

causes as it considers to be “in the national public interest and appropriate.” See 39 U.S.C. 416(b). On June 12, 2001, the Postal Service published a final rule establishing the regulations in 39 CFR part 551 for the discretionary Semipostal Stamp Program (66 FR 31826). Minor revisions were made to these regulations to implement Public Law 107–67, 115 Stat. 514 (2001), and to reflect minor organizational changes in the Postal Service (67 FR 5215 (February 5, 2002)). On February 19, 2004, the Postal Service published a final rule clarifying the cost-offset policy for semipostal stamps (69 FR 7688), and on February 9, 2005, the Postal Service also published an additional minor clarifying revision to these cost-offset regulations (70 FR 6764).

The Postal Service now proposes to revise paragraphs (a) and (b) of 39 CFR 551.5. A brief description of each proposed change follows.

The proposed revision of § 551.5(a) would remove certain restrictions on the commencement date of the discretionary Semipostal Stamp Program. Under current regulations, the 10-year period for the discretionary semipostal stamp program commences on a date determined by the Office of Stamp Services, but that date must be after the sales period of the Breast Cancer Research Stamp (BCRS) is concluded. Most recently, Public Law 114–99 (December 11, 2015) extended that sales period to December 31, 2019.

The proposed revision of § 551.5(a) would specify that the 10-year period will commence on a date determined by the Office of Stamp Services, but this date need not be after the BCRS sale period concludes.

The proposed revision of § 551.5(b) would clarify that although only one semipostal stamp under the discretionary Semipostal Stamp Program under 39 U.S.C. 416 (a “discretionary program semipostal stamp”) will be offered for sale at any one time, other semipostal stamps required to be issued by Congress (such as the BCRS) may be on sale when a discretionary program semipostal stamp is on sale. Current regulations state that the Postal Service will offer only one semipostal stamp for sale at any given time during the 10-year period (not specifying whether it is a discretionary program semipostal stamp or a semipostal stamp required by Congress).

The proposed revision of § 551.5(b) would clarify that the one-at-a-time limitation on the sale of semipostal stamps applies only to discretionary program semipostal stamps.

We will publish an appropriate amendment to 39 CFR part 551 to reflect these changes if the proposal is adopted.

In accordance with 39 U.S.C. 416(e)(2), the Postal Service invites public comment on the following proposed amendments to the *Code of Federal Regulations*. For the reasons stated in the preamble, the Postal Service proposes to revise 39 CFR part 551 as follows:

PART 551—SEMIPOSTAL STAMP PROGRAM

■ 1. The authority citation for 39 CFR part 551 continues to read as follows:

■ 2. In § 551.5, revise paragraphs (a) and (b) to read as follows:

§ 551.5 Frequency and other limitations.

(a) The Postal Service is authorized to issue semipostal stamps for a 10-year period beginning on the date on which semipostal stamps are first sold to the public under 39 U.S.C. 416. The Office of Stamp Services will determine the date of commencement of the 10-year period.

(b) The Postal Service will offer only one semipostal stamp pursuant to the discretionary semipostal stamp program under 39 U.S.C. 416 for sale at any given time during the 10-year period.

SUPPLEMENTARY INFORMATION:

I. Background

This proposed rule revises the FAR to implement section 743 of Division E,

Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113–235) and successor provisions in subsequent appropriations acts (and as extended in continuing resolutions). Section 743 prohibits the use of funds appropriated or otherwise made available by Division E or any other Act for a contract, grant, or cooperative agreement with an entity that requires employees or subcontractors of such entity seeking to report waste, fraud, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or subcontractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information.

II. Discussion and Analysis

A. FAR Changes

This proposed rule implements section 743 by adding a new FAR section 3.909, Prohibition on contracting with entities that require certain internal confidentiality agreements. The proposed rule is written to also cover future successor provisions in subsequent appropriations acts and perpetuation of the requirement through continuing resolutions. This allows more seamless implementation. If at any point an appropriations act does not include a similar prohibition, the FAR will be modified accordingly.

The proposed rule requires that each offeror, in order to be eligible for award, represent, by submission of its offer, that it does not require employees or subcontractors to sign or comply with such internal confidentiality agreements. The representation is in a new provision at FAR section 52.203–XX, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements—Representation, which must be included in all solicitations, except solicitations for personal services contracts with an individual, using funds subject to the prohibition, except that this requirement is implemented for commercial item solicitations by the part 12 provision at FAR section 52.212–3, paragraph (q). Contracting officers shall not insert this provision in solicitations for personal services contracts with an individual if the services are to be performed entirely by the individual, rather than by an employee of the contractor or a subcontractor.

The new FAR clause 52.203–YY, Prohibition on Contracting with Entities that Require Certain Internal Confidentiality Agreements, notifies the contractor of the prohibition on use of funds for the contract, if the contractor is in noncompliance with the requirements of the clause. The clause also requires that contractors notify employees that any such agreements in pre-existing confidentiality agreements are no longer in effect. This notice could be accomplished through normal business communication channels, such as email. This clause must be included in all solicitations and resultant contracts, except for personal services contracts with individuals.

