

On December 15 and 16, 2015, the Department received requests from Catalyst and Irving, respectively, to conduct an expedited review of this countervailing duty order.² Irving supplemented its request on January 6, 2015.³ Catalyst and Irving, companies that were not selected for individual examination during the investigation, made these requests pursuant to 19 CFR 351.214(k).

Initiation of Expedited Review

In accordance with 19 CFR 351.214(k)(1)(i)–(iii), Catalyst and Irving each certified that they exported the subject merchandise to the United States during the period of investigation; that they were not affiliated with an exporter or producer that the Department individually examined in the investigation; and that they informed the Government of Canada, as the government of the exporting country, that the government will be required to provide a full response to the Department's questionnaire.

Therefore, in accordance with 19 CFR 351.214(k), we are initiating an expedited review of the countervailing duty order on supercalendered paper from Canada. Pursuant to 19 CFR 351.214(i)(1) and (k)(3), we intend to issue the preliminary results of this expedited review not later than 180 days from the date of initiation of this review.⁴ As specified by 19 CFR 351.214(k)(3)(i), the period of review will be the same as the original period of investigation, *i.e.*, January 1, 2014, through December 31, 2014.

Pursuant to 19 CFR 351.214(k)(3)(iii), the final results of this expedited review will not be the basis for the assessment of countervailing duties. Instead, this expedited review is intended to establish individual cash deposit rates for Catalyst and Irving, or to exclude from the countervailing duty order a company for which the final results of review are zero or *de minimis*, as provided in 19 CFR 351.214(k)(3)(iv).

Interested parties must submit applications for disclosure under administrative protective orders in

² See letter from Catalyst, "Supercalendered Paper from Canada: Catalyst's Request for Expedited Review," (December 15, 2015). See also letter from Irving, "Supercalendered Paper from Canada: Expedited Review Request of Irving Paper Limited Pursuant to 19 CFR 351.214(k)," (December 16, 2015).

³ See letter from Irving, "Supercalendered Paper from Canada: Supplement to Expedited Review Request of Irving Paper Limited Pursuant to 19 CFR 351.214(k)," (January 6, 2015).

⁴ Under 19 CFR 351.214(k)(i)(2), this period may be extended to 300 days.

accordance with 19 CFR 351.305 and 351.306.

Dated: February 1, 2016.

Gary Taverman,

Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Fisheries of the U.S. Caribbean; Southeast Data, Assessment and Review (SEDAR); U.S. Caribbean Data-Limited Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 46 Review Workshop for U.S. Caribbean Data-Limited Species.

SUMMARY: The SEDAR 46 assessment of the U.S. Caribbean Data-Limited Species will consist of: A Data/Assessment Workshop; a series of Assessment webinars; and a Review Workshop.

DATES: The SEDAR 46 Review Workshop will be held from 9 a.m. on February 23, 2016 until 6 p.m. on February 25, 2016. See **SUPPLEMENTARY INFORMATION**.

ADDRESSES: *Meeting address:* The SEDAR 46 Review Workshop will be held at the Mayfair Hotel and Spa, 3000 Florida Avenue, Miami, FL 33133; telephone: (800) 321–2211.

SEDAR address: 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie Neer, SEDAR Coordinator; telephone: (843) 571–4366 or toll free (866) SAFMC–10; fax: (843) 769–4520; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which

compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Review Workshop agenda are as follows:

The Review Panel participants will review the stock assessment reports to determine if they are scientifically sound.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 3 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 3, 2016.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council will hold a public meeting of the Scientific Uncertainty Subcommittee of the Scientific and Statistical Committee.

DATES: The meeting will be held on Tuesday, February 23, 2016, beginning at 10 a.m. and conclude by 4 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be at the DoubleTree by Hilton Baltimore-BWI Airport; 890 Elkridge Landing Rd, Linthicum Heights, MD 21090.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331 or on their Web site at www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to conduct a peer review of recent analyses conducted by the Northeast Regional Stock Assessment Southern Demersal Working Group (SDWG) relative to stock delineation in the population dynamics models being developed for the northern stock (Cape Hatteras, North Carolina to Maine) of black sea bass (*Centropristis striata*). The results of this review will help guide the SDWG in the treatment of issues related to specification of spatial stock structure in the operating model for this species.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526-5251, at least 5 days prior to the meeting date.

Dated: February 2, 2016.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD224

Marine Mammals; File No. 18537

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that the Alaska Department of Fish and Game (ADF&G), Division of Wildlife Conservation, Juneau, AK [Responsible Party: Robert Small, Ph.D.], has applied for an amendment to Scientific Research Permit No. 18537.

DATES: Written, telefaxed, or email comments must be received on or before March 9, 2016.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 18537 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Rosa L. González or Amy Sloan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 18537 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 18537, issued on August 8, 2014 (79 FR 19578), authorizes takes of Steller sea lions during aerial, vessel, and ground surveys in support of the long-term Steller sea lions research program. It also authorizes incidental disturbance of California sea lions (*Zalophus californianus*), and northern fur (*Callorhinus ursinus*), harbor (*Phoca vitulina*), spotted (*Phoca largha*), ribbon (*Histiophoca fasciata*), ringed (*Phoca hispida hispida*), and bearded (*Erignathus barbatus*) seals during research activities, and annual unintentional mortality of 5 Steller sea lions from the Western Distinct Population Segment (wDPS) and 10 Steller sea lions from the Eastern DPS. See tables in permit for numbers of takes by species, stock and activity. The permit is valid through August 31, 2019.

The permit holder is requesting the permit be amended to increase the number of California and Steller (wDPS) sea lions taken during aerial surveys from 4,725 to 10,000, and from 48,000 to 75,000, respectively. The request is in response to observed trends within recent years of increasing northerly movement of California sea lions, and as a result of this, an increase in observed animals in the current research area. In addition, the use of more sophisticated equipment has provided better resolution and quality of images taken, and, therefore, higher differentiation among pinnipeds observed. The permit holder also requests authorization to increase the volume on a single blood draw from Steller sea lions from up to 1 ml/kg to up to 4 ml/kg. The increase would support research projects related to the impacts of contaminants on immune and endocrine parameters in young Steller sea lions.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are consistent with the Preferred Alternative in the Final Programmatic Environmental Impact Statement for Steller Sea Lion and Northern Fur Seal Research (NMFS
