SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Lower Sonoran Field Office, Phoenix, Arizona, intends to prepare an RMP amendment addressing recreational target shooting in the SDNM with an associated EIS, announces the beginning of the scoping process, and seeks public input on issues and planning criteria. The planning area is located in Maricopa and Pinal counties, Arizona and encompasses approximately 486,400 acres of public land. The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the planning process. Preliminary issues for the plan amendment area have been identified by BLM personnel and include: (1) Direct, indirect, and cumulative impacts from target shooting on monument objects and other resources; (2) impacts to surrounding areas resulting from displacement of recreational target shooters if areas are closed; (3) impacts to natural and cultural resources related to noise and litter associated with recreational target shooting; and (4) identification of opportunities to apply hierarchical mitigation strategies for avoiding, minimizing, and, where compensatory mitigation is appropriate, considering on-site, nearby, and regional locations as it relates to recreational target shooting. Preliminary planning criteria requires the BLM to ensure that there are no unnecessary data collection and analyses; that the process is based on applicable law; that the actions will be available for public comment; and that the BLM will be flexible in making adjustments as situations and assessments warrant.

You may submit comments on issues in writing to the BLM at any public scoping meeting, or you may submit