Existing contracts must be modified to include the clause before obligating Fiscal Year (FY) 2015 or subsequent FY funds that are subject to the same prohibition on confidentiality agreements, except for personal services contracts with individuals.

There are also conforming changes at FAR sections 3.900, 4.1202, 52.204–8, and 52.212–5.

B. Applicability

DoD, GSA, and NASA are proposing to apply this rulemaking to all solicitations and resultant contracts that are funded with FY 2015 funds or subsequent FY funds that are subject to the same prohibition on confidentiality agreements, including contracts and subcontracts for acquisitions in amounts not greater than the simplified acquisition threshold, and contracts and subcontracts for the acquisition of commercial items, (including commercially available off-the-shelf items).

Because the emphasis of section 743 is to prohibit restrictions on the ability of employees and subcontractors to report waste, fraud, or abuse to appropriate Government authorities, it is not in the best interest of the Federal Government to waive the applicability of section 743 to contracts and subcontracts in amounts not greater than the simplified acquisition threshold, or for the acquisition of commercial items (including commercially available off-the-shelf items).

In making the initial determination to prohibit restrictions on the ability of employees and subcontractors to report waste, fraud, or abuse to appropriate Government authorities, it is not in the best interest of the Federal Government to waive the applicability of section 743 to contracts and subcontracts in amounts not greater than the simplified acquisition threshold, or for the acquisition of commercial items

(including commercially available off-the-shelf items), since it would exclude a significant number of acquisitions and thereby further limit the number of contractor and subcontractor employees affected by section 743.

The FAR Council considered the following factors: (1) The benefits of the policy in furthering Administration goals, (2) the extent to which the benefits of the policy would be reduced if an exemption is provided for acquisitions in amounts not greater than the simplified acquisition threshold, or for the acquisition of commercial items (including commercially available off-the-shelf items), and (3) the burden on contractors if the policy is applied to acquisitions in amounts not greater than the simplified acquisition threshold, or for the acquisition of commercial items (including commercially available off-the-shelf items).

With respect of the first factor, the Administration is committed to implementing policy that ensures reducing waste, fraud, or abuse in all Federal acquisitions is achieved. This proposed rule makes certain that there are no restrictions that prevent contractors and subcontractors from reporting these types of situations to a designated Government representative.

With respect to the second factor (the impact of excluding acquisitions in amounts not greater than the simplified acquisition threshold, and contracts and subcontracts for the acquisition of commercial items, (including commercially available off-the-shelf items) on the overall benefits of the underlying policy), the FAR Council believes impact on these benefits may inhibit contractor employees and subcontractors subject to such internal confidentiality agreements from reporting of waste, fraud, or abuse to appropriate Government authorities, thus allowing the perpetuation of such waste, fraud, or abuse.

With respect to the third factor, this proposed rule imposes a minimal burden on offerors and contractors, requiring only that offerors represent by submission of the offer that they do not require certain internal confidentiality agreements, and contractors must notify employees that the prohibition and restrictions of any internal confidentiality agreements covered by the clause are no longer in effect. This proposed rule does not contain any information collection requirements.

Public feedback is welcomed on the analysis and preliminary determination to cover acquisitions in amounts not greater than the simplified acquisition threshold, and contracts and subcontracts for the acquisition of

commercial items, (including commercially available off-the-shelf items). After receipt and analysis of public comments, and in accordance with 41 U.S.C. 1905, 1906, and 1907, the FAR Council and the Administrator for Federal Procurement Policy will determine whether to incorporate in the final rule this proposed applicability to all solicitations and resultant contracts, including contracts and subcontracts for acquisitions in amounts not greater than the simplified acquisition threshold, and contracts and subcontracts for the acquisition of commercial items, (including commercially available off-the-shelf items).

III. Executive Orders 12866 and 13563

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This proposed rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* However, an Initial Regulatory Flexibility Analysis (IRFA) has been performed and is summarized as follows:

This action is necessary to implement section 743 of Division E, Title VII, of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113–235) and successor provisions in subsequent appropriations acts (and as extended in continuing resolutions). Section 743 prohibits the use of funds appropriated or otherwise made available by Division E or any other Act for a contract, grant, or cooperative agreement with an entity that requires employees or subcontractors of such entity seeking to report waste, fraud, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or subcontractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information.

The objective of the rule is to remove restrictions on the ability of employees and subcontractors to report waste, fraud, or abuse to the appropriate Government authorities. The legal basis for the rule is the above cited statute.

This rule will apply to all small entities that receive Government contracts awarded using funds subject to the restriction of section 743, or successor provisions in subsequent appropriations acts with the same prohibition (and as extended in continuing resolutions). Based on FPDS data for Fiscal Year 2014, this rule may affect up to 108,500 small entities per year (75,000 small entities receiving new awards, 33,500 modifications). However, it is doubtful that most small entities have any such prohibited internal confidentiality agreements with their employees and subcontractors.

The rule has no significant economic impact on small entities. DoD, GSA, and NASA did not identify any significant alternatives that would reduce the impact on small entities and still meet the objectives of the statute.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2015–012), in correspondence.

V. Paperwork Reduction Act

The proposed rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
