Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the Commission is notifying the public that it received emergency approval from OMB on January 14, 2016 for the revised information collection requirements contained in the information collection 3060-0600, Application to Participate in an FCC Auction.

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not

display a current, valid OMB Control Number. The OMB Control Number is 3060-0600. The foregoing document is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-0600.

OMB Approval Date: January 14, 2016.

OMB Expiration Date: July 31, 2016.

Title: Application to Participate in an FCC Auction.

Form No.: FCC Form 175.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local or Tribal government.

Number of Respondents and Responses: 500 respondents; 500 responses.

Estimated Time per response: 90 minutes.

Frequency of Response: On-occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in sections 154(i) and 309(j)(5) of the Communications Act of 1934, as amended, 47 U.S.C. 4(i), 309(j)(5), and sections 1.2105, 1.2110, 1.2112 of the Commission's rules, 47 CFR 1.2105, 1.2110, 1.2112.

Total Annual Burden: 750 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information collected on FCC Form 175 is made available for public inspection. To the extent that a respondent seeks to have certain information collected on FCC Form 175 withheld from public inspection, the respondent may request confidential treatment of such information pursuant to section 0.459 of the Commission's rules, 47 CFR 0.459.

Needs and Uses: In the *Part 1 Report and Order*, the Commission updated many of its Part 1 competitive bidding rules. The updated Part 1 rules apply to applicants seeking to participate in future non-reverse auctions for Commission licenses and permits, including the forward auction component of the Commission's upcoming television broadcast incentive auction (BIA). The revised information collection on FCC Form 175 implements the modified and new collection requirements contained in sections 1.2105(a)(2), 1.2105(a)(2)(iii)-(vi), (a)(2)(viii)-(x), (a)(2)(xii), 1.2105(a)(3), 1.2105(c)(3), 1.2110(b)(1), 1.2112(b), and 1.2112(b)(1)(iii)-(vi) of the Commission's rules, as adopted in the

Part 1 Report and Order. The information collected on the revised FCC Form 175 will be used by the Commission to determine if an applicant is legally, technically, and financially qualified to participate in a non-reverse Commission auction for Commission licenses and permits, including the forward component of the BIA. Commission staff will review the information collected on FCC Form 175 for a particular auction as part of the pre-auction process, prior to the auction being held. Staff will determine whether each applicant satisfies the Commission's requirements to participate in the auction and, if an applicant claims status as a particular type of auction participant, whether that applicant is eligible for the status claimed. This approach provides an appropriate screen to ensure serious participation and deter possible abuse of the bidding process without being unduly burdensome.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary.

[Docket No. 140819686–5999–02]

RIN 0648–BE38

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery and Golden Crab Fishery of the South Atlantic, and Dolphin and Wahoo Fishery of the Atlantic

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule to implement management measures described in Amendment 34 to the Fishery Management Plan (FMP) for the Snapper-Grouper Fishery of the South Atlantic Region, Amendment 9 to the FMP for the Golden Crab Fishery of the South Atlantic Region, and Amendment 8 to the FMP for the Dolphin and Wahoo Fishery of the Atlantic; collectively referred to as the Generic Accountability Measures (AM) and Dolphin Allocation Amendment (Generic AM Amendment), as prepared and submitted by the South Atlantic Fishery Management Council (Council). This final rule revises the commercial and recreational AMs for numerous snapper-grouper species and golden crab. This final rule also revises commercial and recreational sector allocations for dolphin in the Atlantic. The actions are intended to make the AMs consistent for snapper-grouper species addressed in the final rule and for golden crab, and revise the allocations between the commercial and recreational sectors for dolphin.

DATES: This final rule is effective February 22, 2016.

ADDRESSES: Electronic copies of the Generic AM Amendment, which includes an environmental assessment, a Regulatory Flexibility Act (RFA) analysis, and a regulatory impact review, may be obtained from the Southeast Regional Office Web site at http://sero.nmfs.noaa.gov/sustainable_fisheries/s_atl/2014/am_dolphin_allocation/index.html.

FOR FURTHER INFORMATION CONTACT: Mary Janine Vara, NMFS Southeast Regional Office, telephone: 727–824–5305, or email: mary.vara@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery in the South Atlantic is managed under the FMP for the Snapper-Grouper Fishery of the South Atlantic Region (Snapper-Grouper FMP). The golden crab fishery in the South Atlantic is managed under the FMP for the Golden Crab Fishery of the South Atlantic Region (Golden Crab FMP). The dolphin and wahoo fishery in the Atlantic is managed under the FMP for the Dolphin and Wahoo Fishery of the Atlantic (Dolphin Wahoo FMP). The FMPs were prepared by the Council and implemented by NMFS through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On July 15, 2015, NMFS published a notice of availability for the Generic AM

Amendment in the **Federal Register** and requested public comment (80 FR 41472). On September 29, 2015, NMFS published a proposed rule for the Generic AM Amendment in the **Federal Register** and requested public comment (80 FR 58448). On October 14, 2015, NMFS approved this amendment. The notice of availability, proposed rule, and the Generic AM Amendment set forth additional rationale for the actions contained in this final rule. A summary of the actions implemented by this final rule is provided below.

Management Measures Contained in This Final Rule

Modifications to Commercial and Recreational AMs for Snapper-Grouper Species and Golden Crab

This final rule revises the AMs for golden tilefish, snowy grouper, gag grouper (gag), red grouper, black grouper, scamp, the other shallow-water grouper complex (SASWG: Red hind, rock hind, yellowmouth grouper, yellowfin grouper, coney, and graysby), greater amberjack, the other jacks complex (lesser amberjack, almaco jack, and banded rudderfish), bar jack, yellowtail snapper, mutton snapper, the other snappers complex (cubera snapper, gray snapper, lane snapper, dog snapper, and mahogany snapper), gray triggerfish (recreational sector), Atlantic spadefish, hogfish, red porgy, the other porgies complex (jolthead porgy, knobbed porgy, whitebone porgy, scup, and saucereye porgy), and golden crab (commercial sector).

This final rule modifies the AMs for these species, including those identified in the species complexes, to make them consistent with the majority of the AMs already in place for other snapper-grouper species. Specifically, the final rule updates the recreational AMs to allow NMFS to close the applicable recreational sector when the recreational annual catch limit (ACL) is met or projected to be met, unless NMFS determines that no closure is necessary based on the best scientific information available. This final rule also modifies the AMs to trigger post-season ACL reductions in the commercial and recreational sectors in the year following any ACL overage under certain situations.

If the recreational sector exceeds its ACL, NMFS will monitor the recreational sector for a persistence in increased landings during the following fishing year. In the following fishing year, if the best scientific information available determines it necessary, NMFS will publish a notice in the **Federal**
