Unfunded Mandates

The Unfunded Mandates Reform Act of 1995 requires, at 2 U.S.C. 1532, that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year. This proposed rule would have no such effect on State, local, and tribal governments, or on the private sector.

Approval of California Air Plan Revisions, Department of Pesticide Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the California Department of Pesticide Regulations (CDPR) portion of the California State Implementation Plan (SIP). These revisions concern emissions of volatile organic

compounds (VOCs) from pesticides. We are proposing to approve these rules to regulate these emission sources under the Clean Air Act (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATES: Any comments must arrive by March 9, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R09-OAR-2015-0807 at <http://www.regulations.gov>, or via email to Steckel.Andrew@epa.gov. For comments submitted at [Regulations.gov](http://www.Regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.Regulations.gov). For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

I. The State's Submittal

A. What rules did the State submit?

This proposal addresses additions and amendments to Title 3 of the California

Code of Regulations (3 CCR) made by CDPR Regulation 12–001 (“Nonfumigant Regulations”). Table 1 lists the new and amended regulations

with the dates that they were adopted by the CDPR and submitted by the California Air Resources Board (CARB).

CDPR	3 CCR 6886	Dealer Responsibilities for the SJV Ozone NAA	05/23/13	02/04/15

On August 4, 2015, the submittal for CDPR's Nonfumigant Regulations was deemed by operation of law to meet the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

There are no previous versions of 3 CCR 6558, 6577, 6864, 6880, 6883, 6884, or 6886 in the SIP. We approved earlier versions of 3 CCR 6452, 6452.2 and 6452.4 (now 6881) into the SIP on October 26, 2012 (77 FR 65294).

C. What is the purpose of the submitted rules and rule revisions?

VOCs help produce ground-level ozone, smog and PM, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control VOC emissions. The overall purpose of the new and amended regulations is to regulate certain nonfumigant pesticide products applied to certain crops in the SJV ozone NAA when VOC emissions meet or exceed 95% of the 18.1 tons per day limit on VOC emissions, or 17.2 tons per day. CDPR added or revised the rules specified above largely to establish limits on the sale and use of high-VOC formulations of nonfumigant pesticide products that contain abamectin, chlorpyrifos, gibberellins, or oxyfluorfen as their primary active ingredient, for use on any of the following seven crops: Alfalfa, almond, citrus, cotton, grape, pistachio, and walnut. These restrictions are only triggered when the VOC emissions meet or exceed 17.2 tons per day, as reported in the CDPR's Annual VOC Emissions Inventory Report. They apply only during the

May-October “ozone season.” Once high-VOC product prohibitions are in effect, they must remain in effect until the “hypothetical emissions” (*i.e.*, the estimated VOC emissions if the prohibitions were not in effect) for pesticides in the SJV ozone NAA comply with the 17.2 tons per day limit for at least two consecutive years. The rules include a calculation to determine the “hypothetical emissions.” The rules also require pest control dealers to provide customers written information about these restrictions and to indicate on the invoice that the written information was provided. Pest control advisors are prohibited from recommending a restricted nonfumigant product, unless it qualifies under an exception.

The EPA's technical support document (TSD) has more information about these rules.

II. The EPA's Evaluation and Action

A. How is the EPA evaluating the rules?

SIP rules must be enforceable (see CAA section 110(a)(2)), must not interfere with applicable requirements concerning attainment and reasonable further progress or other CAA requirements (see CAA section 110(l)), and must not modify certain SIP control requirements in nonattainment areas without ensuring equivalent or greater emissions reductions (see CAA section 193).

Generally, SIP rules must require Reasonably Available Control Technology (RACT) for each category of sources covered by a Control Techniques Guidelines (CTG) document as well as each major source of VOCs in ozone nonattainment areas classified as moderate or above (see CAA section

182(b)(2)). Because there are no relevant EPA CTG documents and because there are no major sources of VOCs for nonfumigant pesticides, nonfumigant pesticides are not subject to RACT requirements. However, nonfumigant pesticide use is subject to other VOC limits and requirements described in the TSD.

Guidance and policy documents that we use to evaluate enforceability, revision/relaxation and rule stringency requirements for the applicable criteria pollutants include the following:

1. “Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations,” EPA, May 25, 1988 (the Bluebook, revised January 11, 1990).
2. “Guidance Document for Correcting Common VOC & Other Rule Deficiencies,” EPA Region 9, August 21, 2001 (the Little Bluebook).

B. Do the rules meet the evaluation criteria?

We believe these rules are consistent with CAA requirements and relevant guidance regarding enforceability, stringency, and SIP revisions. The TSD has more information on our evaluation.

C. EPA Recommendations To Further Improve the Rules

The TSD describes additional rule revisions that we recommend for the next time the local agency modifies the rules but are not currently the basis for rule disapproval.

E. Public Comment and Proposed Action

As authorized in section 110(k)(3) of the Act, the EPA proposes to fully approve the submitted rules because we believe they fulfill all relevant requirements. We will accept comments

from the public on this proposal until March 9, 2016. Unless we receive convincing new information during the comment period, we intend to publish a final approval action that will incorporate these rules into the federally enforceable SIP.

III. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the CDPR rules as described in Table 1 of this notice. The EPA has made, and will continue to make, these documents available electronically through www.regulations.gov and in hard copy at the appropriate EPA office (see the ADDRESSES section of this preamble for more information).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- does not provide the EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).
