

The first page of any filing should include docket number P-12470-010.

k. *Description of Project Facilities:* The unconstructed project is authorized to be located on the downstream side of the U.S. Army Corps of Engineers Broken Bow Re-Regulation Dam. The project license approved the following new facilities: (1) Three steel 93.5-foot-long penstocks inside the 10-foot-diameter outlet conduit; (2) trashracks; (3) a 112-foot-wide by 23-foot-long powerhouse containing three generating units having a total installed capacity of 4.0 megawatts; (4) a tailrace returning flows to the Little River; (5) a 1,891-foot-long, 13.5-kilovolt (kV) primary transmission; and (6) appurtenant facilities.

l. *Description of Proceeding:* On December 21, 2015, the City of Broken Bow, Oklahoma filed an application to surrender the license for the unconstructed Broken Bow Re-Regulation Dam Hydropower Project. In its filing, the licensee states the project is not financially feasible or constructible because it is unable to enter into a power sales agreement to sell project energy.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .212 and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified

comment date for the particular application.

p. *Filing and Service of Responsive Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to project works which are the subject of the license surrender. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

q. *Agency Comments*—Federal, state, and local agencies are invited to file comments on the described proceeding. If any agency does not file comments within the time specified for filing comments, it will be presumed to have no comments.

[Project No. 14730-000]

Palo Verde Power; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On November 19, 2015, Palo Verde Power filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Palo Verde Hydroelectric Project (Palo Verde Project or project) to be located on the Colorado River, near Blythe, Riverside County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would be located near the existing discharge channel north of Palo Verde Irrigation District's Palo Verde diversion dam. The applicant proposes to generate power by bypassing the releases the irrigation district now makes through the discharge channel's gates into the project's new penstock. The proposed project would consist of: (1) a new 30-foot-long concrete and steel penstock; (2) a new 45-foot-long, 45-foot-wide powerhouse containing a single turbine generator unit with an installed capacity of 29 megawatts; (3) a tailrace discharging powerhouse flows to the existing diversion spill area; (4) less than a mile of 161-kilovolt transmission line; and (5) appurtenant facilities. The project would have an estimated average annual energy generation of 161 gigawatt-hours. There are no federal lands associated with the project.

Applicant Contact: Michael Blakey, Palo Verde Power, 9734 Diablo Vista Ave., Galt, CA 95632; phone: (209) 251-3105.

FERC Contact: Jim Fargo; phone: (202) 502-6095.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments,

motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>.
