary and backup connections.¹⁰

The Exchange notes that NYSE Amex Options Product is entirely optional.

⁶ Data vendors currently report a unique Vendor Account Number for each location at which they provide a data feed to a data recipient. The Exchange considers each Vendor Account Number a location. For example, if a data recipient has five Vendor Account Numbers, representing five locations, for the receipt of the NYSE Amex Options Product, that data recipient will pay the Multiple Data Feed fee with respect to three of the five locations, or \$600.
