Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Short-Time Compensation (STC) Grants information collection. Middle Class Tax Relief and Job Creation Act of 2012, Subtitle D, Short-Time Compensation Program, also known as the Layoff Prevention Act of 2012, concerns States that currently participate in, or wish to initiate a layoff aversion program known as STC or work-sharing. The law requires applications, administrative processes, monitoring, and reporting of data between State Workforce Agencies (SWAs) and the ETA. The ETA has principal oversight responsibility for the Unemployment Insurance (UI) program that SWAs operate. The ETA has

developed a data collection for the proper oversight of State STC programs to ensure compliance with the UI system funding and administration under the Layoff Prevention Act. This information collection has been classified as a revision, because information collected related to the temporary financing of STC payments by the Federal Government, applying for an STC grant(s), and applying to operate a temporary Federal STC program (for states without STC programs in state law) were removed. The information collection is no longer necessary for the ETA to carry out its authority.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0499. This information collection is scheduled to expire on February 29, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 26, 2015.

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0499. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Abstract

Proposed Project

The mission of the National Science Foundation (NSF) is to promote the progress of science; to advance the national health, welfare, and prosperity; and to secure the national defense, while avoiding the undue concentration of research and education. In 1977, in response to congressional concern that NSF funding was overly concentrated geographically, a National Science
