Meeting Registration: February 1, 2016 through March 4, 2016. Registration to attend the workshop in-person is available only for March 11 and not March 10 and will close prior to March 4 if space capacity at NIEHS is reached. The webcast is available on both March 10 and 11. Registration to view the workshop via webcast is required and will remain open through March 11, 2016.

Webcast: The workshop will be webcast. The URL will be provided by email in the registration confirmation.

FOR FURTHER INFORMATION CONTACT: Dr. Windy Boyd, OHAT-ORoC, DNTP, NIEHS, P.O. Box 12233, MD K2-04, Research Triangle Park, NC 27709. Telephone: (919) 541-9810, email: boydw@niehs.nih.gov.

SUPPLEMENTARY INFORMATION:

Background: Many people experience interruptions in light-dark cycles due to their lifestyle choices (e.g., use of electronic devices at night), location of their residences (e.g., urban light pollution), or working at night (e.g., shift work). Exposures to ALAN or changes in the timing of exposures to natural light (such as with ‘jet lag’) may disrupt biological processes controlled by endogenous circadian rhythms, potentially resulting in adverse health outcomes. NTP is interested in understanding the health effects of circadian disruption related to ALAN and shift work. ORoC and OHAT plan to conduct health hazard assessments focusing on cancer (ORoC) and non-cancer health outcomes (OHAT).

NTP is convening a workshop on March 10–11, 2016, to obtain external scientific input on topics important for informing the literature-based health hazard assessments, including strategies for integrating data across evidence streams and exposure scenarios, and on data gaps and research needs.

The workshop includes the following sessions:

- Circadian disruption
- ALAN
- shift work and trans-meridian travel (jet lag)
- additional overlapping exposures in ALAN/shift work studies
- strategies to synthesize across different types of exposure scenarios studies
- data gaps and research needs

Each session will start with a brief presentation followed by a short question-and-answer period and/or moderator-led discussion.

Meeting and Registration: This workshop is open to the public, free of charge, with attendance limited only by the space available. Individuals who plan to attend in-person for March 11, 2016, should register at http://ntp.niehs.nih.gov/go/workshop_ALAN by March 4, 2016, to facilitate meeting planning. Registration for in-person attendance will close before March 4 if space capacity at NIEHS is reached. Registration is required to view the webcast; the URL for the webcast will be provided in the email confirming registration. A preliminary agenda and additional information are available at http://ntp.niehs.nih.gov/go/workshop_ALAN. Interested individuals are encouraged to access the Web site to stay abreast of the most current information regarding the workshop.

Visitor and security information for those attending in-person is available at <https://www.niehs.nih.gov/about/>
