DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA–2014–1074; Airspace Docket No. 14–ASW–10]

Amendment of Class E Airspace; El Paso, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at El Paso, TX. Closure of West Texas Airport has made this action necessary for continued safety and management within the National Airspace System. Additionally, the

geographic coordinates for El Paso International Airport and Biggs Army Airfield (AAF), are adjusted correctly noted in the Rule section of this document. This does not affect the boundaries or operating requirements of the airspace.

DATES: Effective 0901 UTC, March 31, 2016. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.9Z, Airspace Designations and Reporting Points, and subsequent amendments can be viewed on line at http://www.faa.gov/air_traffic/publications. SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it removes Class E airspace at West Texas Airport, El Paso, TX.

History

On June 18, 2015, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to remove Class E airspace extending upward from 700 feet above the surface at West Texas Airport, El Paso, TX, as the airport is now closed (80 FR 34855) Docket No. FAA–2014–1074. Additionally, the FAA identified an error in the geographical coordinates for El Paso International Airport, would be changed from (lat. 31°50'59" N., long. 106°22'40" W.) in the proposal to (lat. 31°48'26" N., long. 106°22'35" W.) (80 FR 34855). The FAA found the NPRM incorrectly listed the geographic coordinates for Biggs AAF and El Paso International Airport under the Proposal section, but was correctly noted in the airspace designation. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14, Code of Federal Regulations (14 CFR), Part 71 by removing Class E airspace extending upward from 700 feet above the surface at West Texas Airport, El Paso, TX. This action is necessary due to the closure of the airport; therefore controlled airspace is no longer needed. Also, the geographic coordinates for El Paso International Airport, are changed to (lat. 31°48'26" N., long. 106°22'35" W.), and the coordinates for Biggs AAF are changed to (lat. 31°50'58" N., long. 106°22'48" W.), to coincide with the FAAs aeronautical data base.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established

body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
