SURFACE TRANSPORTATION BOARD

49 CFR Part 1180

[Docket No. EP 714]

Information Required in Notices and Petitions Containing Interchange Commitments

AGENCY: Surface Transportation Board.

ACTION: Final rule.

SUMMARY: The Surface Transportation Board (STB or Board) is issuing a final rule to insert language that was

inadvertently omitted when an amended rule was promulgated on September 5, 2013. This decision is effective on its date of publication.

DATES: This rule is effective on February 17, 2016.

FOR FURTHER INFORMATION CONTACT:

Amy C. Ziehm at (202) 245–0391.

Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at (800) 877–8339.

SUPPLEMENTARY INFORMATION: On September 5, 2013, the Board, with Vice Chairman Begeman dissenting, adopted final rules that established additional disclosure requirements for notices and petitions for exemption where the underlying lease or line sale includes an interchange commitment. *Information Required in Notices and Petitions Containing Interchange Commitments* (2013 Final Rules), EP 714 (STB served Sept. 5, 2013). Interchange commitments are "contractual provisions included with a sale or lease of a rail line that limit the incentive or the ability of the purchaser or tenant carrier to interchange traffic with rail carriers other than the seller or lessor railroad." *Review of Rail Access & Competition Issues—Renewed Pet. of the W. Coal Traffic League*, EP 575, slip op. at 1 (STB served Oct. 30, 2007). The purpose of this rulemaking was to improve the ability of the Board and affected parties to determine at the outset whether a transaction that includes an interchange commitment is appropriate for the exemption process or raises competitive issues that require a more detailed examination.

The 2013 Final Rules' addition of a requirement to certify the existence of any interchange commitments was intended to apply to all notices and petitions for exemption involving transactions where the underlying lease or line sale could include an interchange commitment. 2013 Final Rules 1, 3. The Board included such language in the amended versions of 1121.3(d)(1), 1150.33(h)(1), and 1150.43(h)(1). Due to an oversight, however, the introductory language of 49 CFR 1180.4(g)(4)(i) was not modified. This inadvertent error will now be addressed by amending 49 CFR 1180.4(g)(4)(i). Specifically, 49 CFR 1180.4(g)(4)(i) will now state that the filing party must certify whether or not a proposed acquisition or operation of a rail line involves a provision or agreement that may limit future interchange with a third-party connecting carrier, whether by outright prohibition, per-car penalty, adjustment in the purchase price or rental, positive
