

- whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information proposed to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other forms of information technology, e.g.,

permitting electronic submission of responses.

**Overview of This Information Collection**

1. *Type of Information Collection:* Extension of a currently approved collection.
2. *Title of the Form/Collection:* Report of Mail Order Transactions.
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form Number: None. The Department of Justice component is the Drug Enforcement Administration, Office of Diversion Control.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

Affected public (Primary): Business or other for-profit.

Affected public (Other): None.

Abstract: The Drug Enforcement Administration (DEA) collects information regarding mail order transactions conducted between a person regulated by the agency and a nonregulated person (that is, someone who does not further distribute the product) involving the chemicals ephedrine, pseudoephedrine, and phenylpropanolamine. Transactions must use, or attempt to use, the United States Postal Service or any private or commercial carrier.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:*

	Number of responses	Average time per response (hours)	Total annual burden hours
Paper .....	10	1.00	10.00
Electronic .....	88	0.25	22.00
Total .....	98	.....	32.00

6. *An estimate of the total public burden (in hours) associated with the proposed collection:* The DEA estimates that this collection takes 32 annual burden hours.

## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Comment Request for Information Collection for the Workforce Investment Act (WIA) Management Information and Reporting System (OMB Control No. 1205-0420), Extension With Minor Revisions

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Notice.

**SUMMARY:** The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the revisions to the WIA Management Information and Reporting System data collection supporting

statement to update the burden estimate to account for annual changes in hourly rates for respondents and remove any outdated language referencing updates made to the WIA reporting system prior to its 2013 renewal. No other revisions were made to the package.

On July 22, 2015, the Department issued an information collection request (ICR) for implementing WIOA performance requirements in accordance with section 116. Section 136 of WIA will remain in place until the performance requirements under WIOA have been fully implemented. Because we are using WIA performance measures, we are referring to the reports collected under this collection as “WIA Reports.” Generally, WIOA took effect on July 1, 2015 (See WIOA sec. 506(a.)). Sec. 116 of WIOA, which outlines the performance accountability requirements, including the indicators of performance, does not take effect until July 1, 2016 (See WIOA sec. 506(b)(1)). Under the Department’s transition authority, in order to provide for an orderly transition from WIA to WIOA, we will require the states to use the WIA performance metrics in WIA sec. 136 to report on WIOA participants for one program year. This means that WIOA participants who became WIOA participants after July 1, 2015, are being measured according to the WIA section 136 performance measures. Once the Department has fully implemented WIOA’s performance system, and all reporting requirements under WIA are met, the WIA reporting system will be discontinued. ETA seeks extension and approval of WIA reporting requirements during this transition period. Provisions will cover both individuals who were participants under WIA and new participants who enter the workforce system prior to full implementation of WIOA. For convenience we have included references to both the WIA statute and their corresponding updated sections within WIOA.

**DATES:** Written comments must be submitted to the office listed in the addresses section below on or before April 11, 2016.

**ADDRESSES:** Submit written comments to Karen Staha, Office of Policy Development and Research, Room N-5641, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: 202-693-2917 (this is not a toll-free number). Fax: 202-693-2766. Email: [ETAPerforms@dol.gov](mailto:ETAPerforms@dol.gov). A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The accuracy, reliability, and comparability of program reports submitted by States using Federal funds are fundamental elements of good public administration, and are necessary tools for maintaining and demonstrating system integrity. The use of a standard set of data elements, definitions, and specifications at all levels of the workforce system helps improve the quality of performance information that is received by the Department of Labor. The common performance measures are an integral part of ETA’s performance accountability system, and ETA will continue to collect from grantees the data on program activities, participants, and outcomes that are necessary for program management and to convey full and accurate information on the performance of workforce programs to policymakers and stakeholders.

This WIA reporting structure includes quarterly (ETA 9090) and annual (ETA 9091) reports as well as a standardized individual record file for program participants, called the Workforce Investment Act Standardized Record Data (WIASRD). The WIASRD is submitted by the States to ETA and includes participant level information on customer demographics, type of services received, and statutorily defined measures of outcomes. This reporting structure will remain in place until the Department of Labor transitions to performance reporting under section 116 of the Workforce Innovation and Opportunity Act (WIOA).

High quality program performance requires the submission of timely, accurate, and high quality data on the characteristics, services received, and outcomes of program participants. Together, the 9091, 9090, and WIASRD comprise the data collected on WIA participants. As such, these data are necessary for tracking and reporting to stakeholders, information on the usage, services provided, and performance of these programs. These data are used to monitor the core purpose of the programs—mainly, tracking how many people found jobs; did people stay employed; and what were their earnings.

This information collection has been classified as a revision with only minor edits made to the supporting statement to account for adjustment in burden estimates based on annual changes in hourly rates for respondents and to
