

chimpanzee and the social group in which the chimpanzee lives.

Specifically, permissible research, as described in the “Standards of Care for Chimpanzees Held in the Federally Supported Chimpanzee Sanctuary System” at 42 CFR part 9, includes:

- Visual observation;
- Behavioral studies designed to improve the establishment and maintenance of social groups. These activities may cause stress as a result of novel interactions between chimpanzees and caregivers, but they are not considered invasive as long as they are intended to maximize the well-being of the chimpanzees;
- Medical examinations as deemed necessary to oversee the health of the chimpanzees, in the least invasive manner possible. Collection of samples routinely obtained during a physical examination for processing during this time is also considered noninvasive since a separate event is not required;
- Administration and evaluation of environmental enrichment used to promote the psychological well-being of the chimpanzees; and
- Actions taken to provide essential medical treatment to an individual chimpanzee exhibiting symptoms of illness. This applies only to serious illness that cannot be treated while the chimpanzee remains within the colony.
- Observational studies and collection of biomaterial in the wild without interfering with the chimpanzee is also permitted.

These decisions apply to all new or competing renewals of grant applications, contract proposals, intramural protocols, and 3rd party projects. The NIH may issue future guidance about the permissible noninvasive research involving chimpanzees. Researchers are encouraged to contact their program officers for additional information or the Division of Program Coordination, Planning, and Strategic Initiatives at dpcpsi@od.nih.gov.

The NIH’s decision to allow the support of noninvasive research involving the use of chimpanzees, as described in this notice, does not affect requirements for investigators and/or their institutions to obtain permits from the U.S. Fish and Wildlife Service, if applicable, nor does it affect the responsibility to meet all applicable veterinary, colony, and husbandry obligations.

Dated: February 2, 2016.

Lawrence A. Tabak,
Deputy Director, National Institutes of Health.

National Institutes of Health

National Human Genome Research Institute; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Human Genome Research Institute Special Emphasis Panel, KOMP2 (Knockout Mouse Phenotyping Program).

Date: March 3, 2016

Time: 12:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: NHGRI, 5635FL, NHGRI Twinbrook Library, Fishers Lane, Rockville, MD 20852, (Telephone Conference Call).

Contact Person: Lita Proctor, Ph.D., Extramural Research Programs Staff, Program Director, Human Microbiome Project, National Human Genome Research Institute, 5635 Fishers Lane, Suite 4076, Bethesda, MD 20892, 301 496–4550, proctorlrm@mail.nih.gov.

Name of Committee: National Human Genome Research Institute Special Emphasis Panel, Sequencing Technology Special Emphasis Panel.

Date: March 24, 2016.

Time: 8:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Crystal City Marriott at Reagan National Airport, 1999 Salon E & D, Jefferson Davis Highway, Arlington, VA 22202.

Contact Person: Ken D. Nakamura, Ph.D., Scientific Review Officer, Scientific Review Branch, National Human Genome Research Institute, National Institutes of Health, 5635 Fishers Lane, Suite 4076, MSC 9306, Rockville, MD 20852, 301–402–0838, nakamurk@mail.nih.gov.

Submission for OMB Review; 30-Day Comment Request; Application Forms for the NIDA Summer Research Internship Program

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on September 2, 2015, Vol. 80, No. 170, on page 53164. No comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institute of Drug Abuse (NIDA), National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Direct Comments to Omb: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, OIRA_submission@omb.eop.gov or by fax to 202–395–6974, Attention: NIH Desk Officer.

Comment Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, or request more information on the proposed program, contact: Albert Avila, Ph.D., Director, Office of Diversity and Health Disparities, NIDA, NIH, 6001 Executive Blvd., Room 3106, Rockville, MD 20852, or call non-toll-free number (301)–443–0441 or Email your request, including your address to: aavila@nida.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

Proposed Collection: NIDA Summer Research Internship Program 0925–Existing Collection in Use Without an OMB Control Number, National Institute on Drug Abuse (NIDA), National Institutes of Health (NIH).

Need and Use of Information Collection: The NIDA Summer Research Internship program introduces high school and undergraduate students of underrepresented populations to substance abuse research through internships with NIDA grantees at universities across the United States and Puerto Rico. Students intern with NIDA principal investigators for 8–10 weeks during the summer. The internship experience may include laboratory experiments, formal courses, data

collection, data analysis, patient recruitment, manuscript preparation, literature reviews and library research. This outreach and pipeline program exposes students interested in biomedical and behavioral research careers to cutting edge substance abuse research.

This program fills a significant unmet need to encourage and support individuals from underrepresented groups to pursue careers in substance abuse research. The NIDA Summer Research Internship program offers a

unique opportunity to increase the diversity and creativity of the biomedical research workforce by fostering the development of young talent through the creation of mentorship and training opportunities with premier substance abuse research laboratories around the country.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 350.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hours
Application Form	High School Students	100	1	1	100
Application Form	Undergraduates	250	1	1	250

Dated: February 2, 2016.
